THE GEOGRAPHIC FACTOR

By

R. H. WHITBECK and OLIVE J. THOMAS

Department of Geography, University of Wisconsin

A CLEAR-CUT explanation of the ways in which geography and natural surroundings influence human life.

Charles A. Ellwood, of Duke University, says,

"It is the sanest statement of the influence of geographic factors upon human affairs which has been published by American geographers."

John Q. Adams, of the University of Missouri, says,

"It is the best and clearest presentation of the so-called American philosophy of geography which has yet been published."

Guy-Harold Smith, of Ohio University, says,

"It is a very interesting book."

Edward Alsworth Ross, of the University of Wisconsin, says,

"It is the most readable and delightful book on the subject I have ever met with."

8vo, 422 pages
