## THE SCIENCE PRESS

Lancaster, Pa.

Garrison, N. Y.

New York City: Grand Central Terminal.

Annual Subscription, \$6.00. Single Copies, 15 Cts.

SCIENCE is the official organ of the American Association for the Advancement of Science. Information regarding membership in the association may be secured from the office of the permanent secretary, in the Smithsonian Institution Building, Washington, D. C.

Entered as second-class matter July 18, 1925, at the Post Office at Lancaster, Pa., under the Act of March 3, 1879.

## ORGANIZATION OF CHEMISTS IN THE UNITED STATES<sup>1</sup>

IN consultation with fellows of the institute who have solicited this address, I find an expectation that, since I have chanced to be associated with the beginnings of several of these organizations and participated at several of the critical stages in their development, I shall be somewhat reminiscent and the address more or less of the nature of a narrative. However, the topic assigned me covers a period much antecedent to my appearance in my present state of existence, but fortunately this field was carefully and completely covered by Dr. H. Carrington Bolton, noted historian and bibliographer of chemistry, lecturer on the history of chemistry at the George Washington University during the last decade of the nineteenth century, and, who, besides his monumental works on chemical bibliography, was author of that graphic story of alchemy and the alchemists, entitled, "The Follies of Science at the Court of Rudolph II."

Bolton presented the results of his researches at a meeting of the Washington Chemical Society on April 6, 1897, under the title, "Early American chemical societies,"<sup>2</sup> while at the 25th anniversary meeting of the American Society, he dealt with the "Chemical societies of the nineteenth century,"<sup>3</sup> and thus supplied material for comparisons as to date of formation, rate of development, and the like, between domestic and foreign societies. In his first paper, Dr. Bolton records three societies, viz., the Chemical Society of Philadelphia, founded in 1792; the Columbian Chemical Society of Philadelphia, founded in 1811, and the Delaware Chemical and Geological Society, organized at Delhi, Delaware County, New York, September 6, 1821. The information Dr. Bolton was able to collect regarding these organizations was meager and his paper consists largely of brief biographical notes of members, showing chiefly that, at the time, such chemical activity and interest in chemistry as existed was largely confined to the medical profession. In conning these names, one notes that several of the more active of the members, like Dr. Robert Hare and Professor James Cutbush, have

<sup>1</sup> Address delivered April 6, 1925, at the annual banquet of the American Institute of Chemists.

<sup>2</sup> *J. Am. Chem. Soc.*, Vol. 19, pp. 719-732 (1897).

<sup>3</sup> Report of the Twenty-fifth Anniversary of the American Chemical Society, April 12 and 13, 1901. Supplement to *J. Am. Chem. Soc.*, pp. 21-35 (1902). This list has been brought down to 1924, by E. Emmet Reid, on pp. 73-77 of his "Introduction to Organic Research."

## THE MICROSCOPE

By SIMON H. GAGE, of Cornell University

Revised Edition (14th) Ready

The Old and the New in Microscopy, with a special chapter on Dark-Field Methods and their Application.

Postpaid, \$3.50

COMSTOCK PUBLISHING CO., ITHACA, N. Y.

### SCIENTIFIC PERIODICALS

Chemical, Medical and allied subjects. Complete files, volumes and copies, bought and sold. Kindly send us a list of your wants and items of which you may wish to dispose.

B. LOGIN & SON

29 East 21st Street

New York, N. Y.

**ZOOLOGIST**—Open to change of position: A.B., B.S., A.M., M.S.; four years of graduate study, zoology, biology and entomology; requirements for doctorate largely completed. Nine years experience in state teachers' college as head of department of biology and curator of natural history museum; eight years experience in university as lecturer, assistant professor and professor in department of zoology. Desires associate or assistant professorship of zoology in university, or professorship in good college. Address: "X. Y.," care The Science Press, 3939 Grand Central Terminal, New York, N. Y.

Laboratory wishes to purchase

Polariscope,  
Circular Degrees,  
Half Shadow.

Perfect condition necessary.

W. The Science Press, 3941 Grand Central Terminal,  
New York, N. Y.

## BIOLOGISTS

When buying biological material and equipment look for this Pledge of Dependability  
We'll gladly send Catalogs

*The Sign of the Turtox Pledges Absolute Satisfaction*

Woods Hole, Mass.

### Biological Material

1. **ZOOLOGY.** Preserved material of all types of animals for class work and for the museum.

2. **EMBRYOLOGY.** Stages of some invertebrates, fishes (including Acanthias, Amia and Lepidosteus), Amphibia, Reptiles and some mammals.

3. **BOTANY.** Preserved material of Algae, Fungi, Liverworts, Mosses, Ferns and Seed Plants.

4. **MICROSCOPE SLIDES** in Bacteriology, Botany and Zoology.

5. **LIFE HISTORIES,** Germination Studies and Natural History Groups.

Catalogues furnished on application to

Leading Universities  
throughout the world use  
Leitz Microscopes.

# LEITZ

Leitz Microscopes are not  
higher in price than others  
of recognized standard.

## College Microscopes

Models "L" and "LL"

### In Stock for Immediate Delivery

In precision of optical and mechanical workmanship the Microscopes "L" and "LL" are equal to the elaborate Leitz Research Microscopes, having however been simplified in their adjustments so as to give the greatest practical usefulness in class room and student laboratory work.

The Teaching Profession, through an ever increasing knowledge of the intimate technical details in the construction of scientific instruments, have been made to realize the advantages derived when selecting class room microscopes of superior quality and the attending feature of continuous satisfaction as well as economy through saving of repair expenses.

Model "L"

Model "LL"

*Leitz Microscopes meet these requirements in an uncontested manner, their prices not being higher than other instruments of similar construction.*

If the purchase of class room microscopes is anticipated, ask for our literature and estimate; we satisfy the most discriminating requirements and through the use of Leitz College Microscopes "L" and "LL," institutions will realize the importance of superior quality.
