HEAVEN AND HELL. By EMANUEL SWEDENBORG. 416 pages, paper cover. Mailed pre-paid for 14 Cents in stamps by the American Swedenborg Printing and Publishing Society, 20 Cooper Union, N. Y. City.

LIFE-LORE:

A MONTHLY MAGAZINE OF POPULAR BIOLOGY.

The Subject-Matter is LIFE—Life in all its forms, plant and animal, from the "lowest" to the "highest," recent and extinct. The engravings and letter-press are beautifully produced.

PUBLISHED BY

W. MAWER, at Essex Hall, Essex Street, Strand, London, W.C.

Post-free for twelve months for \$1.25, prepaid.

NOTICES OF THE PRESS.

"Attractive in form, beautifully printed, and vigorously written."—*Despatch*.

"We expect it will become one of our most important magazines."—*Halifax Courier*.

"We predict a career for Life-Lore worthy of its high aims and the ability it displays."—*Citizen*.

Just Published. 12mo, \$2.50.

HISTORY OF BOTANY.

1530-1860.

By JULIUS VON SACHS,

Professor of Botany in the University of Würzburg.

AUTHORIZED TRANSLATION.

By HENRY E. F. GARNSEY, M.A.,

Fellow of Magdalen College, Oxford.

REVISED BY

ISAAC BAYLEY BALFOUR, M.A., M.D., F.R.S.

12mo, \$2.50.

CONTENTS:

FIRST BOOK. History of Morphology and Classification, 1530-1860.

SECOND BOOK. History of Vegetable Anatomy, 1671-1860

THIRD BOOK. History of Vegetable Physiology, 1583-1860.

"No History of Botany in English has ever been published, and it is to supply in some measure this want, long felt by English-speaking students, that this translation of Professor Sachs's masterly sketch has been prepared."—NOTE BY THE TRANSLATOR.

MACMILLAN & CO., 112 4th Ave., N. Y.

SECOND EDITION.

NATURALISTIC PHOTOGRAPHY FOR STUDENTS OF THE ART.

313 pages 8vo., cloth, \$2.00, postage prepaid.

"This book contains a greater amount of information on the artistic elements to be considered in photography than any that we know of."—*Scientific American*. Descriptive circulars on application to E. & F. N. SPON, 12 Cortlandt St., New York.

JUST OUT.

Speech Reading and Articulation Teaching.

By A. MELVILLE BELL.

Price, 25 Cents.

Practical Instructions in the Art of Reading Speech from the Mouth; and in the Art of Teaching Articulation to the Deaf.

[This Work—written at the suggestion of Miss Sarah Fuller, Principal of the Horace Mann School for the Deaf, Boston, Mass.—is, so far as known, the first Treatise published on "Speech Reading."]

* * The above work may be obtained, by order, through any bookseller, or post-free on receipt of price, from

N. D. C. HODGES,
47 Lafayette Place, New York.

DICTIONARY

OF

ECONOMIC PLANTS,

BY JOHN SMITH,

Associate of the Linnean Society, author of

"*Historia Filicium*," "*History of Bible Plants*," etc., etc.

For more than forty years Mr. Smith was connected with the Royal Gardens, Ken., which gave him remarkable opportunities for becoming acquainted with the largest collection of living plants, native and exotic, ever brought together; and from 1846, he was associated with the late Sir. W. Hooper in building up the Kensington Museum of Economic Botany. Based on all this experience, Mr. Smith has produced this Dictionary which gives under their popular names information about plants that furnish the wants of man, their history, products and uses. Having received a large invoice of this book from the London publisher, we offer to mail copies postpaid at a discount.

List price, \$3.50: our price, \$2.80.

(READY THIS WEEK.)

A NATURALIST'S VOYAGE ROUND THE WORLD.

Journal of Researches into the Natural History and Geology of the Countries visited during the Voyage round the World of H. M. S. "Beagle," under the Command of Capt. Fitz Roy, R. N.

By CHARLES DARWIN, F.R.S.

An entirely new edition, handsomely illustrated, consisting of Views of the Places visited, and Representations of the Animals described. The Illustrations are chiefly from Sketches taken on the spot by R. J. Pritchett.

The extraordinary minuteness and accuracy of Mr. Darwin's observations, combined with the charm and simplicity of his descriptions, have insured the popularity of this book with all classes of readers—and that popularity has even increased in recent years. No attempt, however, has hitherto been made to produce an illustrated edition of this valuable work; numberless places and objects are mentioned and described, but the difficulty of obtaining authentic and original representations of them drawn for the purpose has never been overcome until now.

