HAVE JUST PUBLISHED

The Concepts and Theories of Modern Physics.

THE CONCEPTS AND THEORIES OF MODERN PHYSICS. By J. B. STALLO. "International Scientific Series." 12mo, cloth. \$1.75.

"Judge Stallo's work is an inquiry into the validity of those mechanical conceptions of the universe which are now held as fundamental in physical science. He takes up the leading modern doctrines which are based upon this mechanical conception, such as the atomic constitution of matter, the kinetic theory of gases, the conservation of energy, the nebular hypothesis, and other views, to find how much stands upon solid empirical ground, and how much rests upon metaphysical speculation. Since the appearance of Dr. Draper's 'Religion and Science,' no book has been published in the country calculated to make so deep an impression on thoughtful and educated readers as this volume. . . . The range and minuteness of the author's learning, the acuteness of his reasoning, and the singular precision and clearness of his style, are qualities which very seldom have been jointly exhibited in a scientific treatise."—*N. Y. Sun.*

A Treatise on Chemistry.

A TREATISE ON CHEMISTRY. By H. E. ROSCOE, F. R. S., and C. SCHORLEMMER, F. R. S., Professors of Chemistry in the Victoria University, Owens College, Manchester. Volume III.—THE CHEMISTRY OF THE HYDROCARBONS AND THEIR DERIVATIVES, OR ORGANIC CHEMISTRY. Part I. 8vo, cloth. Price, \$5.00. Previous volumes are: Volume I.—NON-METALLIC ELEMENTS. Price, \$5.00. Volume II.—Part I.—METALS. Price, \$3.00. Volume II.—Part II.—METALS. Price, \$3.00.

"The authors are evidently bent on making their books the finest systematic treatise on modern chemistry in the English language, an aim in which they are well seconded by their publishers, who spare neither pains nor cost in illustrating and otherwise setting forth the work of these distinguished chemists."—*London Athenæum.*

Adolph Strecker's Short Text Book of Organic Chemistry.

ADOLPH STRECKER'S SHORT TEXT BOOK OF ORGANIC CHEMISTRY. By DR. JOHANNES WISLICENUS. Translated and edited, with extensive additions, by W. H. HODGKINSON, Ph. D., and A. J. GREENAWAY, F. I. C. 8vo, cloth, pages 790. Price, \$5.00.

The great popularity which Professor Wislicenus's edition of "Strecker's Text-book of Organic Chemistry" has enjoyed in Germany has led to the belief that an English translation will be acceptable. Since the publication of the book in Germany the knowledge of organic chemistry has increased, and that has necessitated many additions and alterations on the part of the translators.

D. APPLETON & CO., Publishers, 1, 3 and 5 Bond Street, New York.

International Scientists' Directory.

THE INTERNATIONAL SCIENTISTS' DIRECTORY for 1881-2, contains the names and addresses of from 15,000 to 20,000 Scientific men and amateurs in all parts of the world, together with their special branches of Science, and other items of interest relating to collections, duplicates, desiderata, etc. of each.

This is the first work of its kind ever attempted, and it will be found of great value to all who are interested in any department of Science. Price, in paper, \$2.00. In cloth, \$2.50. Sent post-paid on receipt of price.

S. E. CASSINO, Publisher,

32 Hawley Street, Boston, Mass.

A FEW OF THE

DOMESTIC FILTERS,

Which can be Attached directly to the Faucets,

FOR SALE.**MADE UNDER THE CURTIS-BIGELOW PATENTS.**

In this small but complete and very effective filter, the water passes through seven sieves, a layer of compressed sponge, another of sand, and a third, deodorizing layer of charcoal, coming out as clear and pure as crystal. It is attached directly to the faucet, and the water flows through it in a full, steady stream. Wherever water is to be drawn for drinking or cooking purposes this filter is invaluable, no other being so durable, so easily cleaned, or so efficient in its operation.

The above are **NICKEL PLATED** and will be forwarded on receipt of \$5.00.

Address to Mr. MATHEWS, care of Office of "SCIENCE."
