

Zoological Articles contributed to the Encyclopædia Britannica.

By E. RAY LANKESTER, W. J. SOLLAS, A. A. W. HUBRECHT, L. VON GRAFF, A. G. BOURNE, and W. A. HERDMAN. New York, Scribner. 4°. \$5.

THE title of this volume is misleading, as there is extremely little zoölogy in the articles contained in it; at least, in the sense in which the term "zoölogy" is now most commonly used. It is really a series of summaries of the views on the morphology of the groups enumerated, which, at the time of publication, were held by the contributors. The articles, which appeared at intervals between 1880 and the end of 1888, following the alphabetic order of the volumes in which they were originally printed, comprise *Hydrozoa*, *Mollusca*, *Nemertines*, *Planarians*, *Polyzoa*, *Protozoa*, *Rotifera*, sponges, *Tunicata*, and *Vertebrata*. The later articles are, of course, those which the subsequent progress of science has least outstripped. Those by Messrs. Herdman, Hubrecht, and Von Graff, since the writers are recognized authorities on the topics assigned them, would, in any event, represent a very high standard of opinion. The older articles, especially that on the *Protozoa*, by no means represent the present state of scientific opinion; while that on the *Mollusca*, as shown in these columns at the time of its original publication, was an extremely imperfect production. Over its hazardous speculations time had thrown a kindly mantle, until this reprint recalled them to the

glimpses of the moon. Even Professor Lankester now admits, in view of the testimony offered by one of his pupils, that naturalists from Cuvier to Fischer were right in separating, and that he was wrong in uniting, the pteropods and cephalopods, something which not over half a dozen persons have ever doubted.

But it would be unfair to the authors, and to those who might be able to profit by this volume, to insist too strongly on the defects or deficiencies of these papers. It being once understood that the papers are almost exclusively morphological, and represent the opinions of Professor Lankester and the school of which he is the recognized exponent, biologists generally will require no further guide to the quality of their merits or shortcomings.

For the lay reader or youthful and inexperienced student, this book is undesirable. Only those thoroughly familiar with the branches to which it refers can get a full measure of profit out of its mingled science and speculation. To others it must prove confusing. But it will be welcome to the library of the morphologist and specialist; useful, through its bibliographies, to those who would refer to previous morphological literature; and, in some instances, may serve as an "awful example" to those whose tendency to speculate outruns their knowledge of the subject.

It is handsomely printed, but the absence of an index is a fault for which, under the circumstances, it seems difficult to account.

Publications received at Editor's Office,
April 6-18.

- AVELING, E. An Introduction to the Study of Botany. London, Swan Sonnenschein & Co. 363 p. 12°. (New York, Macmillan, \$10.)

"The Week, one of the ablest papers on the continent."—*Descriptive America*.

THE WEEK,

A Canadian Journal of Politics, Literature, Science and Art.

PUBLISHED EVERY FRIDAY.

\$3.00 per Year. \$1.00 for Four Months.

THE WEEK has entered on its EIGHTH year of publication, greatly improved in every respect, rendering it more worthy the cordial support of every one interested in the maintenance of a first-class literary journal.

The independence in politics and criticism which has characterized THE WEEK ever since its first issue will be rigidly maintained; and unceasing efforts will be made to improve its literary character and increase its attractiveness as a journal for the cultured home. Many new and able writers are now, or have promised to become, contributors to its columns, and the constant aim of the Publisher will be to make THE WEEK fully equal to the best literary journals in Britain and the United States.

As heretofore, PROF. GOLDWIN SMITH will, from time to time, contribute articles. London, Paris, Washington and Montreal letters from accomplished correspondents will appear at regular intervals. Special Ottawa Letters will appear during the sessions of Parliament.

THE WEEK being the same size as "Harper's Weekly," is the largest paper of its class on the continent.

THE BOTANICAL GAZETTE.

A monthly illustrated journal of botany in all its departments.

25 cents a number, \$2.50 a year.

Address PUBLISHERS BOTANICAL GAZETTE,
Crawfordsville, Ind.

Publications of the University of Pennsylvania.
SERIES IN

Philology, Literature and Archæology.

