

Sphere of Influence in South Africa," illustrated with a map in colors; Professor Max Müller writes on "Some Lessons of Antiquity;" Mrs. Lynn Linton continues her series on "The Characteristics of English Women," and Mme. Blaze de Bury treats of "The Decadence of French Thought;" and J. D. Bourchier writes a timely paper on "The Heritage of the Hapsburgs." Other articles include "Australia in 1888," by the Earl of Carnarvon; "Obstruction and its Cure," by Sir G. Baden-Powell; and "The London Water-Supply," by Dr. Roose.

— A "History of West Virginia," from 1732 to the present time, has been written by Professor Virgil A. Lewis of Mason City, Mason County, W. Va. Only a limited number of copies will be published, and they will be sold by the author. "Professor Lewis," says the *Evening Post*, "has carefully examined all authentic rec-

ords of the State, the archives at Richmond, and those at county-seats, — in all, nearly one hundred. The first part of the book treats of the first permanent settlement in the Shenandoah valley, and comes down to the revolutionary war. Part second covers the ground between the Revolution and the civil war, and part third brings the narrative down to the present time."

— It is proposed to issue from time to time, in connection with the *Johns Hopkins University Studies in Historical and Political Science*, brief notes on current topics of interest. "Municipal Government in England," a report of an interview with Albert Shaw, Ph.D., was issued in January, 1889.

— *The Trained Nurse*, published from Buffalo, N. Y., suggests a new opening for professional nurses on board the large ocean-steamers, caring for seasick passengers.

DRAGON'S TEETH.

Translated from the Portuguese by Mrs. MARY J. SERRANO. 12mo. \$1.50.

"Suggests the close detail, and even the nicety of touch that distinguishes Daudet. It turns upon the temptation and unfaithfulness of a weak but loving woman. The plot is what we have learned to look upon as peculiarly French, and it is treated with French simplicity and frankness, without coarseness. It is a terrible presentation of the sure results of immorality. The slow retribution that follows the sin is remarkably depicted."—Nora Perry.

"A story of sin and its consequences powerfully set forth, and withal there is a great deal of humor in the story, a keen insight into the weaknesses of human nature that is delicious. It is wonderfully good. As a work of literary art, as a story, as a picture of life as it is lived under certain conditions, the book is a model."—Jeannette L. Gilder.

A Novel by the Author of "The Story of Margaret Kent."

A DAUGHTER OF EVE.

1 vol., 12mo, \$1.50.

"Exceptional cleverness, effective satire, a great deal of humor."—Boston Advertiser.

"A story that for rare merit and interest will surpass even either of this author's former novels that have won such a place in the literary world."—Home Journal.

"Graciously winning as was 'The Story of Margaret Kent,' brilliant and moving as was the tale of 'Queen Money,' we are strongly inclined to say, after reading 'A Daughter of Eve,' that the author has attained to a still more gratifying artistic triumph than in the case of either of the other two novels we have mentioned. Brilliance, sparkle and wit 'A Daughter of Eve' has in abundance, but it also has a definite ethical motive treated with inimitable taste."—Beacon.

PRIMER OF SCIENTIFIC KNOWLEDGE.

Man, Animals, Plants, Stones, The Three States

of Bodies, Reading Lessons, Summaries,

Questions, Subjects for Composition.

BY PAUL BERT,

Author of "Bert's First Steps in Scientific Knowledge."

TRANSLATED AND ADAPTED FOR AMERICAN SCHOOLS.

Illustrated 12mo, cloth, 36 cents.

This new work is carried out in the same spirit as "First Steps in Scientific Knowledge," and follows the same plan. The book is so arranged that the larger work becomes a review and extension of the subject. The method, which consists in presenting to the child during two or three consecutive years the same subjects, in the same order, following the same general arrangement, but with an increasing number of facts and a progressive elevation of ideas, is an excellent one, and is now universally adopted.

The reductions have naturally been largely in Physics, Chemistry, and Vegetable and Animal Physiology. Yet, a somewhat fuller development has been given to the descriptive part of Natural History, and to applications easy to comprehend. These two works, then, depend upon each other. They form a coherent whole. The first prepares for the second, the second completes the first; at the same time each has its individuality, and can be used without the other.

In the present translation only such changes and additions have been made as were necessary to Americanize the book and adapt it to the requirements of public and private schools in this country.

The illustrations are for the most part entirely new. Those upon Natural History were drawn from life by some of our best artists.

The Guaranty Investment Company makes loans upon fertile farms in the choicest portions of Kansas and Nebraska and has adopted the policy of sending a Committee of its Investors each year to examine its loans and methods of business.

The Committee this year consisted of PROF. A. H. BERLIN, Principal of the High School Montrose, Pa., and MAJ. THEODORE L. POOLE, Ex-U. S. Pension Agent, Syracuse, N. Y. Both of these gentlemen are persons of the highest character and have the confidence of the Communities in which they reside.

The Committee has recently returned and has made a very interesting Report upon the general development of Kansas and Nebraska as well as the business of the Company. The Company will be glad to send this Report to any address.

ONE LANGUAGE FOR THE WHOLE WORLD.

WORLD-ENGLISH :

THE UNIVERSAL LANGUAGE. 25 CENTS.

