Sluckey's AB763 Tremolo Mods

TREMOLO NOTES

- 1: Change to 0.022uF for slower speed.
- 2: Cap not shown on original Hoffman layout.
- 3: Change to 100K-220K for stronger tremolo.
- 4: Change to 0.047uF for stronger tremolo.
- 5: Replace 4.7K||22uF with LED for much stronger tremolo and visual indicator.
