

so well known for his works and investigations on sound, treats of that subject; Professor Nipher of Washington University, St. Louis, gives the chapters on heat, light, and the principles of electricity; Professor Holman of the Massachusetts Institute of Technology gives the introductory portions on matter and motion; and the applications of electricity and magnetism are handled by Mr. Crocker of the School of Electrical Engineering of Columbia College. It is needless to say that these are all men prominent in their several departments.

It would naturally be possible that an honest difference of opinion should exist as to the best way of presenting physical problems to young minds, but throughout this book we find evidences of an earnest purpose by competent men to do this according to their best judgment, and we believe the book is destined to do great good in our schools. The amount of apparatus required is not excessive, and the amounts of descriptive matter and experiment seem well balanced.

AMONG THE PUBLISHERS.

IN the *New England Magazine* for June there is an interesting illustrated article on the "Early Days of the First Telegraph Line," by Steven Vail.

—"Not to the Swift" is the title of an entertaining novel from the pen of Lewis H. Watson, just published by the Welch, Fracker Company of this city (400 p., cloth, \$1.25). The scene is laid in

this country, about the time of the Rebellion, some of the plots connected with that event being woven into the fabric of the story, and one of the plots, at least, being given an entirely new and somewhat startling significance in the process of weaving.

— There has recently been issued by the Missouri Botanical Garden, St. Louis, a report on "The Species of *Epilobium* occurring North of Mexico," by Professor William Trelease.

— To the June *Atlantic* Professor George Herbert Palmer contributes "Reminiscences of Professor Sophocles," who was professor of Greek at Harvard University for nearly forty years, — a simple and Homeric figure, caring nothing for outward forms and fashions, and with his thoughts oftener in Arabia than Cambridge, drawn from a monastery to give himself up to what he called "the ambition of learning." College men will be also deeply interested in Mr. S. E. Winbolt's paper on "Rowing at Oxford." In the same number President D. C. Gilman of Johns Hopkins University has a paper on "The Study of Geography," and its place in the college course.

— The first of a series of descriptive and illustrated quarto memoirs on the *Vertebrata* of the Tertiary and Cretaceous rocks of the Canadian North-west Territory, prepared by Professor E. D. Cope of Philadelphia, has just been issued by the Geological Survey of Canada. It is exclusively devoted to a consideration of the species from the Lower Miocene deposits of the Cypress Hills in the district of Alberta, and consists of twenty-seven pages of

"The Week, one of the ablest papers on the continent."—*Descriptive America.*

THE WEEK,

A Canadian Journal of Politics, Literature, Science and Art.

PUBLISHED EVERY FRIDAY.

\$3.00 per Year. \$1.00 for Four Months.

THE WEEK has entered on its EIGHTH year of publication, greatly improved in every respect, rendering it more worthy the cordial support of every one interested in the maintenance of a first-class literary journal.

The independence in politics and criticism which has characterized THE WEEK ever since its first issue will be rigidly maintained; and unceasing efforts will be made to improve its literary character and increase its attractiveness as a journal for the cultured home. Many new and able writers are now, or have promised to become, contributors to its columns, and the constant aim of the Publisher will be to make THE WEEK fully equal to the best literary journals in Britain and the United States.

As heretofore, PROF. GOLDWIN SMITH will, from time to time, contribute articles. London, Paris, Washington and Montreal letters from accomplished correspondents will appear at regular intervals. Special Ottawa Letters will appear during the sessions of Parliament.

THE WEEK being the same size as "Harper's Weekly," is the largest paper of its class on the continent.

3. a. *Ἰπὸς* with the Accusative. b. Note on a Passage in the Antigone. By William A. Lamberton A.M., Professor of the Greek Language and Literature. 50 cents.
4. The Gambling Games of the Chinese in America. Fán tán and Pák kóp piú. By Stewart Culin, Secretary of the Museum of Archæology and Palæontology. 40 cents.

In preparation.

The Terrace at Persepolis. By Morton W. Easton, Ph.D., Professor of Comparative Philology.

An Aztec Manuscript. By Daniel G. Brinton, M.D., Professor of American Archæology and Linguistics.

A Monograph on the Tempest. By Horace Howard Furness, Ph.D., LL.D.

Recent Archæological Explorations in New Jersey. By Charles C. Abbott, M.D., Curator of the American Collections.

