

PerfeKtum R AMPOULES

(Made in Hungary of Hungarian glass tubing)

**THOROUGHLY ANNEALED
ALKALI-RESISTANT
SHOCK-PROOF**

The distinguishing characteristics of PerfeKtum R Ampoules are as follows: Glass thoroughly annealed to obviate strains and stresses, during fusing or sterilizing, which weaken the ampoules and cause premature breakage. The Hydrogen Ion Concentration of the glass is recorded as pH-6.7, which is equal to that of the best resistant glass known on the market. Easy to seal due to

comparatively low melting point. High thermic quality. Special composition of glass enables it to withstand a temperature of 260°C. without cracking. PerfeKtum R Ampoules fully comply with all official specifications in regards to chemical reactions. Complete stock of all items available for immediate shipment.

INDICATORS

The Coleman & Bell Company manufacture a complete list of indicators including all of the common indicators used in analytical and biological work, the hydrogen-ion indicators recommended by Sorensen and Clark & Lubs, and in addition many rare indicators suitable for special work. These indicators are available in both the dry form and in solution, ready to use. Certain indicators are offered in the form of Test Papers in vials containing 100 strips, and in sheets 2" x 10".
