The Guarantee Investment Company makes loans upon fertile farms in the choicest portions of Kansas and Nebraska and has adopted the policy of sending a Committee of its Investors each year to examine its loans and methods of business.

The Committee this year consisted of PROF. A. H. BERLIN, Principal of the High School Montrose, Pa., and MAJ. THEODORE L. POOLE, Ex-U. S. Pension Agent, Syracuse, N. Y. Both of these gentlemen are persons of the highest character and have the confidence of the Communities in which they reside.

The Committee has recently returned and has made a very interesting Report upon the general development of Kansas and Nebraska as well as the business of the Company. The Company will be glad to send this Report to any address.

The following names are taken from the long list of Investors in our Mortgages:

GEOLOGY AT A GLANCE.

Ives Strata Map of part of the United States of America and Canada,

In which the Architecture of the Earth's Crust is Graphically Exhibited, Illustrating Fundamental Facts alike of

STRUCTURAL GEOLOGY AND PHYSICAL GEOGRAPHY.

The Strata Map is a device for the more efficient teaching of Physical Geography and Elementary Geology in Schools. It consists of a series of Ten Superimposed Maps, of DIFFERENT COLORS, representing the several geological formations of the district, enclosed in a glazed frame, the whole hinged to ad-

mit of examination in detail. By its means *superposition, denudation, and outcrop* of strata are graphically exhibited, with the phenomena of *escarpments, outliers, inliers, dip, strike, conformability, &c.*, and the Cards may be bent to show *synclinal or anticlinal* folds.

OPINIONS OF EMINENT GEOLOGISTS.

Yale University.

"Well fitted for the use of instruction in the science."

Professor James D. Dana.

Professor Addison E. Verrill.

"It will be of very great advantage in the teaching of geology."

Harvard University.

Professor N. S. Shaler.

"An extremely useful adjunct to our means of illustration."

Johns Hopkins University.

President D. C. Gilman.

"Wherever American geology is taught your map should be a part of the apparatus."

Pennsylvania University.

Professor Geo. A. Koenig.

"The map will be of special use in schools, which can only devote a short time to the study of Geology."

Michigan University.

Professor Alexander Winchell.

"It seems to me that the device will commend the study of Geology to many persons who might otherwise regard the subject as difficult and uninviting. The work prepared by Mr. Ives ought to be used extensively in American schools."

Cornell University.

Professor H. Shaler Williams.

"A valuable aid to teachers of geology as a means of graphically representing the grand facts of stratigraphy in the Eastern United States."

Columbia College, New York.

Professor J. S. Newberry.

"A valuable aid in teaching geology, giving as it does to the student a clear idea of the superposition of the different geological systems at a glance."

Dartmouth College, Hanover, N. H.

Professor C. H. Hitchcock.

"Am satisfied that its use will greatly assist students to understand the geological structure of the country."

SIZE 30x24 INCHES. PRICE \$17.50.

Academy of Natural Sciences of Philadelphia.

Professor Angelo Heilprin.

"The representation of Strata, as imposed one upon the other, by means of cardboard is certainly a good plan, for apart from rendering more intelligible the general expressions of the Map, it permits of ready alteration and the possibility of constantly bringing the map up to date, in other words to make it conform to more recent discoveries."

Boston Society of Natural History.

Professor Alpheus Hyatt.

"Your map representing superposition and the various phenomena of geological science, so far as the distribution of rocks on this continent is concerned, has greatly interested me. I think that in the hands of a good teacher it would prove an efficient and useful adjunct in the teaching of geology."

American Museum of Natural History.

Professor R. P. Whitfield.

"In the direction of a want long felt by Teachers of Geology and will undoubtedly be appreciated by them as well as by the student."

U. S. Geological Survey.

Major J. W. Powell, Director.

"After examination I am able to state that the work has been executed with care and fidelity, and I believe it will be a valuable aid to teachers."

New York State Survey.

Professor James Hall, State Geologist

"I believe that maps constructed upon this method would be extremely useful in the hands of competent teachers."

Pennsylvania Survey.

Professor J. P. Lesley, State Geologist.

"A piece of new and useful apparatus for teaching Geology, by representing to the eye of the student the areas of superimposed formations. I cordially recommend it to teachers and students."

New Jersey Survey.

Professor Geo. H. Cook, State Geologist.

"It is very neatly done and must prove a great help to intelligent teaching and studying of Geological Science."

"The Week, one of the ablest papers on the continent." — *Descriptive America*.

ENLARGED AND IMPROVED.

THE WEEK:

A Canadian Journal of Politics, Literature, Science and Arts.

PUBLISHED EVERY FRIDAY.

\$3.00 per Year. \$1.00 for Four Months.

THE WEEK has entered on its SIXTH year of publication, greatly enlarged and improved in every respect, rendering it still more worthy the cordial support of every one interested in the maintenance of a first-class literary journal.

The independence in politics and criticism which has characterized THE WEEK ever since its first issue will be rigidly maintained; and unceasing efforts will be made to improve its literary character and increase its value and attractiveness as a journal for the cultured home. Many new and able writers are now, or have promised to become, contributors to its columns, and the constant aim of the Publisher will be to make THE WEEK fully equal to the best literary journals in Britain and the United States.

As heretofore, PROF. GOLDWIN SMITH will, from time to time, contribute articles. London, Paris, Washington and Montreal letters from accomplished correspondents will appear at regular intervals. Special Ottawa Letters will appear during the sessions of Parliament.

THE WEEK in its enlarged form will be the same size as "Harpers' Weekly," and the largest paper of its class on the continent.