Vol. I. now ready.

- Poetic and Verse Criticism of the Reign of Elizabeth. By Felix E. Schelling, A.M., Assistant Professor of English Literature. \$1.00.
- A Fragment of the Babylonian "Dibbarra" Epic. By Morris Jastrow, Jr., Ph.D., Professor of Arabic. 60 cents.
- a. *Ἰπὸς* with the Accusative. b. Note on a Passage in the Antigone. By William A. Lamberton, A.M., Professor of the Greek Language and Literature. 50 cents.
- The Gambling Games of the Chinese in America. Fán tán and Pák kòp piú. By Stewart Culin, Secretary of the Museum of Archæology and Palæontology. 40 cents.

In preparation.

- The Terrace at Persepolis. By Morton W. Easton, Ph.D., Professor of Comparative Philology.
- An Aztec Manuscript. By Daniel G. Brinton, M.D., Professor of American Archæology and Linguistics.
- A Monograph on the Tempest. By Horace Howard Furness, Ph.D., LL.D.
- Recent Archæological Explorations in New Jersey. By Charles C. Abbott, M.D., Curator of the American Collections.
- Archæological Notes in Northern Morocco. By Talcott Williams, A.M., Secretary of the Museum of Egyptian Antiquities.
- a. On the Aristotelian Dative. b. On a Passage in Aristotle's Rhetoric. By William A. Lamberton, A.M., Professor of the Greek Language and Literature.
- A Hebrew Bowl Inscription. By Morris Jastrow, Jr., Ph.D., Professor of Arabic.
- The Life and Writings of George Gascoigne. By Felix E. Schelling, A.M., Assistant Professor of English Literature.

The Papers of this Series, prepared by Professors and others connected with the University of Pennsylvania, will take the form of Monographs on the subjects of Philology, Literature, and Archæology, whereof about 200 or 250 pages will form a volume.

The price to subscribers to the Series will be \$1.50 per volume; to others than subscribers, \$2.00 per volume.

Each Monograph, however, is complete in itself, and will be sold separately.

It is the intention of the University to issue these Monographs from time to time as they shall be prepared.

Each author assumes the responsibility of his own contribution.

BOOKS: How to get them. If there is any book or pamphlet that you want, write to the Science Book Agency, 47 Lafayette Place, New York.

AMONG THE PUBLISHERS.

JOHN WILEY & SONS announce as in preparation "The Transition Curve Field-Book," by Clinton R. Howard, C.E.

— John Wiley & Sons announce as in preparation "The Mechanical Engineer's Pocket Book," by William Kent.

— Sister Rose Gertrude has written another article for *The Ladies' Home Journal* for June, on "What it is to be a Leper," in which she gives a clear glimpse of leper-life in Molokai, how the disease is contracted, how it is treated and cured, and how the lepers live in their exile.

— D. C. Heath & Co. have in press for early publication an "American Literature for High Schools and Colleges," by Julian Hawthorne and Leonard Lemmon; also "French by Reading," a new French method on the inductive plan, by Louise Seymour Houghton and Mary Houghton.

— Among their books in press, J. B. Lippincott Company announces "The Chemical Analysis of Iron," by Andrew Alexander Blair (new edition); "A Hand-Book of Industrial Organic Chemistry," by S. C. Sadtler; "Tables for the Determination of Minerals," by Persifor Frazer, jun. (new edition, revised and enlarged); "Chambers's Encyclopædia," Vol. VII. (entirely new edition, revised and rewritten).

— Messrs. Macmillan & Co. will publish next week a "Short History of Greek Philosophy," for students and general readers, by Dr. John Marshall, rector of the Royal High School, Edinburgh. The main purpose of this book is to present an account of Greek philosophy which, within strict limits of brevity, shall be at once authentic and interesting,—authentic, as being based on the original works themselves; interesting, as presenting to the ordinary English reader the great thoughts of the greatest men of antiquity, on problems of permanent significance and value, in language freed from technicality and abstruseness.

