

## Have You Seen the *BEAVER*?

This modern dissecting knife consists of two simple parts: a replaceable blade, of surgical grade; a stout handle of stainless steel.

Those parts ingeniously interlock to provide all the rigidity of a one-piece tool. Yet the blade can be changed in two seconds.

Beaver Blades . . . of different shapes . . . have the keenest edge known to surgical steel.

### TRIAL SET SENT ON APPROVAL

If you would like to try this knife, send for set No. 1218, including handle, dummy blade, and packet of six assorted blades.

Postpaid for \$1.75.

Use any or all of the blades with our compliments. If you are not enthusiastic, return the handle for full credit.
