

here it may be said that a dozen excellent illustrations are given, all of which are by the "half-tone" process from photographers, — so admirably suited to purely descriptive work. These are good examples of this kind of work, and seem unusually uniform in their clearness of detail and free from the blotches due to imperfections in the photographs.

Stoddard made no attempt to study Russia, but went to see the sights, and in this book gives a chatty account of them. At this time, when so much attention is attracted to Russia, this picture of Russian scenes will aid in gaining a clearer insight into the difficult social problems which are calling for solution within her borders.

AMONG THE PUBLISHERS.

THE following tribute to the work of an American magazine is contained in the report of the Secretary of the Interior just submitted to Congress: "Your attention is also requested to the paper contributed by Mr. John Muir to the number of *The Century Illustrated Monthly Magazine* for November, 1891, entitled 'A Rival of the Yosemite — the Cañon of the South Fork of Kings River, California.' It furnishes maps of this section and is illustrated by most admirable engravings of the wonderful scenery there existing. The engravings are chiefly from the pencil of Mr. Charles D. Robinson. These gentlemen, as well as the editors of *The Century*, especially Mr. Johnson, have taken a great personal

interest in the forest reserves in California, and are worthy of great consideration, both from their experience and intelligence. The magazine article mentioned advocates the extension of the Sequoia National Park so as to embrace the Kings River region and the Kaweah and Tule Sequoia groves. The boundaries are there set forth. The subject is recommended to your favorable consideration and action."

— The Scientific Publishing Company has arranged for the following books, which are now in Press: "The Phosphates of America: where and how they occur; how they are mined; and what they cost; with practical treatises on the manufacture of sulphuric acid, acid phosphate, phosphoric acid and concentrated superphosphates, and select methods of chemical Analysis," by Dr. Francis Wyatt; "Manual of Qualitative Blowpipe Analysis and Determinative Mineralogy," by Dr. F. M. Endlich; "The Chemistry of a World," by Dr. T. Sterry Hunt.

— A series of papers, "Stories of Salem Witchcraft," by Winfield S. Nevins, is begun in the December *New England Magazine*. The first article gives an account of the witchcraft cases in New England previous to 1692; the outbreak in Salem Village; the court and places of trial; a history of the trials of accused persons, and copious quotations from the remarkable testimony in the court files are given, and the article is embellished with portraits and drawings. The article is interesting at this time, as

NEO-DARWINISM AND NEO-LAMARCKISM.

By LESTER F. WARD.

Annual address of the President of the Biological Society of Washington delivered Jan. 24, 1891. A historical and critical review of modern scientific thought relative to heredity, and especially to the problem of the transmission of acquired characters. The following are the several heads involved in the discussion Status of the Problem, Lamarckism, Darwinism, Acquired Characters, Theories of Heredity, Views of Mr. Galton, Teachings of Professor Weismann, A Critique of Weismann, Neo-Darwinism, Neo-Lamarckism, the American "School," Application to the Human Race. In so far as views are expressed they are in the main in line with the general current of American thought, and opposed to the extreme doctrine of the non-transmissibility of acquired characters.

"The Week, one of the ablest papers on the continent."—*Descriptive America*.

THE WEEK,

A Canadian Journal of Politics, Literature, Science and Art.

PUBLISHED EVERY FRIDAY.

\$3.00 per Year. \$1.00 for Four Months.

THE WEEK has entered on its EIGHTH year of publication, greatly improved in every respect, rendering it more worthy the cordial support of every one interested in the maintenance of a first-class literary journal.

The independence in politics and criticism which has characterized THE WEEK ever since its first issue will be rigidly maintained; and unceasing efforts will be made to improve its literary character and increase its attractiveness as a journal for the cultured home. Many new and able writers are now, or have promised to become, contributors to its columns, and the constant aim of the Publisher will be to make THE WEEK fully equal to the best literary journals in Britain and the United States.

As heretofore, PROF. GOLDWIN SMITH will, from time to time, contribute articles. London, Paris, Washington and Montreal letters from accomplished correspondents will appear at regular intervals. Special Ottawa Letters will appear during the sessions of Parliament.

THE WEEK being the same size as "Harper's Weekly," is the largest paper of its class on the continent.

BOOKS: How to get them. If there is any Book or pamphlet that you want, write to the Science book Agency, 874 Broadway, New York.

the two hundredth anniversary of this remarkable delusion is approaching.

— Longman's, Green, & Co. will publish at once a curious book, called "Japanese Letters." It is edited by Commander Hastings Berkeley, and it contains the correspondence of Tokiware and Yashiri, giving the impressions and opinions of the former as he visits Europe for the first time.

— Houghton, Mifflin & Co. announce for immediate publication "Masterpieces of American Literature." This book contains masterpieces from the works of the following thirteen authors of America, with a biographical sketch of each: Longfellow, Whitier, Irving, Bryant, Hawthorne, Franklin, Holmes, Thoreau, O'Reilly, Lowell, Emerson, Everett and Webster.

— The Government of Honduras has placed all the ancient ruins within the borders of the republic in the care of the Peabody

Museum of American Archaeology and Ethnology of Harvard University for a period of ten years; giving to the museum not only the charge of the antiquities of the country, but also the exclusive right of exploration and the permission to take away one-half of all the objects found during the excavations. The museum, on its part, is to carry on explorations each year during the term covered by the decree. Professor Putnam, the director of the Honduras expedition, being unable to leave, is to be represented in the field this year (1891-1892) by two of his students — M. H. Saville, a private student and an assistant in the museum, and J. C. Owens, a student in the graduate school of Harvard, taking the course of archaeology and ethnology under Professor Putnam. The expedition is thoroughly equipped, and the intention is to carry on for ten years a thorough archaeological investigation at this place. The material collected this year is to be exhibited in Professor Putnam's department of the World's Columbian Exposition.

A Tonic

Horsford's Acid Phosphate.

A most excellent and agreeable tonic and appetizer. It nourishes and invigorates the tired brain and body, imparts renewed energy and vitality, and enlivens the functions.

Dr. EPHRAIM BATEMAN, Cedarville, N. J., says:

"I have used it for several years, not only in my practice, but in my own individual case, and consider it under all circumstances one of the best nerve tonics that we possess. For mental exhaustion or overwork it gives renewed strength and vigor to the entire system."

Speech Reading and Articulation Teaching.

By A. MELVILLE BELL.

Price, 25 Cents.

Practical Instructions in the Art of Reading Speech from the Mouth; and in the Art of Teaching Articulation to the Deaf.

[This Work—written at the suggestion of Miss Sarah Fuller, Principal of the Horace Mann School for the Deaf, Boston, Mass.—is, so far as known, the first Treatise published on "Speech Reading."]

From Principals of Institutions for the Deaf.

"Admirable in its conciseness, clearness and freedom from technicality."

"The simplicity and perfection of this little book."

"Full of exact and helpful observations."

"A very interesting and valuable work."

"The rules are clearly given and will be of great utility."

"Every articulation teacher should study it."

"A model of clearness and simplicity, without having any of the puzzling symbols that trouble the common mind. The exercises given in speech-reading from the lips are especially interesting, and of great importance for the student of phonetics."
