No. 2212

## *The Dedication of the New Building of Mellon Institute:*

*Introductory Remarks and Comments:* DR. E. R. WEIDLEIN ..... 485

*Addresses of the Honorable Andrew W. Mellon and Richard K. Mellon* ..... 486

*Robert Kennedy Duncan:* DR. B. T. BROOKS ..... 489

## *Scientific Events:*

*Symposia at the Denver Meeting of the American Association for the Advancement of Science; Funds for the American Museum of Natural History; Dinner of the Society of the Friends of Scripta Mathematica; The American Academy of Arts and Sciences; The Directorship of the Hospital of the Rockefeller Institute for Medical Research* ..... 491

*Scientific Notes and News* ..... 494

## *Discussion:*

*The Needs of the Mimicry Theory:* PROFESSOR A. FRANKLIN SHULL. *Heterothallism in Venturia inaequalis:* PROFESSOR G. W. KEITT and D. H. PALMITER. *An Analogue of Plateau's Spherule:* DR. CHARLES H. GREENE. *Seaside Shrubs: Wind Forms vs. Spray Forms:* DR. B. W. WELLS and DR. I. V. SHUNK ..... 496

## *The American Association for the Advancement of Science:*

*Minutes of the Executive Committee:* DR. HENRY B. WARD ..... 499

## *Reports:*

*Activities of the Mellon Institute during the Past Year* ..... 500

## *Special Articles:*

*Pimelic Acid as a Growth Accessory Factor for a Strain of the Diphtheria Bacillus:* PROFESSOR J. HOWARD MUELLER. *Biological Assays for Flavin and Dermatitis Factor(s):* DR. CHARLES A. COOK, MIRIAM F. CLARKE and AMOS E. LIGHT. *The Distribution of Gene Frequencies in Populations:* PROFESSOR SEWALL WRIGHT ..... 502

*Science News* ..... 8

## THE DEDICATION OF THE NEW BUILDING OF MELLON INSTITUTE<sup>1</sup>

### INTRODUCTORY REMARKS AND COMMENTS

By Dr. E. R. WEIDLEIN

DIRECTOR OF THE INSTITUTE

Honorable Andrew W. Mellon, Mr. Richard K. Mellon, distinguished guests, friends of Mellon Institute and friends of our radio audience: We extend to you our sincere appreciation for your presence. We are stimulated by an audience of leading scientists, educators and industrialists, who are here to pay tribute to our founders in dedicating this magnificent new building to science for the benefit of humanity. In this we all take pride; and as that occasion has now approached, let me say a word about the meaning of the institute and about the purpose of its founding.

Before they established the institute in 1913, Andrew W. Mellon and the late Richard B. Mellon, the father of Richard K. Mellon, saw the merit of scientific re-

search for the benefit of mankind through the development of industry. Industries of that day, however, were not applying scientific research for the solution of their problems, nor were these industries fully aware as to what such research might mean to them. The institute was established for the purpose of giving this aid.

This venture of scientific research very soon proved its value. New materials and new processes came into being. Industries and the whole estate of man benefited. Yet the founders saw beyond these results. It seemed to them that there were needed researches in science that have a more direct relation to human welfare, which might also advance our basic knowledge of science. Such fundamental work was started; and

# JOURNAL OF MORPHOLOGY

Published by The Wistar Institute

C. E. McClung, Managing Editor, University of Pennsylvania

Vol. 61

Contents for June, 1937

No. 1

- M. K. SUBRAMANIAN. Oogenesis of *Meretrix casta* (Chemnitz) with a note on the nature of the contents of neutral red vacuoles. Twenty-five text figures.
- V. NATH. Spermatogenesis of the Prawn, *Palaemon lamarrei*. Three plates.
- D. MUKERJI and M. A. H. BHUYA. Reproductive system of the Bruchid beetles, *Bruchus quadrimaculatus* Fabr., and *Bruchus (Callosobruchus) chinensis* L., (Bruchidae-Coleoptera). Eleven text figures and three plates.
- K. OGUMA. The segmentary structure of the human X-chromosome compared with that of rodents. Six text figures and three plates.
- A. L. GRAFFLIN. Observations upon the aglomerular nature of certain teleostean kidneys. Two plates.
- R. K. ENDERS. Panniculus carnosus and formation of the pouch in Didelphids. Twenty text figures.
- G. MENDOZA. Structural and vascular changes accompanying the resorption of the proctodaeal processes after birth in the embryos of the Goodeidae, a family of viviparous fishes. Four plates.
- R. L. KING and H. W. BEAMS. The effect of ultra-centrifuging on *Paramoecium*, with special reference to recovery and macronuclear reorganization. One text figure and two plates.
- R. T. KEMPTON. The dimensions of the renal tubules of *Necturus maculosus*. Two text figures.

Price \$12.00 per volume, Domestic; \$12.50 per volume, Foreign

Issued quarterly

Many early volumes are still available. Prices upon request
