

# DATA SHEET

## **BZV86 series** Low-voltage stabistors

Product specification  
Supersedes data of April 1992

1996 Mar 21

**Low-voltage stabistors****BZV86 series****FEATURES**

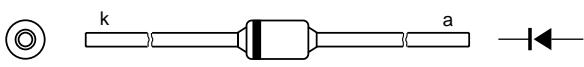

- Low-voltage stabilization
- Forward voltage range: 1.4 to 3.2 V
- Total power dissipation:  
max. 330 mW
- Differential resistance range:  
max. 20 to 35  $\Omega$ .

**DESCRIPTION**

Low-voltage stabilization diode in a hermetically-sealed SOD27 (DO-35) glass package. The series consists of four types: BZV86-1V4 to BZV86-3V2.

**APPLICATIONS**

- Power clipping
- Level shifting
- Low-voltage regulation
- Temperature stabilization.

MAM246

The diodes are type branded.

Fig.1 Simplified outline (SOD27; DO-35) and symbol.

**LIMITING VALUES**

In accordance with the Absolute Maximum Rating System (IEC 134).

SYMBOL	PARAMETER	CONDITIONS	MIN.	MAX.	UNIT
$V_R$	continuous reverse voltage		–	10	V
$I_F$	continuous forward current BZV86-1V4	$T_{amb} = 25^\circ\text{C}$	–	200	mA
	BZV86-2V0		–	150	mA
	BZV86-2V6		–	125	mA
	BZV86-3V2		–	100	mA
$P_{tot}$	total power dissipation		–	330	mW
$T_{stg}$	storage temperature		–65	+150	$^\circ\text{C}$
$T_j$	junction temperature		–	150	$^\circ\text{C}$

## DEFINITIONS

<b>Data sheet status</b>	
Objective specification	This data sheet contains target or goal specifications for product development.
Preliminary specification	This data sheet contains preliminary data; supplementary data may be published later.
Product specification	This data sheet contains final product specifications.
<b>Limiting values</b>	
Limiting values given are in accordance with the Absolute Maximum Rating System (IEC 134). Stress above one or more of the limiting values may cause permanent damage to the device. These are stress ratings only and operation of the device at these or at any other conditions above those given in the Characteristics sections of the specification is not implied. Exposure to limiting values for extended periods may affect device reliability.	
<b>Application information</b>	
Where application information is given, it is advisory and does not form part of the specification.	

## LIFE SUPPORT APPLICATIONS

These products are not designed for use in life support appliances, devices, or systems where malfunction of these products can reasonably be expected to result in personal injury. Philips customers using or selling these products for use in such applications do so at their own risk and agree to fully indemnify Philips for any damages resulting from such improper use or sale.
