

— *The American Garden* of New York has taken another step forward by the incorporation of its business under the title of "The Garden Publishing Company, Limited." The management goes on largely in the same hands, but with the more intimate connection of several able men, who really have had much to do in making *The American Garden* what it has become; and, with increased means, the editor expects to more rapidly improve the magazine, and increase the business in proper lines. The organization of the new company stands as follows: Lawson Valentine, president; Charles Barnard, vice-president; L. H. Bailey; John DeWolf, secretary; Edgar H. Libby, treasurer. Mr. Valentine is also president of the Christian Union Company; a prominent member of the great publishing-house of Houghton, Mifflin, & Co., owner of Houghton Farm; and president of the Lawson Valentine Company, makers of fine varnishes. Mr. Barnard is connected with The Century Company, author of that wonderfully successful

drama, "The County Fair," author of numerous successful books on technical subjects, and a practical horticulturist as well. Professor Bailey is head of the new horticultural department at Cornell University, and a thoroughly practical man of wide experience. Mr. DeWolf is a professional landscape-gardener, for several years head of the art department and assistant editor of *The American Garden*. Mr. Libby has been the editor and publisher for four years and a half, and has pushed the business with hard work and exceptional skill.

— The editorial management of the *North American Review* is at present in the hands of Mr. William H. Rideing.

— Macmillan & Co. will publish shortly an appendix to Grove's "Dictionary of Music and Musicians," which completes the fourth and concluding volume of the work. A full index to the work is in preparation, which will be published later in a separate volume.

IN PRESS FOR EARLY PUBLICATION.

GEOLOGY AT A GLANCE.

Ives Strata Map of the United States,

In which the Architecture of the Earth's Crust is Graphically Exhibited, Illustrating Fundamental Facts alike of

STRUCTURAL GEOLOGY AND PHYSICAL GEOGRAPHY.

The Strata Map is a device for the more efficient teaching of Physical Geography and Elementary Geology in Schools. It consists of a series of Superimposed Maps, of DIFFERENT COLORS, representing the several geological formations of the district, enclosed in a frame, the whole hinged to ad-

mit of examination in detail. By its means *superposition, denudation, and outcrop of strata* are graphically exhibited, with the phenomena of *escarpments, outliers, inliers, dip, strike, conformability, &c.*, and the Cards may be bent to show *synclinal or anticlinal* folds.

OPINIONS OF EMINENT GEOLOGISTS.

- Yale University. Professor James D. Dana.
"Well fitted for the use of instruction in the science."
Professor Addison E. Verrill.
"It will be of very great advantage in the teaching of geology."
Harvard University. Professor N. S. Shaler.
"An extremely useful adjunct to our means of illustration."
Johns Hopkins University. President D. C. Gilman.
"Wherever American geology is taught your map should be a part of the apparatus."
Pennsylvania University. Professor Geo. A. Koenig.
"The map will be of special use in schools, which can only devote a short time to the study of Geology."
Michigan University. Professor Alexander Winchell.
"It seems to me that the device will commend the study of Geology to many persons who might otherwise regard the subject as difficult and uninviting. The work prepared by Mr. Ives ought to be used extensively in American schools."
Cornell University. Professor H. Shaler Williams.
"A valuable aid to teachers of geology as a means of graphically representing the grand facts of stratigraphy in the Eastern United States."
Columbia College, New York. Professor J. S. Newberry.
"A valuable aid in teaching geology, giving as it does to the student a clear idea of the superposition of the different geological systems at a glance."
Dartmouth College, Hanover, N. H. Professor C. H. Hitchcock.
"Am satisfied that its use will greatly assist students to understand the geological structure of the country."