Most of the views given in this work are from sketches made on the spot by Mr. Pritchett (well known by his connection with the voyages of the *Sunbeam* and *Wanderer*), with Mr. Darwin's book by his side. Some few of the others are taken from engravings which Mr. Darwin had himself selected for their interest as illustrating his voyage, and which have been kindly lent by his son.

With maps and 100 illustrations. 8vo, cloth. Price, \$5.00.

D. APPLETON & CO., PUBLISHERS,
1, 3 and 5 Bond Street, New York.

the other hand, tend to equalize the temperature even to a depth of forty fathoms.

That the temperature of the water of the main channel of the St. Lawrence is always considerably lower than that of the waters nearer shore, or of the harbors or the affluent streams.

That no general rule can be laid down regarding the changes of temperature with the increase of depth, each case being influenced by its own special circumstances.

That in high summer temperatures the surface of comparatively still, shallow, sheltered water, unaffected by main channel cur-

rents, absorbs and retains heat to a much greater degree than the immediately overlying air; the difference depending on the surroundings, but being in one instance as high as 11°.

A. T. DRUMMOND.

Montreal, Can., March 12.

INDUSTRIAL NOTES.

A New Drawing-Table.

THE principal features of the improved drawing-table shown in the illustration are that the drawing-board may be raised or lowered with one motion of the hand, and that the board can be tilted to any desirable angle. The vertical sliding pieces

attached to the under side of the board have racks engaging with wheels on the ends of the horizontal shaft, shown at the bottom of the sliding frame. A spiral spring is wound around this shaft for the purpose of balancing the weight of the parts to be raised, and insuring the board against falling if left at any elevation without clamping. The board is raised or lowered by means of the lever attached to the sliding frame which works on a fulcrum fastened to the stand. The clamping arrangement consists of a bent tube, its ends bearing against the inner sides of the sliding pieces. A bolt is passed through

this tube, and, in clamping, it tends to straighten the tube, thereby forcing the ends of the tube against the inner faces of the sliding pieces, and holding these pieces firmly at any height. The advantage of this clamping device is that it does not tend to draw the stands together. The arrangement for tilting is easily seen, and the device for clamping is the same as the one just described.

The stand is very light, and at the same time extremely rigid and firm, and, with the clamping-screws tightened, there is no liability to slip, even if the draughtsman rests his entire weight on the edge of the board. These drawing-tables are manufactured by Messrs. Jones & Mack of Cincinnati, O.

SCOTT'S EMULSION

Of Pure Cod Liver Oil and HYPOPHOSPHITES of Lime and Soda

is endorsed and prescribed by leading physicians because both the *Cod Liver Oil* and *Hypophosphites* are the recognized agents in the cure of *Consumption*. It is as palatable as milk.

Scott's Emulsion is a perfect Emulsion. It is a wonderful *Flesh Producer*. It is the Best Remedy for **CONSUMPTION, Scrofula, Bronchitis, Wasting Diseases, Chronic Coughs and Colds.** Ask for Scott's Emulsion and take no other.

A New Method of Treating Disease.

HOSPITAL REMEDIES.

What are they? There is a new departure in the treatment of disease. It consists in the collection of the specifics used by noted specialists of Europe and America, and bringing them within the reach of all. For instance, the treatment pursued by special physicians who treat indigestion, stomach and liver troubles only, was obtained and prepared. The treatment of other physicians celebrated for curing catarrh was procured, and so on till these incomparable cures now include disease of the lungs, kidneys, female weakness, rheumatism and nervous debility.

This new method of "one remedy for one disease" must appeal to the common sense of all sufferers, many of whom have experienced the ill effects, and thoroughly realize the absurdity of the claims of Patent Medicines which are guaranteed to cure every ill out of a single bottle, and the use of which, as statistics prove, has ruined more stomachs than alcohol. A circular describing these new remedies is sent free on receipt of stamp to pay postage by Hospital Remedy Company, Toronto, Canada, sole proprietors.

DO YOU INTEND TO BUILD?

We offer an Atlas of **Sensible Low Cost Houses**, a portfolio 11x14 inches, containing **handsome illustrations**, floor plans, and full descriptions of this popular design, and fifty-four others, ranging in cost from \$800 to \$7,200. This specimen design is for a cottage with seven rooms, and costing \$1,100. It combines beauty and comfort, has two large porches, and is a popular and practical working design, having been built several times for its estimated cost.

No matter what style of a house you may intend to build, it will pay you to have this book.

We will send this Atlas, postpaid, on receipt of price, \$1.—N. D. C. Hodges, 47 Lafayette Place, New York.

AGENTS WANTED by an old reliable firm; large profits, quick sales. **SAMPLE FREE.** A rare opportunity. Geo. A. Scott, 842 Broadway, N. Y.