Archæological Notes in Northern Morocco. By Talcott Williams, A.M., Secretary of the Museum of Egyptian Antiquities.

a. On the Aristotelian Dative. b. On a Passage in Aristotle's Rhetoric. By William A. Lamberton, A.M., Professor of the Greek Language and Literature.

A Hebrew Bowl Inscription. By Morris Jastrow, Jr., Ph.D., Professor of Arabic.

The Life and Writings of George Gascoigne. By Felix E. Schelling, A.M., Assistant Professor of English Literature.

The Papers of this Series, prepared by Professors and others connected with the University of Pennsylvania, will take the form of Monographs on the subjects of Philology, Literature, and Archæology, whereof about 200 or 250 pages will form a volume.

The price to subscribers to the Series will be \$1.50 per volume; to others than subscribers, \$2.00 per volume.

Each Monograph, however, is complete in itself, and will be sold separately.

It is the intention of the University to issue these Monographs from time to time as they shall be prepared.

Each author assumes the responsibility of his own contribution.

BOOKS: How to get them. If there is any book or pamphlet that you want, write to the Science Book Agency, 47 Lafayette Place, New York.

letter-press, illustrated by fourteen full-page lithographic plates. Part 2, which will contain illustrated descriptions of the vertebrates of the Laramie formation of the North-west Territory, by the same author, is now in course of preparation.

—The American Society for the Extension of University Teaching will shortly issue the first number of *University Extension*, a journal devoted to the interests of the movement for popular education known as university extension, which has taken such a strong root in this country at many centres. The periodical will serve as the organ of the society, and will constitute a general depository of information relating to the subject, and will be devoted to arousing and sustaining a public interest in all that pertains to this branch of popular education. All communications should be addressed to the society, 1602 Chestnut Street, Philadelphia.

—John Burroughs's "Talk about Wild Flowers," in *St. Nicholas* for June, will show botanists how to make their science "un-

derstanded of the people," and may also suggest to them a few particulars upon which fuller information is desirable.

—The eyes of travellers and pleasure-seekers who are weary of the beaten paths are just now turned towards Alaska, which is said to possess some of the most marvellous scenery in the world. An article describing a trip to Alaska and the beauties of its mountains and valleys is contributed to *Lippincott's Magazine* for June, by Grace Peckham, M.D.

—The "Third Biennial Report of the California State Board of Forestry" contains a monograph, with thirty illustrations, of the cone-bearing trees of the north-west, including California. Persons desiring corrected copies can obtain them by sending 10 cents per copy (to cover expense of wrapping, postage, etc.) to J. G. Lemmon, botanist of the board, 1015 Clay Street, Oakland, Cal. A few copies remain of the previous report describing the "Pines of the Pacific Slope," with twenty-four illustrations.

Exhaustion

Horsford's Acid Phosphate.

The phosphates of the system are consumed with every effort, and exhaustion usually indicates a lack of supply. The Acid Phosphate supplies the phosphates, thereby relieving exhaustion, and increasing the capacity for labor. Pleasant to the taste.

Dr. A. N. KROUT, Van Wert, O., says:

"Decidedly beneficial in nervous exhaustion."

Dr. S. T. NEWMAN, St. Louis, Mo., says:

"A remedy of great service in many forms of exhaustion."

Descriptive pamphlet free.

Rumford Chemical Works, Providence, R. I.

Beware of Substitutes and Imitations.

CAUTION.—Be sure the word "**Horsford's**" is printed on the label. All others are spurious. Never sold in bulk.

Speech Reading and Articulation Teaching.

By A. MELVILLE BELL.

Price, 25 Cents.

Practical Instructions in the Art of Reading Speech from the Mouth; and in the Art of Teaching Articulation to the Deaf.

[This Work—written at the suggestion of Miss Sarah Fuller, Principal of the Horace Mann School for the Deaf, Boston, Mass.—is, so far as known, the first Treatise published on "Speech Reading."]

From Principals of Institutions for the Deaf.

"Admirable in its conciseness, clearness and freedom from technicality."

"The simplicity and perfection of this little book."

"Full of exact and helpful observations."

"A very interesting and valuable work."

"The rules are clearly given and will be of great utility."

"Every articulation teacher should study it."

"A model of clearness and simplicity, without having any of the puzzling symbols that trouble the common mind. . . . The exercises given in speech-reading from the lips are especially interesting, and of great importance for the student of phonetics."

—*Modern Language Notes.*