- Academy of Natural Sciences of Philadelphia. Professor Angelo Heilprin.
"The representation of Strata, as imposed one upon the other, by means of cardboard is certainly a good plan, for apart from rendering more intelligible the general expressions of the Map, it permits of ready alteration and the possibility of constantly bringing the map up to date, in other words to make it conform to more recent discoveries."
Boston Society of Natural History. Professor Alpheus Hyatt.
"Your map representing superposition and the various phenomena of geological science, so far as the distribution of rocks on this continent is concerned, has greatly interested me. I think that in the hands of a good teacher it would prove an efficient and useful adjunct in the teaching of geology."
American Museum of Natural History. Professor R. P. Whitfield.
"In the direction of a want long felt by Teachers of Geology and will undoubtedly be appreciated by them as well as by the student."
U. S. Geological Survey. Major J. W. Powell, Director.
"After examination I am able to state that the work has been executed with care and fidelity, and I believe it will be a valuable aid to teachers."
New York State Survey. Professor James Hall, State Geologist.
"I believe that maps constructed upon this method would be extremely useful in the hands of competent teachers."
Pennsylvania Survey. Professor J. P. Lesley, State Geologist.
"A piece of new and useful apparatus for teaching Geology, by representing to the eye of the student the areas of superimposed formations. I cordially recommend it to teachers and students."
New Jersey Survey. Professor Geo. H. Cook, State Geologist.
"It is very neatly done and must prove a great help to intelligent teaching and studying of Geological Science."

N. D. C. HODGES, 47 Lafayette Place, New York, N. Y.

whereby they can supply a copy by mail to any one who will write to them, enclosing twenty-five cents in stamps or post-office order. This is a chance seldom offered, and all lovers of art should avail themselves of it. Mention this paper, and address Scott & Bowne, 132 and 134 South Fifth Avenue, New York.

Magnesium Flash-Lamp.

A lamp for burning pure magnesium has been invented by Mr. E. M. Pine, one of the most successful of amateur photographers, whose flash-light photos were awarded the first prize at the Pittsburgh exhibition in 1888. Recognizing the danger attending the use of the various explosive compounds heretofore used for illuminating, Mr. Pine has succeeded in inventing a lamp for burning

pure magnesium, as shown in the accompanying illustration, after much experimenting, and believes his lamp, for brilliancy, rapidity, and simplicity, as has been pronounced by professional photographers who have tested it, to be a most complete flash-lamp. Its construction is said to insure perfect combustion; and, as magnesium is non-explosive, absolute safety is assured. The lamp is so portable that it can be easily carried in the pocket, weighing about four ounces.

Paris Exposition and International Congress of Electricians.

James W. Queen & Co., Philadelphia, call the attention of college professors and others interested in scientific work, who are intending to visit the Paris Exposition this summer, to the following facts. They have most excellent representatives in Paris who

have had the experience of many years in the selection and purchasing of scientific apparatus of every description for college use. In consequence of this, it has occurred to them that it might be a convenience to their patrons when in Paris to be supplied with letters of introduction to these agents.

By means of such letters, those professors who intend purchasing apparatus will have the assistance of competent persons, who are well acquainted with all the prominent makers, their apparatus, and prices. Thus much valuable time may be saved that might otherwise be spent in hunting up dealers and making bargains with them, — a rather unsatisfactory operation, especially to those not thoroughly conversant with the French language. Furthermore, it is often a great inconvenience and annoyance, after apparatus may have been purchased satisfactorily, to attend to the details of shipping and passing through the United States Custom-House "free of duty." James W. Queen & Co. will be pleased to relieve purchasers entirely of all this care, so that they need have nothing to do but select the apparatus.

Another advantage of this arrangement is, that there need be no expenditure on the part of colleges at the time of ordering apparatus. Apparatus ordered through these agents will be forwarded in the firm's weekly shipments as soon as a few pieces are ready, thus saving much time.

Those among the electrical fraternity who expect to attend the International Congress of Electricians will please note that they as well as college professors will find it to their advantage to advise with the firm's agents before buying apparatus for their companies or for themselves personally. Messrs. Queen & Co. do not wish professors or electricians, if they avail themselves of the offer of letters of introduction, to feel under obligations to purchase any thing. They will also be pleased to furnish letters to their agents in England, Germany, and Switzerland, if desired.

ONE LANGUAGE FOR THE WHOLE WORLD.

WORLD-ENGLISH:

THE UNIVERSAL LANGUAGE. 25 CENTS.

