

Sentries Along America's Battle Lines

IN white-walled hospital laboratories, in industrial research laboratories, in field laboratories, microscopes in the hands of American doctors and scientists are on twenty-four hour sentry duty.

Here, on America's second front, microscopists are waging an unending war against enemies of health and production, enemies that are invisible to the unaided eye.

Bausch & Lomb Microscopes and B&L specialized instruments of optical research and control are doing an invaluable job today.

From the toolmaker's microscope that helps to maintain the standards of accuracy and perfection to which America's war effort is geared, to the

microscope of the medical officer fighting the hazards to health which, if unchecked, could put a division out of action, B&L Instruments, through the men using them, are serving America.

Here at home, in laboratories, shop and factory, and along our far-flung outposts, wherever American industry and American fighting men are serving the cause of Victory, you will find Bausch & Lomb Optical Instruments on active duty.

BAUSCH & LOMB

OPTICAL COMPANY • ESTABLISHED 1853

AN AMERICAN SCIENTIFIC INSTITUTION PRODUCING OPTICAL GLASS AND INSTRUMENTS
FOR MILITARY USE, EDUCATION, RESEARCH, INDUSTRY AND EYESIGHT CORRECTION