— T. Fisher Unwin has nearly completed preparations for a "History of the Press." The volumes will deal in the first place with the British press, and afterwards with the continental press and the American. In each case the history of the great journals will be treated in connection equally with the political and social events they have influenced, and the characters and methods of the men who have directed them to these ends. In a few instances a single journal has played a sufficiently conspicuous and important part to furnish abundant materials for a single volume, but in others the general characteristics of a section of the press will combine many newspapers and personalities into one work. The first volume will be devoted to the *Times*, and others have been arranged to treat of "The Provincial Press," "The French Press," "The German Press," "The American Press," and "The Comic Press." The volumes will be issued under the general editorship of Mr. Henry Norman.

— "Spinning Tops" is an interesting and valuable addition to the Romance of Science Series, published in London by the Society for Promoting Christian Knowledge, and in this country by E. & J. B. Young & Co. The volume is an expanded revision of an "operatives' lecture," delivered by Professor John Perry at the British Association meeting at Leeds in 1890. The changes necessitated by the conversion of a lecture illustrated by actual experiments with elaborate apparatus, into a treatise illustrated by engravings and explanatory letterpress, have been carefully made; and the result is a volume that will not only interest the general reader, but also add considerable to his knowledge of some branches of science. Beginning with a description of the behavior of a spinning top, the author goes on step by step to the movements of the earth in space, touching incidentally on the connection between light and magnetism, and the rotation of the plane of polarization, making his points clear at each step by means of apparatus adapted to the purpose.

Dyspepsia

Horsford's Acid Phosphate.

In dyspepsia the stomach fails to assimilate the food. The Acid Phosphate assists the weakened stomach, making the process of digestion natural and easy.

Dr. R. S. McComb, Philadelphia, says:

"Used it in nervous dyspepsia, with success."

Dr. W. S. LEONARD, Hinsdale, N. H., says:

"The best remedy for dyspepsia that has ever come under my notice."

Dr. T. H. ANDREWS, Jefferson Medical College, Philadelphia, says:

"A wonderful remedy which gave me most gratifying results in the worst forms of dyspepsia."

Descriptive pamphlet free.

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION.—Be sure the word "Horsford's" is printed on the label. All others are spurious. Never sold in bulk.

A NEW PHILOSOPHY.

Accurate — Comprehensive — Judiciously Condensed — Entertaining.

APPLETONS' SCHOOL PHYSICS.

An Entirely New Book. By a Corps of Distinguished Scientists and Teachers. Cloth. 12mo. 544 Pages. Price, \$1.20. *Just Out.*

CHAPTERS on Motion, Energy, Force, the Properties of Matter, Solids, Liquids, Gases and Mechanics, by Prof. SILAS W. HOLMAN, Massachusetts Institute of Technology.

CHAPTERS on Heat, Light and Electricity, by Prof. FRANCIS E. NIPHER, Washington University, St. Louis, Mo.

CHAPTERS on Sound, by Prof. ALFRED M. MAYER, Stevens Institute of Technology, Hoboken, N. J.

CHAPTERS on Magnetism and Electrical Apparatus, by Prof. FRANCIS B. CROCKER, Columbia College School of Mines.

ABLY EDITED, by Prof. JOHN D. QUACKENBOS, Columbia College.

The names of these scientists and educators are a guarantee of the quality and reliability of the work. It is adapted in style and methods to pupils of fourteen years and upward, and while *precedence to the practical* is the rule strictly adhered to throughout the work, no effort has been spared to inspire the learner with enthusiasm in the study of Natural Science. It is singularly simple, practical, and at the same time *authoritative*, and should be carefully examined by all who are looking for an accurate, comprehensive, judiciously condensed, entertaining text-book in Natural Philosophy.

Specimen copies mailed to any address on receipt of price.

The American Book Company's Catalogue also presents many other attractive and popular science text-books, covering the subjects of **Astronomy, Biology, Botany, Chemistry, Geology, Physics, Physiology, and Zoology.** They are adapted to every grade of Science Study.

Catalogue and circulars free on application. Correspondence cordially invited.

PSYCHE.

