

SCIENCE

EDITORIAL COMMITTEE: S. NEWCOMB, Mathematics; R. S. WOODWARD, Mechanics; E. C. PICKERING, Astronomy; T. C. MENDENHALL, Physics; R. H. THURSTON, Engineering; IRA REMSEN, Chemistry; J. LE CONTE, Geology; W. M. DAVIS, Physiography; O. C. MARSH, Paleontology; W. K. BROOKS, C. HART MERRIAM, Zoology; S. H. SCUDDER, Entomology; N. L. BRITTON, Botany; HENRY F. OSBORN, General Biology; H. P. BOWDITCH, Physiology; J. S. BILLINGS, Hygiene; J. McKEEN CATTELL, Psychology; DANIEL G. BRINTON, J. W. POWELL, Anthropology.

FRIDAY, OCTOBER 9, 1896.

CONTENTS:

<i>An International Association for the Advancement of Science</i>	505
<i>Address before Section B of the American Association for the Advancement of Science by the Vice-President: C. L. MEES</i>	507
<i>The Cornell Expedition to Greenland: RALPH S. TARR</i>	520
<i>Albert Nelson Prentiss: GEO. F. ATKINSON</i>	523
<i>Current Notes on Physiography:—</i>	
<i>Waterways of English Lakeland; Origin of Lake Zurich; Dust and Sand Storms; Physical Geography of New York State; Geography from Nature: W. M. DAVIS</i>	524
<i>Current Notes on Anthropology:—</i>	
<i>Origin of the Ancient Indian Alphabets; Explorations in Yucatan: D. G. BRINTON</i>	526
<i>Astronomical Notes: H. J.</i>	526
<i>Notes on Inorganic Chemistry: J. L. H.</i>	527
<i>Scientific Notes and News</i>	528
<i>University and Educational News</i>	532
<i>Discussion and Correspondence:—</i>	
<i>A Straight Line as a Minimum Length: THOMAS S. FISKE. 'A Curve-tracing Top' and a Curious Optical Illusion: C. B. WARRING. Embryos of the Smooth Dogfish (Galeus canis): JAMES E. PEABODY. The Law of Rhythmic Movement: E. W. SCRIPTURE</i>	533
<i>Scientific Literature:—</i>	
<i>Herrick's American Lobster: H. C. BUMPUS. Isopentane and Hexane. Some Recent Mexican Publications: JOHN W. HARSHBERGER</i>	536
<i>New Books</i>	540

MSs. intended for publication and books, etc., intended for review should be sent to the responsible editor, Prof. J. McKeen Cattell, Garrison-on-Hudson, N. Y.

AN INTERNATIONAL ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE.

THE American Association for the Advancement of Science will meet next year at Detroit, on the Canadian frontier, and will adjourn to Toronto to welcome the British Association to American territory. The British Association has acknowledged this courtesy by inviting the officers of our Association to attend the Toronto meeting as honorary members and by admitting all members and fellows of our Association as members for the meeting. The *Association française pour l'avancement des sciences* has proposed that it should meet at Boulogne in 1898 or 1899, and suggested to the British Association that it should meet at some town on the opposite coast, such as would allow an interchange of visits between the two Associations. This proposal was cordially welcomed, and the British Association will meet at Dover in 1899.

Within the past few years International Congresses for a number of the leading sciences have been organized. In nearly every case each new congress has been more successful and stimulating than the preceding, and the future growth of these congresses is assured. They are accomplishing a work, the importance of which
