## Organic Reagents In Inorganic Analysis

By Ibert Mellan, Ph.G., M.Sc., F.A.I.C.

Methods employing organic reagents are sensitive, specific, time-saving, and accurate; they are presented in this book in a genuinely usable way for teachers and students of chemistry, research workers and industrial chemists.

About 225 organic reagents are described. These reagents, their reactive groupings and the resulting compounds formed, are demonstrated graphically.

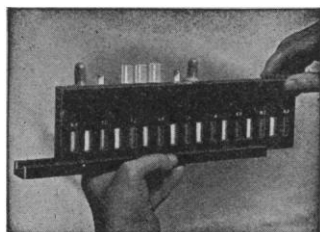

About 580 graphical formulas; 230 qualitative and spot tests; 240 quantitative tests (colorimetric, gravimetric, and volumetric) are included.

682 Pages. \$9.00 (July 1941)

## TAYLOR Boiler Water Comparator

for pH and Phosphate Control

Protect your investment in steam generating equipment, increase boiler life and assure smoother, more economical operation at a cost for pH and Phosphate Control Equipment that is more than repaid by eliminating just one tube descaling job.

Silicates, iron, sulfites, etc. do not interfere. Reagents extremely stable. Determination takes only 2 minutes. Unlimited guarantee against fading of standards.

Phosphate Comparator, complete ..... \$17.50  
Boiler Water Outfit (pH & Phos.) ..... 47.50

## ANALYTICAL REAGENTS

**Coleman & Bell**

Analytical Reagents are manufactured to meet definite standards of purity, including the specifications of the Committee on Analytical Reagents of the American Chemical Society. Our list includes all of the common items and many rare and unusual compounds suitable for special analytical procedures.

*Catalog upon request*

## OUR LEADING PRODUCTS—

### Giemsa Stain

(Gradwohl)

Commission-Certified

\$2.00 for 2 ounces

### Blood Grouping Sera

A and B—Price \$2.00 per 2 c.c.

Absorbed B—

(to differentiate A<sub>1</sub> from A<sub>2</sub>)

Price \$3.00 per 1 c.c.

M and N

(in Paternity and Medico-legal cases)

Price \$5.00 per c.c.