EVERY one has heard of the butcher who, after a long search for his knife, at last found it in his mouth: so speakers of English have been seeking for a universal language, when, lo! it is in their mouths. The intelligibility of English words has been obscured by a dense mist of letters. This is now dispersed by A. Melville Bell, who has already won a world-wide reputation through his invention of "Visible Speech," the great boon to deaf-mutes. Professor Bell calls this new discovery of his "World-English," and the result is a language which cannot fail to meet with acceptance, and at once supersede the supposed necessity for "Volapük," or any other artificial language. No language could be invented for international use that would surpass English in grammatical simplicity, and in general fitness to become the tongue of the world. It is already the mother-tongue of increasing millions in both hemispheres, and some knowledge of the language is demanded by all educated populations on the globe. Social and commercial necessities require that the acquisition of this knowledge shall be facilitated, and it is believed that Professor Bell's invention has removed the last impediment to English becoming the universal language, for which vague desires have long been entertained, although hitherto only futile efforts have been made.

Ex-President Andrew D. White, of Cornell University, says: "I believe that the highest interests of Christian civilization and of humanity would be served by its adoption. China and Japan would be made English-speaking peoples within fifty years, and so brought within the range of Christianizing and civilizing ideas, in the largest sense. All existing missionary work is trivial as compared with this. For your system would throw wide open those vast countries, as, indeed, all the countries of the world, to the whole current of English and American thought."

For Diffusion of English throughout the World
AS

THE UNIVERSAL LANGUAGE

This "Hand-Book of World-English" is the Complete, Simple, and Efficient Medium.

FOREIGNERS

Will Acquire, by Means of this Hand-Book, a
PERFECT PRONUNCIATION OF ENGLISH.

For Primary School Pupils and Illiterate Adults

World-English is a Royal Road to Reading.

To Teachers of English and Modern Languages

This Hand-Book will be of Primary Importance
as a Phonetic Directory.

DEFECTS OF SPEECH

Will be Readily Corrected by Means of the Articulative Directions in this Hand-Book.

HAND-BOOK OF WORLD-ENGLISH, 25 CENTS.

The plan of this little book is altogether new. Letters and sounds are so associated, in all the exercises, that from the mere knowledge of letters a learner cannot fail to pronounce words with certainty. English reading will thus be easily acquired, whether by natives or foreigners, children or adults.

The general resemblance of World-English to Literary English is such that any reader of the latter deciphers the former at sight, or, at most, after a few minutes' study of the new letters. A like result may be anticipated for those who shall learn to read from World-English. They will transfer their power of reading to the literary form of the language, almost without effort. The orthographic aspect of words will, besides, be so fixed in the eye, by contrast, that spelling will be remembered as — what it really is — a pictorial association with words.

No special training is required to qualify teachers for using this book. The subject can even be successfully introduced in the kindergarten and the nursery. This phonetic mode of initiation in reading cannot be too strongly urged on the attention of School Boards on both sides of the Atlantic.

The ordinary orthography of each word is interlined with the World-English version throughout the Exercises and Readings.

So set down, our tongue is the best for the world to unite upon.—*Brooklyn Eagle*.

The idea of Mr. Bell has much to recommend it, and the presentation is charmingly clear.—*American*, Phila.

The result is a language which cannot fail to meet with acceptance.—*Boston Traveller*.

Has the merit of great ingenuity.—*Railway Age*.

His treatise, as a study of English orthoepy, condenses the result of much thought and experience in small compass.—*The Critic*.

World-English deserves the careful consideration of all serious scholars.—*Modern Language Notes*.

World-English is the English language unburdened of its chaotic spelling.—*Popular Science Monthly*.

We commend it to the attention of teachers.—*Ottawa Globe*.

"World-English" and "Hand-Book of World-English" can be had of all booksellers, or will be sent for 50 cents, post free, by the publisher,

and it is our aim to send ONLY such help as is or-
dered in every instance, and our patrons can rely
on us to send strictly first-class help, the references
of whom we personally investigate before sending
to any one. We simply request a trial, and are con-
vinced that we will give satisfaction in every case.
We have on hand help in every branch, which we
can send upon receipt of telegram or letter, and
FOR WHICH WE MAKE NO CHARGE TO AN EM-
PLOYER.

THE CHEQUE BANK LIMITED.

ESTABLISHED IN LONDON, 1873.

CHIEF OFFICE, 4 Waterloo Place, Pall
Mall, London.

TRUSTEES:

The Right Honorable JOHN BRIGHT, M.P.

The Right Honorable EARL BEAUCAMP.

Bankers: Bank of England.

The Capital of the Bank and its Guarantee Fund of 50% is invested in Government Securities.

The Bank does not discount Notes or Bills, nor speculate, but loans its Deposits against Government Securities, thus making the Cheque Bank Cheques EQUAL TO CASH—as Bank of England Notes are.

The Cheque Bank issues Cheques singly or in books from ONE POUND upwards, for the use of Travelers, and for others remitting money to Europe, available in every town in England, Scotland, Ireland, and Wales. In every town of Europe, and all other parts of the world.

Cheque Bank Cheques are accepted as Cash by all the British Government Offices.

VISITORS TO THE PARIS EXHIBITION this summer can get the Cheque Bank Cheques cashed at 50 Banking Houses in Paris.

Travelers and others holding Cheque Bank Cheques can have their mail matter addressed to them, care of the Cheque Bank, London, who will take charge of the same and forward to any address.

For Hand-Book containing List of upwards of 2000 of the principal Banking Houses throughout the World who Cash the Cheque Bank Cheques, and for all information, apply to the AGENCY,