EVERY one has heard of the butcher who, after a long search for his knife, at last found it in his mouth: so speakers of English have been seeking for a universal language, when, lo! it is in their mouths. The intelligibility of English words has been obscured by a dense mist of letters. This is now dispersed by A. Melville Bell, who has already won a world-wide reputation through his invention of "Visible Speech," the great boon to deaf-mutes. Professor Bell calls this new discovery of his "World-English," and the result is a language which cannot fail to meet with acceptance, and at once supersede the supposed necessity for "Volapük," or any other artificial language. No language could be invented for international use that would surpass English in grammatical simplicity, and in general fitness to become the tongue of the world. It is already the mother-tongue of increasing millions in both hemispheres, and some knowledge of the language is demanded by all educated populations on the globe. Social and commercial necessities require that the acquisition of this knowledge shall be facilitated, and it is believed that Professor Bell's invention has removed the last impediment to English becoming the universal language, for which vague desires have long been entertained, although hitherto only futile efforts have been made.

Ex-President Andrew D. White, of Cornell University, says: "I believe that the highest interests of Christian civilization and of humanity would be served by its adoption. China and Japan would be made English-speaking peoples within fifty years, and so brought within the range of Christianizing and civilizing ideas, in the largest sense. All existing missionary work is trivial as compared with this. For your system would throw wide open those vast countries, as, indeed, all the countries of the world, to the whole current of English and American thought."

For Diffusion of English throughout the World

AS
THE UNIVERSAL LANGUAGE

This "Hand-Book of World-English" is the Complete, Simple, and Efficient Medium.

FOREIGNERS

Will Acquire, by Means of this Hand-Book, a
PERFECT PRONUNCIATION OF ENGLISH.
For Primary School Pupils and Illiterate Adults

World-English is a Royal Road to Reading.
To Teachers of English and Modern Languages

This Hand-Book will be of Primary Importance
as a Phonetic Directory.

DEFECTS OF SPEECH

Will be Readily Corrected by Means of the Articulate Directi ons in this Hand-Book.

HAND-BOOK OF WORLD-ENGLISH,

25 CENTS.

The plan of this little book is altogether new. Letters and sounds are so associated, in all the exercises, that from the mere knowledge of letters a learner cannot fail to pronounce words with certainty. English reading will thus be easily acquired, whether by natives or foreigners, children or adults.

The general resemblance of World-English to Literary English is such that any reader of the latter deciphers the former at sight, or, at most, after a few minutes' study of the new letters. A like result may be anticipated for those who shall learn to read from World-English. They will transfer their power of reading to the literary form of the language, almost without effort. The orthographic aspect of words will, besides, be so fixed in the eye, by contrast, that spelling will be remembered as — what it really is — a pictorial association with words.

No special training is required to qualify teachers for using this book. The subject can even be successfully introduced in the kindergarten and the nursery. This phonetic mode of initiation in reading cannot be too strongly urged on the attention of School Boards on both sides of the Atlantic.

The ordinary orthography of each word is interlined with the World-English version throughout the Exercises and Readings.

So set down, our tongue is the best for the world to unite upon.—*Brooklyn Eagle*.

The idea of Mr. Bell has much to recommend it, and the presentation is charmingly clear.—*American*, Phila.

The result is a language which cannot fail to meet with acceptance.—*Boston Traveller*.

Has the merit of great ingenuity.—*Railway Age*.

His treatise, as a study of English orthoepy, condenses the result of much thought and experience in small compass.—*The Critic*.

World-English deserves the careful consideration of all serious scholars.—*Modern Language Notes*.

World-English is the English language unburdened of its chaotic spelling.—*Popular Science Monthly*.

We commend it to the attention of teachers.—*Ottawa Globe*.

"World-English" and "Hand-Book of World-English" can be had of all booksellers, or will be sent for 50 cents, post free, by the publisher,

N. D. C. HODGES, 47 Lafayette Place, New York.

GUARANTY INVESTMENT COMPANY

CAPITAL \$250,000.

Offices: Atchison, Kan. 191 Broadway, New York. 222 Walnut St., Phila.

Hon. ALBERT H. HORTON (Chief Justice, Kansas Supreme Court), Topeka, Kan., Pres't.