A Journal of Entomology, published monthly by the Cambridge Entomological Club. \$2.00 per year, \$5.00 per volume of three years. Volume VI. began in January, 1891. Back volumes for sale at \$5.00 each. Volume I. sold only in complete sets.

READY SOON.

THE LABRADOR COAST.

A Journal of two Summer Cruises to that region; with notes on its early discovery, on the Eskimo, on its physical geography, geology and natural history, together with a bibliography of charts, works and articles relating to the civil and natural history of the Labrador Peninsula.

By ALPHEUS SPRING PACKARD, M.D., Ph.D.
8°, about 400 pp., \$3.50.

FOSSIL RESINS.

By CLARENCE LOWN and HENRY BOOTH.

This book is the result of an attempt to collect the scattered notices of fossil resins, exclusive of those on amber. The work is of interest also on account of descriptions given of the insects found embedded in these long-preserved exudations from early vegetation.

NEW BOOKS.

JUST PUBLISHED.

THE AMERICAN RACE:

By DANIEL G. BRINTON, M.D.

A Linguistic Classification and Ethnographic Description of the Native Tribes of North and South America. This is the first attempt ever made to classify all the Indian tribes by their languages, and it also treats of their customs, religions, physical traits, arts, antiquities, and traditions. The work comprises the results of several years of study in this special field.

Price, postpaid, \$2.

BY THE SAME AUTHOR. RACES AND PEOPLES.

"The book is good, thoroughly good, and will long remain the best accessible elementary ethnography in our language."—*The Christian Union*.

"We strongly recommend Dr. Brinton's 'Races and Peoples' to both beginners and scholars. We are not aware of any other recent work on the science of which it treats in the English language."—*Asiatic Quarterly*.

"His book is an excellent one, and we can heartily recommend it as an introductory manual of ethnology."—*The Monist*.

"A useful and really interesting work, which deserves to be widely read and studied both in Europe and America."—*Brighton (Eng.) Herald*.

"This volume is most stimulating. It is written with great clearness, so that anybody can understand, and while in some ways, perforce, superficial, grasps very well the complete field of humanity."—*The New York Times*.

"Dr. Brinton invests his scientific illustrations and measurements with an indescribable charm of narration, so that 'Races and Peoples,' avowedly a record of discovered facts, is in reality a strong stimulant to the imagination."—*Philadelphia Public Ledger*.

"The work is indispensable to the student who requires an intelligent guide to a course of ethnographic reading."—*Philadelphia Times*.

Price, postpaid, \$1.75.

THE MODERN MALADY; or, Sufferers from 'Nerves.'

An introduction to public consideration, from a non-medical point of view, of a condition of ill-health which is increasingly prevalent in all ranks of society. In the first part of this work the author dwells on the errors in our mode of treating Neurasthenia, consequent on the wide ignorance of the subject which still prevails; in the second part, attention is drawn to the principal causes of the malady. The allegory forming the Introduction to Part I. gives a brief history of nervous exhaustion and the modes of treatment which have at various times been thought suitable to this most painful and trying disease.

By CYRIL BENNETT.

12°, 184 pp., \$1.50.

THE WINNIPEG COUNTRY;

OR,

ROUGHING IT WITH AN ECLIPSE PARTY.

BY

A. ROCHESTER FELLOW.

(S. H. SCUDDER.)

With thirty-two Illustrations and a Map.
12°. \$1.50.

"The story is a piquant, good-humored, entertaining narrative of a canoe voyage. A neater, prettier book is seldom seen."—*Literary World*.

"This is a sprightly narrative of personal incident. The book will be a pleasant reminder to many of rough experiences on a frontier which is rapidly receding."—*Boston Transcript*.

"The picture of our desolate North-western territory twenty-five years ago, in contrast with its civilized aspect to-day, and the pleasant features of the writer's style, constitute the claims of his little book to present attention."—*The Dial*.

Fact and Theory Papers

I. THE SUPPRESSION OF CONSUMPTION. By GODFREY W. HAMBLETON, M.D. 12°. 40c.

"The inestimable importance of the subject, the eminence of the author, and the novelty of his work, all combine to render the little treatise worthy of special consideration. . . . We heartily commend Dr. Hambleton's booklet, and wish there were more such works."—Editorial, *Boston Daily Advertiser*.

