Your SINK PROBLEMS are ended

Karcite Sink No. 8-600

When You Install MOLDED CERAMIC

KARCITE SINKS

Less than two years ago Karcite was announced in a nationwide Radio Broadcast by John B. Kennedy from the platform of Mellon Institute. Today the many laboratories which have adopted this new sink material know from experience that—

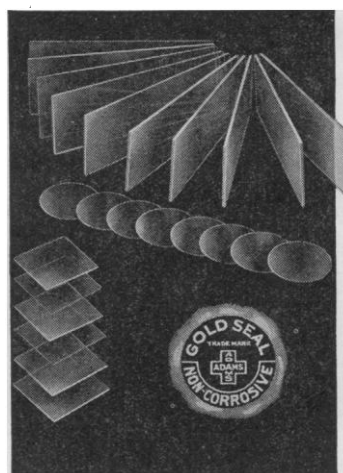

Karcite is free from distortion . . . Karcite is inert to solvents Karcite is hard, dense, virtually non-absorbent . . . Karcite will not crack or break under ordinary weights or thermal shocks . . . Karcite resists abrasion . . . Karcite does not chip easily . . . Karcite is easier to clean . . . Karcite is lighter, yet stronger.

With this superior new material larger sinks and even most intricate shapes are readily molded. Insist on Karcite Sinks. 39 Designs now available from stock. Distributed by most leading Manufacturers of Laboratory Furniture. Write for Catalog and Price List.

*The Standard for
Microscope Glass*

**Gold Seal
Microscope
Slides and
Cover
Glasses**

**Crystal Clear
Non-Corrosive
Will Not Fog**

MADE IN U. S. A.

Microscopic work demands glass of unusual clarity. Gold Seal Slides and Cover Glasses are made from glass practically free from alkali. They attain a precise and uniform thinness of plane surface. Therefore, Gold Seal offers an unusual degree of crystal clarity. Further, Gold Seal is guaranteed against corrosion, fogging or any imperfection. Specify Gold Seal Slides and Cover Glasses.
