APPOINTMENTS COMMITTEE FOR RUSSIAN SCIENTIFIC AND LITERARY MEN

THE following appeal has been issued from the International Research Council, Burlington House, London.

Many Russians, distinguished in various branches of learning, are at present scattered over European countries. Some of them are destitute, others are earning a precarious livelihood by work in which they have no opportunity of exercising their particular capabilities, while, at the same time, the world at large is losing the benefit of their knowledge and aptitude.

With the view of assisting our unfortunate colleagues we have formed ourselves into a committee, the object of which is to bring their names and qualifications to the notice of universities and other institutions which may be able to offer them suitable employment.

We feel that we may count upon your sympathy, and in the hope that you may be able to help, we are forwarding a list of names, at present known to us, of those who would gratefully accept positions where they could continue the work to which they have devoted their lives.

The committee will have its central office in London, but it is proposed that cooperation between different countries be secured, either by the for-

mation of similar committees, or by the cooption of corresponding members.

The committee consists of Sir Arthur Schuster, F.R.S., foreign secretary, Royal Society (Chairman); Viscount Bryce, F.R.S.; Sir Richard Gregory, editor of *Nature*; Sir Frederick Kenyon, president of the British Academy; Charles Scott Sherrington, president of the Royal Society; Ernest H. Starling, F.R.S., professor of physiology, University of London; Sir Paul Vinogradoff, F.B.A., professor of jurisprudence, University of Oxford, and Charles J. Martin, F.R.S., director, Lister Institute, London (Hon. Secretary).
