Senator Claude Pepper who introduced the Neeley-Pepper Bill, S. 93, into the 80th Congress on January 8. The Neeley-Pepper Bill, which calls for a \$100,000,000 Federal expenditure for cancer research, failed to pass the 79th Congress.

## VACUUM PUMPS

**Weeks of running in and periodic testing  
assures greater durability**

- Fast Pumping of all Pressures
- Continuous Operation
- Dependable Results
- Noiseless Operation

MODEL 1400-B

**\$90<sup>00</sup>**

Complete  
with Motor

*Vacuum*  
**0.1 Micron (.0001 mm Hg)**

*Free Air Capacity*  
**21 L. Per Minute**

*Operating Speed*  
**450 R.P.M.**

*Large Capacity*  
**33.4 liters**

***New Book!***

**DANIELS, WILLIAMS  
and WORTHINGHAM'S**

**MUSCLE TESTING**

**T**HESE authors have met a definite need in writing this new book. Here you will find detailed data on muscle topography, muscle insertions, joint range and nerve distributions, adapted and applied for everyday use in manual muscle examination and evaluation of muscle strength. Whether muscular weakness be the result of disease, injury or disuse, the tests given here provide a basis for determining the exact degree of weakness and for the prescribing of muscle reeducation or the planning of reconstructive orthopedic surgery. In addition, they provide a reliable means of measuring, from time to time, improvement of the conditions. The great simplicity and full fidelity of the 349 diagrammatic line drawings make this manual easy and convenient to use at all times. (The study on which this manual is based has been aided by a grant from the National Foundation for Infantile Paralysis, Inc.)

By LUCILLE DANIELS, N.A., Director and Associate Professor of Physical Therapy, Stanford University, MARION WILLIAMS, M.A., Assistant Professor of Physical Therapy, Stanford University, and CATHERINE WORTHINGHAM, M.A., Director of Professional Education, The National Foundation for Infantile Paralysis, Inc. 189 pages, 8" x 10 $\frac{3}{4}$ ", with 349 illustrations. \$2.50

**Marshall-Lazier's  
HUMAN ANATOMY**

In revising this standard text of elementary human anatomy, Dr. Lazier has added a wealth of important material. For example: The chapter on Bones and Joints has been changed to incorporate new material on the vertebral column, the spine and the joints. More adequate coverage is given to the discussion of the ribs, the skull and the arm bones. In addition, Dr. Lazier completely rewrote and extensively expanded the chapter on the Muscles. 64 new illustrations have been included to make a total of 303, 13 of them in color.

By CLYDE MARSHALL, M.D., formerly Assistant Professor of Anatomy, Yale University. Revised by EDGAR L. LAZIER, Ph.D., Associate Professor of Zoology, University of California at Los Angeles. 418 pages, 5 $\frac{1}{4}$ " x 7 $\frac{3}{4}$ ", with 303 illustrations, 13 in color. \$2.50. *New (3rd) Edition.*

**Rathbone's CORRECTIVE  
PHYSICAL EDUCATION**

This book presents, the essential facts of human anatomy and physiology as they pertain to the subject of corrective exercise. It deals primarily with the development of sound bodies through exercise. Its interest correlates with that of the new book on Muscle Testing described to the left.

By JOSEPHINE LANGWORTHY RATHBONE, Ph.D., Associate Professor of Physical Education, Teachers College, Columbia University. 275 pages, 5 $\frac{1}{4}$ " x 7 $\frac{1}{2}$ ", illustrated. \$3.00 *Third Edition.*

## CONTENTS

### Financing Cancer Research:

*E. V. Cowdry* ..... 53

Scientific Development of the Use of  
Human Resources: Progress in the  
Army Air Forces: *John C. Flanagan*.. 57

**News and Notes** ..... 61

### Technical Papers

The Polished Rocks of Cornudas Mountain, New  
Mexico: *Walter B. Lang*..... 65

Vitamin C Content of Mexican Ornamental Plants:  
*Francisco Giral and Luz Maria de la Torre* ..... 65

Experimental Argyrosis: II. Treatment of Rats Receiv-  
ing Silver With 2,3-Dimercaptopropanol (BAL):  
*Charles T. Olcott and Walter F. Riker, Jr.*..... 67

The Movement of Substances Through a Two-phased  
Solution System: *T. C. Broyer*..... 67

The Effect of Streptomycin on the Oxygen Uptake of  
*Eberthella typhosa*: *Ross S. Benham*..... 69

### In the Laboratory

The Assay of New Rich Natural Sources of Ascorbic  
Acid: *Jules Tuba, George Hunter, and John A. Osborne* 70

Autolyzed Brain Tissue as a Means of Facilitating Trans-  
mission of Experimental Poliomyelitis:  
*Albert Milzer and Chester L. Byrd, Jr.*..... 70

Semiquantitative Determination of Traces of Uranium:  
A Fluorophotometric Method for Field Use:  
*T. R. P. Gibb, Jr., and Howard T. Evans, Jr.*..... 72

A Simple Resistance Thermometer for Blood-Tempera-  
ture Measurements:  
*Louis F. Drummeter, Jr., and William G. Fastie*..... 73

The Cultivation of Mammalian Liver Cells in Large  
Numbers: *T. N. Harris and Susanna Harris*..... 75

### Book Reviews

Electrical engineering: essential theory and typical appli-  
cations: *Fred H. Pumphrey*.  
Reviewed by *C. V. Christie*..... 77

Atomic and free radical reactions: the kinetics of gas-  
phase reactions involving atoms and organic radicals:  
*E. W. R. Steacie*.  
Reviewed by *Henry E. Bent*..... 77

Photography by infrared: its principles and applications.  
(2nd ed.): *Walter Clark*.  
Reviewed by *W. E. Forsythe*..... 77

SCIENCE: A Weekly Journal, since 1900 the official organ of the  
American Association for the Advancement of Science. Published by  
the American Association for the Advancement of Science every Friday  
at Baltimore, Maryland.

Editorial Advisers: W. L. Hart, Karl L. Darrow, Farrington Daniels,  
Otto Struve, H. R. Aldrich, George A. Baitzell, William Crocker, F. H. H.  
Roberts, Jr., Robert H. Seashore, Edward P. Hutchinson, Chauncey D.  
Leake, J. C. Hunsaker, W. J. Nungester, W. A. Albrecht, W. C. Olson,  
W. F. G. Swann.

Communications relative to articles offered for publication should be  
addressed to Editor, 1515 Massachusetts Avenue, N.W., Washington  
5, D. C.

Communications relative to advertising and subscriptions should be  
addressed to THEO. J. CHRISTENSEN, Mt. Royal and Guilford Avenues,  
Baltimore, and 1515 Massachusetts Avenue, N.W., Washington 5, D. C.

Communications relative to membership in the Association and to all  
matters of business of the Association should be addressed to the  
Administrative Secretary, AAAS, 1515 Massachusetts Avenue, N.W.,  
Washington 5, D. C.

Annual subscription, \$7.50 Single copies, 25 cents  
Entered as second-class matter July 18, 1923 at the Post Office at  
Lancaster, Pa., under the Act of March 3, 1879.

(Application for re-entry to the second class of mail matter under the  
act of March 3, 1879, pending at Baltimore, Md.)
