"Biology of the Bacillus": Dr. A. A. Wladimiroff, of St. Petersburg, at Washington, September 28.

"Collateral Tuberculosis Inflammation": Professor N. Ph. Tendeloo, of Leiden.

#### THE INTERNATIONAL FISHERIES CONGRESS

A FURTHER announcement of the congress, to be held from September 22 to 26, states that at 9:30 A.M. on September 22 the foreign delegates will be received by the secretary of state in the Diplomatic Reception Hall of the State Department. The initial meeting of the congress will be held at 10 o'clock in the hall of the National Geographic Society, where addresses of welcome on behalf of the United States will be delivered by Hon. Oscar S. Straus, secretary of commerce and labor, on behalf of the District of Columbia by Hon. Henry L. West, commissioner of the district, and on behalf of the American Fisheries Society by Dr. H. M. Smith, president of the society. The meeting of organization will be held in the banquet hall of the New Willard Hotel, Pennsylvania Avenue and Fourteenth Street, on the afternoon of September 22, at an hour to be announced. The regular sessions of the congress will be held daily, morning and afternoon, at times to be announced, at the New Willard Hotel. The president of the United States will receive the members of the congress at the White House. The secretary of commerce and labor will give an evening reception. Luncheons will be tendered by the American Fisheries Society, the Blue Ridge Rod and Gun Club and the Alaska

Packers Association, respectively, and there will be a subscription banquet at which the official representatives of foreign governments will be the guests of the congress. Visits to places of interest and other entertainment have been arranged for by the local reception committee. Arrangements have been made to permit members who so desire to inspect the important fisheries of New England. An attractive itinerary has been arranged embracing the entire week following the sessions of the congress and including visits to New York City, Narragansett Bay, Woods Hole, Boston and Gloucester, at each of which places local committees and individual residents will provide demonstrations of fishery methods and incidental entertainment. The methods of oyster culture employed on the great New England beds, the pound-net fishery, the purse-seine fishery, inspection of fish markets and vessels, the methods of deep-sea research, and other matters relating to the fisheries will be shown. Special itineraries will be arranged for members who may desire to visit other fisheries and hatcheries, and letters of introduction will be furnished.
