# *Meeting Our Obligation*

Rapidly expanding research on a national basis imposes an obligation on manufacturers of laboratory apparatus and calls for greatly increased production of quality instruments. As our part in this expanding program, we have recently completed construction of this modern factory building. Here, International Centrifuges of traditional quality are now being produced in greater numbers than ever before. In announcing our new address recorded below, we reaffirm our faith in the future of research and pledge the scientist our continued support.
