

# High efficiency, two-digit numeric displays

## LB-202 BL Series

The LB-202 BL series are small, two-digit numeric displays with a character height of 6.4 mm. These displays can be combined with appropriate displays in the three-digit LB-203 BL series to form a multi-digit display with an equal pitch interval between characters.

### ●Features

- 1) Four colors are available : red, orange, yellow and green.
- 2) Common anode and common cathode configurations are available.
- 3) Dynamic lighting system to minimize the number of pins.
- 4) The package surface is painted black and the segments are colored the display color.
