

The Journal of Nutrition

Published monthly by The Wistar Institute of Anatomy and Biology beginning with No. 1 of Vol. 7, issued on January 10, 1934.

This journal will continue its same high scientific standard under the editorial management of an internationally known group of biochemists and nutrition experts.

The Journal of Nutrition is the official organ of the American Institute of Nutrition.

Two volumes of 600 pages each will be published during a year. Price per volume \$5.00 domestic, \$5.50 foreign.

THE STORY OF ENERGY BY MORTON MOTT-SMITH

Author of

"THIS
MECHANICAL
WORLD"

and
"HEAT AND
ITS
WORKINGS"

Each, \$2.00

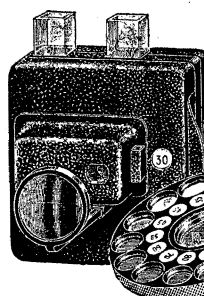

**D. APPLETON-
CENTURY CO.**
35 West 32nd St.,
New York

The story of man's capture and harnessing of physical energy from 1765 to the present. Each stage of the development of machine-made energy is interestingly treated, including the contributions of Watt, Carnot, Mayer, Joule, Helmholtz, Clausius, etc.—Fulton's steam boat, Stephenson's locomotive, the Otto gas-engine, the turbine, the Diesel engine, the automobile, the airplane, etc. Appleton New World of Science Series.

Illustrated \$2.00

HELLIGE COMPARATOR

EMPLOYING PERMANENT GLASS
COLOR STANDARDS

for pH control, blood and
urine chemistry and many
other tests.

Hellige Glass Color Standards
are non-fading, hence they per-
manently retain their accuracy.
More than 500,000 of these stan-
dards have been sold in the past
five years, to users all
over the world.

Hellige Comparators
are compact in design,
simple in operation,
and easy to manipu-
late.
