The LaMotte Falling Drop Densimeter for determining

**Blood Proteins and Specific Gravity
of Body Fluids**

(after Barbour and Hamilton)

Blood proteins determined with one drop of plasma. Blood and plasma specific gravity changes can be followed minute by minute.

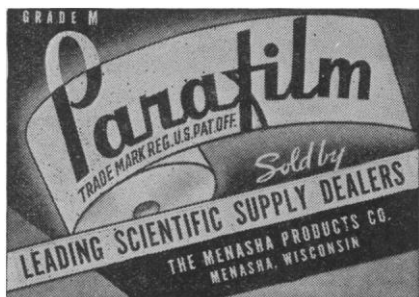

Method is accurate to 0.0001 specific gravity. Requires less than a minute to determine specific gravity.

Write for new illustrated descriptive bulletin.

LaMotte Chemical Products Co.

Dept. "H"

Towson, Baltimore, Md.