"The monograph is interesting in style, scholarly, and well worthy of careful consideration. It is devoid of technical expressions, and can be easily read and digested."—*Pharmaceutical Era*.

II. THE SOCIETY AND THE "FAD." By APPLETON MORGAN, Esq. 1°. 20 cents.

"Mr. Morgan founds a sensible and interesting address upon a text furnished by a sentence from a young ladies' magazine; namely, 'Browning and Ibsen are the only really dramatic authors of their century.'"—*New York Sun*.

III. PROTOPLASM AND LIFE. By C. F. COX. 12°. 75 cents.

"To be commended to those who are not specialists."—*Christian Union*.

"Physicians will enjoy their reading, and find in them much food for thought."—*St. Louis Medical and Surgical Journal*.

"Mr. Cox reviews the history of his subject with knowledge and skill."—*Open Court*.

"It is of extreme interest."—*Medical Age*.

"Worthy of a careful perusal."—*Indiana Medical Journal*.

"An interesting and popular account of the tendencies of modern biological thought."—*Popular Science News*.

"All interested in biological questions will find the book fascinating."—*Pharmaceutical Era*.

"The author displays a very comprehensive grasp of his subject."—*Public Opinion*.

"Deserves the attention of students of natural science."—*Critic*.

IV. THE CHEROKEES IN PRE-COLUMBIAN TIMES. By CYRUS THOMAS. 12°. \$1.

Dr. Thomas has already presented to the public some reasons for believing the Cherokees were mound-builders, but additional evidence bearing on the subject has been obtained. A more careful study of the Delaware tradition respecting the Tallegewi satisfies him that we have in the Bark Record (Walam Olum) itself proof that they were Cherokees. He thinks the mounds enable us to trace back their line of migration even beyond their residence in Ohio to the western bank of the Mississippi. The object is therefore threefold: 1. An illustration of the reverse method of dealing with prehistoric subjects; 2. Incidental proof that some of the Indians were mound-builders; 3. A study of a single tribe in the light of the mound testimony. This work will be an important contribution to the literature of the Columbian discovery which will doubtless appear during the coming two years.

"A valuable contribution to the question, 'Who were the mound-builders?'"—*New York Times*.

"Professor Cyrus Thomas undertakes to trace back the evidences of a single Indian tribe into the prehistoric or mound-building age."—*N. Y. Sun*.

"An interesting paper."—*Christian Union*.

V. THE TORNADO. By H. A. HAZEN. 12°. \$1.

"The little book is extremely interesting."—*Boston Transcript*.

"A book which will find many readers. The chapter on 'Tornado Insurance' is of interest to all property-holders in the tornado States."—*Boston Herald*.

"The 'Tornado' is a popular treatise on an important province of meteorology, in which science, the author, Professor Hazen of the United States Signal Service, may be regarded as an expert."—*Philadelphia Ledger*.

VI. TIME-RELATIONS OF MENTAL PHENOMENA. By JOSEPH JASTROW. 12°. 50c.

"All students of psychology will find the book full of interesting facts. Professor Jastrow's good qualities as a thinker and as a writer are too well and too widely known to require comment."—*Public Opinion*.

"A useful work for psychologists—as well as the general reader—by setting forth in brief and easily intelligible form the present state of knowledge in regard to the time required for the performance of mental acts."—*The Critic*.

VII. HOUSEHOLD HYGIENE. By MARY TAYLOR BISSELL. 12°. 75 cents.

"A sensible brochure."—*Brooklyn Eagle*.

"Practical and sensible."—*Public Opinion*.

"The advice and excellent information which it contains are tersely and intelligently expressed."—*Boston Medical and Surgical Journal*.

"Practical and simply written."—*Springfield Republican*.

"The best monograph on home hygiene."—*St. Louis Globe-Democrat*.

In Preparation.

VIII. THE FIRST YEAR OF CHILDHOOD. By J. MARK BALDWIN.

N. D. C. HODGES, 47 Lafayette Place, New York.
