

SPECIAL ISSUE CONTAINING PRELIMINARY ANNOUNCEMENTS OF THE FIFTH PHILADELPHIA MEETING OF THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE AND ASSOCIATED SOCIETIES, DECEMBER 27, 1926, TO JANUARY 1, 1927. EDITED BY BURTON E. LIVINGSTON, PERMANENT SECRETARY.

SCIENCE

NEW SERIES
VOL. LXIV, No. 1666

FRIDAY, DECEMBER 3, 1926

ANNUAL SUBSCRIPTION, \$6.00
SINGLE COPIES, 15 CTS.

IMPORTANT BOOKS

Mayo Foundation Lectures on Heredity

Given at the Mayo Foundation and at the Universities of Wisconsin, Minnesota, Nebraska, Iowa, and Washington (St. Louis). The lecturers are: William Ernest Castle, Harvard; Clarence Erwin McClung, University of Pennsylvania; John A. Detlefsen, University of Pennsylvania; Maud Slye, University of Chicago; Harry Gideon Wells, University of Chicago, and Michael Frederick Guyer, University of Wisconsin.

12mo of 250 pages, illustrated.

Cloth, \$2.50 net.

Mayo Foundation Lectures on Nutrition

Given at the Mayo Foundation, at the Des Moines Academy of Medicine, the Universities of Wisconsin, Minnesota, Nebraska, Iowa, and Washington (St. Louis). The lecturers are: Francis Gene Benedict, Carnegie Institute of Washington, Boston; Graham Lusk, Russell Sage Institute of Pathology; Eugene Floyd Du Bois, Russell Sage Institute of Pathology; Archibald Vivian Hill, University College, London; Elmer Verner McCollum, Johns Hopkins; Herbert McLean Evans, University of California.

12mo of 243 pages, illustrated.

Cloth, \$2.50 net.

Jordan's General Bacteriology

Eighth Edition

Dr. Jordan has given his work a most complete revision. He has added a great deal of new material on the bacteriophage phenomenon, tularemia, botulism, scarlet fever, and other subjects in which recent progress has been made. The chapter on Anaerobes has been extensively revised. Dr. Jordan's book is very complete. A chapter is devoted to the filtrable viruses. There are chapters on the bacteria of the air, soil and water; bacteria in the arts and industries; the bacteriology of milk and milk products; bacteria and the nitrogen cycle, and the bacterial diseases of plants.

Octavo of 752 pages, illustrated. By Edwin O. Jordan, Ph.D., Professor of Bacteriology in the University of Chicago and in Rush Medical College.

Cloth, \$5.00 net.

Draper's Human Constitution

Dr. Draper's method is not a new one, but rather the development of its application. Pediatricists use mensuration to determine deviation from the normal. Psychiatrists have directed attention to certain physical characteristics. Cretinism, Mongolian idiocy, etc., have certain distinctive anatomic characteristics. Why should not other diseases have definite physical stigmata? Dr. Draper has found that they have. This book is observation scientifically controlled, and interpreted in clinical terms.

Octavo of 345 pages, illustrated. By George Draper, M.D., Associate in Medicine at Columbia University, New York.

Cloth, \$7.50 net.

SCIENCE is the official organ of the American Association for the Advancement of Science. Information regarding membership in the Association may be secured from the office of the permanent secretary, in the Smithsonian Institution Building, Washington, D. C.

Entered as second-class matter July 18, 1923, at the Post Office at Lancaster, Pa., under the Act of March 8, 1879.

PRELIMINARY ANNOUNCEMENT OF THE FIFTH PHILADELPHIA MEETING OF THE AMERICAN ASSOCIATION FOR THE ADVANCEMENT OF SCIENCE AND ASSOCIATED SOCIETIES

INTRODUCTION

THIS special issue of SCIENCE is sent to all members of the American Association, to those who regularly receive *The Scientific Monthly* as well as to those regularly receiving SCIENCE, in order that the preliminary announcements of the approaching fifth Philadelphia meeting may reach every member. The announcements contain as much information about the Philadelphia meeting as could be brought together at the time this issue went to press. The complete general program of the meeting will be distributed to all who register in the registration offices at Philadelphia, which will open at 9 on Monday, December 27, and will be open until 6. The office hours will be the same on the following days of the meeting. The registration offices will be in the same hall with the annual science exhibition, Weightman Hall, the gymnasium of the University of Pennsylvania, at 33rd and Spruce Streets. Members who have paid dues

Those planning to attend the fifth Philadelphia meeting should arrange for their hotel rooms at once. A list of Philadelphia hotels, with prices, has been published in SCIENCE for November 12.

Those who are to present papers at the meeting, whether they are members of the association or not, should send their manuscripts to the association news service as soon as possible, sending an additional copy of each paper to Science Service and a third copy to the society or section secretary in whose program the paper is to occur.

When purchasing railway tickets to Philadelphia, each purchaser should be sure to secure from the ticket agent a certificate for the meeting of the American Association for the Advancement of Science and Associated Societies, unless a round-trip ticket is purchased. After validation at the meeting, the certificate will entitle the holder to a half-fare rate for the return trip.

Unexcelled for Precision Work in the Laboratory

Bausch & Lomb Minot Automatic Precision Microtome

THIS Bausch & Lomb Microtome of the Minot Automatic Precision type is unexcelled for accurate work. Many of the most important laboratories in the world are equipped with this precision instrument. Although it is intended for cutting large specimens, either paraffin or celloidin, it can be used equally well for serial work.

The feeding mechanism operates automatically and provides for cutting section of 1 micron and more up to 25 microns in steps of single microns. The gear construction insures a steady stroke and even contact with the feeding mechanism, eliminating to this extent the possibility of personal error. This instrument, No. 3020, is the last work in precision microtomes.

May we send you our illustrated microtome circular?

Patent Applied For

LaMotte Roulette Comparator

Appreciation of the importance of Hydrogen Ion Control is growing rapidly in many branches of industry as well as in scientific circles.

To meet an ever-increasing demand for practical information on the subject, we have recently issued "The A B C of Hydrogen Ion Control" which gives a complete explanation of this method for both the technical and non-technical worker, with numerous examples of actual applications.

A copy will be sent you on request.

Largest Library of Laboratory Plans in existence!

Our experience for a generation in equipping science departments of schools and colleges all over America with Laboratory Furniture has given us a tremendous amount of valuable information and plans, which are available to you.

When your school needs Laboratory Desks or other equipment, it would be well to investigate Kewaunee. The Kewaunee Book, with 500 illustrations, will be sent to School or Board officials interested. Ask for a copy. Address all inquiries to the factory at Kewaunee.

**Physics
Laboratory Table**
No. 700

Very popular with teachers. Very substantially built. Can be supplied, if desired, with lower cupboard and drawers.

Chemical Desk No. 850

A good practical design at a moderate price that embodies all the essential features of the more elaborate desks.

Instructor's Desk
No. 1416

For Private Laboratory

Produced in response to an insistent demand for an absolutely private work-table. Roll top cover completely encloses.

Coleman & Bell Biological Stains

Are recognized throughout the United States and foreign countries as being **DEPENDABLE**. This is due to the high standards of quality enforced in the manufacture, purification and testing of these products.

A number of the common stains are now available with the certificate of the Commission on Standardization of Biological Stains.

Complete catalogue of Laboratory Reagents upon request.
