THE AMERICAN CHEMICAL SOCIETY

At a meeting in Washington of the Board of Directors of the American Chemical Society on April 17, it was recommended by the Committee to Consider New Activities of the Society that a proper use of the funds of the society for the advancement of chemistry is the aiding of especially promising individuals in their training as chemists and chemical engineers, the better to enable them as leaders to add distinction to the chemical profession and to ensure our country's welfare. It was pointed out that this program could be fostered through loans, scholarships and fellowships awarded to carefully selected and deserving teaching and student personnel.

To carry out these objectives an educational fund was established, \$500,000 being transferred thereto from the general funds of the society, both corpus and income to be available under proper safeguards to be set up by the Board of Directors. A committee of three directors was appointed to draw up plans for the administration of the fund and to report its findings to the board at its next meeting. Members of the committee appointed are Drs. W. A. Noyes, Jr., C. S. Marvel and Robert E. Swain.

The treasurer was instructed to take the necessary steps to set aside funds for the purpose, and was instructed to pay the necessary expenses of the committee to draw up plans for its administration.

THE AMERICAN ACADEMY OF ARTS AND SCIENCES

At the annual meeting of the American Academy of Arts and Sciences, held on May 9 at its house, 28 Newbury Street, Boston, the election of 33 new fellows and five foreign honorary members was announced:
