### DESCRIPTION

The **HCC4095B/4096B** (extended temperature range) and **HCF4095B/4096B** (intermediate temperature range) are monolithic integrated circuits, available in 14 lead dual in-line plastic or ceramic package and plastic micropackage.

The **HCC/HCF4095B** and **HCC/HCF4096B** are J-K Master-Slave Flip-Flops featuring separate AND gating of multiple J and K inputs. The gated J-K input control transfer of information into the master section during clocked operation. Information on the J-K

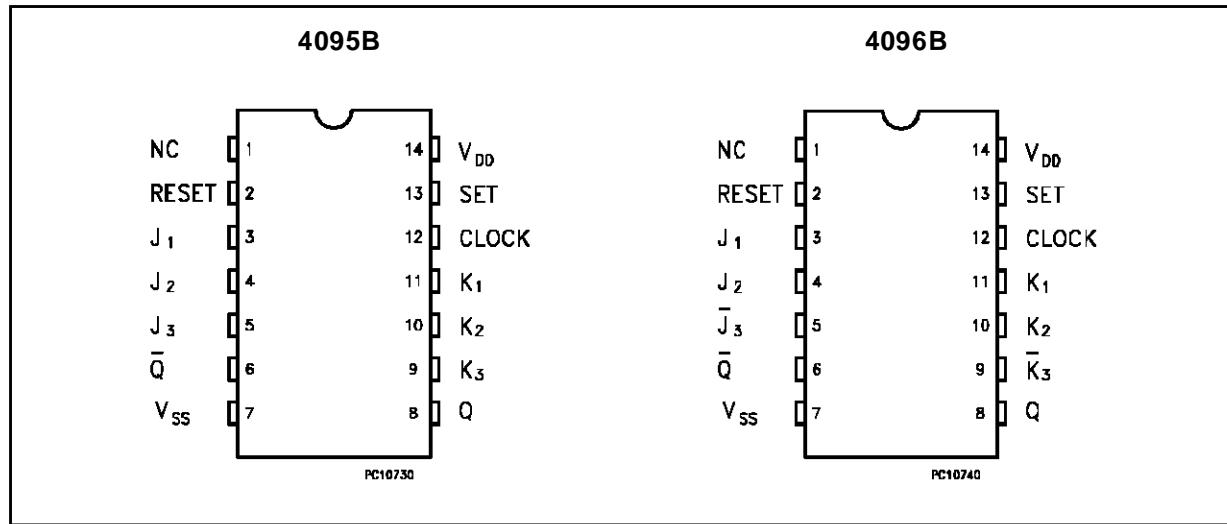

inputs is transferred to the Q and  $\bar{Q}$  outputs on the positive edge of the clock pulse. SET and RESET inputs (active high) are provided for asynchronous operation.
