

here it may be said that a dozen excellent illustrations are given, all of which are by the "half-tone" process from photographers, — so admirably suited to purely descriptive work. These are good examples of this kind of work, and seem unusually uniform in their clearness of detail and free from the blotches due to imperfections in the photographs.

Stoddard made no attempt to study Russia, but went to see the sights, and in this book gives a chatty account of them. At this time, when so much attention is attracted to Russia, this picture of Russian scenes will aid in gaining a clearer insight into the difficult social problems which are calling for solution within her borders.

AMONG THE PUBLISHERS.

THE following tribute to the work of an American magazine is contained in the report of the Secretary of the Interior just submitted to Congress: "Your attention is also requested to the paper contributed by Mr. John Muir to the number of *The Century Illustrated Monthly Magazine* for November, 1891, entitled 'A Rival of the Yosemite — the Cañon of the South Fork of Kings River, California.' It furnishes maps of this section and is illustrated by most admirable engravings of the wonderful scenery there existing. The engravings are chiefly from the pencil of Mr. Charles D. Robinson. These gentlemen, as well as the editors of *The Century*, especially Mr. Johnson, have taken a great personal

interest in the forest reserves in California, and are worthy of great consideration, both from their experience and intelligence. The magazine article mentioned advocates the extension of the Sequoia National Park so as to embrace the Kings River region and the Kaweah and Tule Sequoia groves. The boundaries are there set forth. The subject is recommended to your favorable consideration and action."

— The Scientific Publishing Company has arranged for the following books, which are now in Press: "The Phosphates of America: where and how they occur; how they are mined; and what they cost; with practical treatises on the manufacture of sulphuric acid, acid phosphate, phosphoric acid and concentrated superphosphates, and select methods of chemical Analysis," by Dr. Francis Wyatt; "Manual of Qualitative Blowpipe Analysis and Determinative Mineralogy," by Dr. F. M. Endlich; "The Chemistry of a World," by Dr. T. Sterry Hunt.

— A series of papers, "Stories of Salem Witchcraft," by Winfield S. Nevins, is begun in the December *New England Magazine*. The first article gives an account of the witchcraft cases in New England previous to 1692; the outbreak in Salem Village; the court and places of trial; a history of the trials of accused persons, and copious quotations from the remarkable testimony in the court files are given, and the article is embellished with portraits and drawings. The article is interesting at this time, as

NEO-DARWINISM AND NEO-LAMARCKISM.

By LESTER F. WARD.

Annual address of the President of the Biological Society of Washington delivered Jan. 24, 1891. A historical and critical review of modern scientific thought relative to heredity, and especially to the problem of the transmission of acquired characters. The following are the several heads involved in the discussion Status of the Problem, Lamarckism, Darwinism, Acquired Characters, Theories of Heredity, Views of Mr. Galton, Teachings of Professor Weismann, A Critique of Weismann, Neo-Darwinism, Neo-Lamarckism, the American "School," Application to the Human Race. In so far as views are expressed they are in the main in line with the general current of American thought, and opposed to the extreme doctrine of the non-transmissibility of acquired characters.

Price, postpaid, 25 cents.

SLIDE-RULE Perpetual Calendar.—This novel application of the slide-rule principle shows, in an instant without study or calculation, a complete Calendar for any month from the Year 1 till the end of time. Sample, 25 cts. JEROME-THOMAS CO., 47 LAFAYETTE PLACE, NEW YORK.

"The Week, one of the ablest papers on the continent."—*Descriptive America*.

THE WEEK,

A Canadian Journal of Politics, Literature, Science and Art.

PUBLISHED EVERY FRIDAY.

\$3.00 per Year. \$1.00 for Four Months.

THE WEEK has entered on its EIGHTH year of publication, greatly improved in every respect, rendering it more worthy the cordial support of every one interested in the maintenance of a first-class literary journal.

The independence in politics and criticism which has characterized THE WEEK ever since its first issue will be rigidly maintained; and unceasing efforts will be made to improve its literary character and increase its attractiveness as a journal for the cultured home. Many new and able writers are now, or have promised to become, contributors to its columns, and the constant aim of the Publisher will be to make THE WEEK fully equal to the best literary journals in Britain and the United States.

As heretofore, PROF. GOLDWIN SMITH will, from time to time, contribute articles. London, Paris, Washington and Montreal letters from accomplished correspondents will appear at regular intervals. Special Ottawa Letters will appear during the sessions of Parliament.

THE WEEK being the same size as "Harper's Weekly," is the largest paper of its class on the continent.
