

ELECTROCARDIOGRAPHY

By LOUIS N. KATZ, M.D.

Director of Cardiovascular Research, Michael Reese Hospital; Assistant Professor of Physiology, University of Chicago, Chicago, Illinois

Imperial octavo, 580 pages, illustrated with 402 engravings including 806 electrocardiograms. Fabricoid, \$10.00, net.

This book meets the needs of the non-specializing physician for a comprehensive and lucid treatise on the electrocardiogram. The subject is presented simply and concisely. The text is profusely illustrated with detailed descriptions of the characteristics of each record. This is essentially a guide to daily practice which meets the needs of a text, an atlas and a book of reference.
