CASTALOY Reg. U.S. Pat. Off. **LABORATORY APPLIANCES**

The Modern Burette Support with Castaloy Burette Holder, shown in series above, is standard equipment in thousands of laboratories. It is available, with porcelain base at \$8.50.

CLAMPS...

All of the 18-Castaloy Clamps—like the popular Utility Clamp illustrated—are carefully designed and skillfully manufactured of corrosion resistant materials. The jaws open full without binding.

HOLDERS...

The 10 different Castaloy Holders grasp burettes, hold bottles, regulate flow and perform other useful tasks. The Clamp Holder illustrated connects Clamps to support rods.

SUPPORTS...

These are seven different Castaloy Supports each one uniquely designed like the Leveling Bulb Support illustrated. Four sizes of Flexaframe Supports permit assemblies of glassware in one firm unit.

Convenient

Useful

Economical

**35 different appliances . . .
one for every holding need in
the laboratory.**

"Castaloy" is the registered trade name for a complete line of laboratory clamps, holders, supports and special devices which were designed by Fisher and have outmoded ordinary laboratory hardware.

Castaloy Laboratory Appliances are stronger than those made of cast iron or stamped steel—they cannot rust—they resist corrosion—they have distinctive mechanical features—they cost less because they last longer—and they are a big improvement in appearance.