7% Guaranteed Farm Mortgages 7%

The Guaranty Investment Company makes loans upon fertile farms in the choicest portions of Kansas and Nebraska and has adopted the policy of sending a Committee of its Investors each year to examine its loans and methods of business.

The Committee this year consisted of PROF. A. H. BERLIN, Principal of the High School Montrose, Pa., and MAJ. THEODORE L. POOLE, Ex-U. S. Pension Agent, Syracuse, N. Y. Both of these gentlemen are persons of the highest character and have the confidence of the Communities in which they reside.

The Committee has recently returned and has made a very interesting Report upon the general development of Kansas and Nebraska as well as the business of the Company. The Company will be glad to send this Report to any address.

The following names are taken from the long list of Investors in our Mortgages:

(See if Some Friend of Yours is not in the List.)

William A. Cauldwell, 59 Liberty St., N.Y.

"The Week, one of the ablest papers on the con-
tinent."—*Descriptive America*.

ENLARGED AND IMPROVED.

THE WEEK:

*A Canadian Journal of Politics, Literature, Science
and Arts.*

PUBLISHED EVERY FRIDAY.

\$3.00 per Year.

\$1.00 for Four Months.

THE WEEK has entered on its SIXTH year of pub-
lication, greatly enlarged and improved in every re-
spect, rendering it still more worthy the cordial
support of every one interested in the maintenance
of a first-class literary journal.

The independence in politics and criticism which
has characterized THE WEEK ever since its first
issue will be rigidly maintained; and unceasing ef-
forts will be made to improve its literary character
and increase its value and attractiveness as a jour-
nal for the cultured home. Many new and able
writers are now, or have promised to become, con-
tributors to its columns, and the constant aim of the
Publisher will be to make THE WEEK fully equal
to the best literary journals in Britain and the United
States.

As heretofore, PROF. GOLDWIN SMITH will, from
time to time, contribute articles. London, Paris,
Washington and Montreal letters from accomplished
correspondents will appear at regular intervals.
Special Ottawa Letters will appear during the ses-
sions of Parliament.

THE WEEK in its enlarged form will be the same
size as "Harpers' Weekly," and the largest paper
of its class on the continent.

REMINGTON STANDARD TYPEWRITER

WON
Gold and Silver Medals

FOR
CHAMPIONSHIP OF THE WORLD.

At Toronto, in open contest, Aug. 13, 1888.

151 Words per Minute, Without an Error.

The above is an authentic record made by Mr. Frank E. McGurrin, at Detroit, on Jan. 21, 1889, on a memorized sentence, thus beating all previous records of correct work, by 30 words per minute and placing the "Remington" still further beyond reach of competition. Photographic copies of certified work furnished on application. WYCKOFF, SEAMANS & BENEDICT, 327 Broadway, N.Y.

PARIS EXPOSITION.

The Cheque Bank issues Cheques, either singly or put up in Books, for the special use of **VISITORS** to the **PARIS EXPOSITION**, who can cash the same at upwards of **seventy** Banking Houses, situated in different parts of Paris, **without charge**.

Visitors' mail matter can be addressed to them, Care of the Societe Generale, 4 Place de l'Opera, opposite the Grand Hotel, where English is spoken.

Every Cheque that is issued by the Cheque Bank is **EQUAL TO CASH**, as Bank Notes are, for the Bank's Capital, Guarantee Fund and Customers' Balances are **invested in British Government Securities**, or held in Cash in the **Bank of England**, and can be cashed in every town in Europe without charge.

For Handbook containing list of **2,500** Banking Houses who cash the cheques, **free of charge**, apply to

CHEQUE BANK, Limited,
Capital, £100,000. Guarantee Fund, £27,000.
Trustees, The Right Honorable John Bright, M.P.,
The Right Honorable Earl Beauchamp.
NO. 2 WALL STREET, NEW YORK.

Visitors to Europe and Paris Exposition should carry a book containing Cheque Bank Cheques, which are absolutely safe and cheaper than Letters of Credit, and much more convenient; are payable on presentation **without charge** at 2,500 Banking Houses and 250 of the principal Hotels in Europe.
