

# Full **3-D** detail for **FASTER, EASIER ANALYSES**

Get vivid images... lifetime trouble-free use  
... with a Bausch & Lomb Stereomicroscope

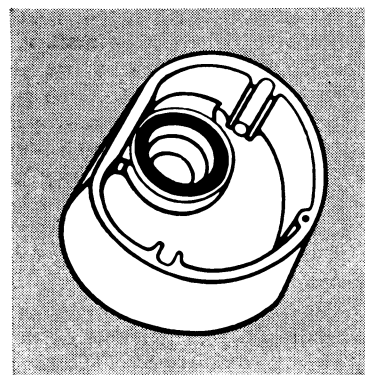

## **SHOCKPROOF... for lifetime dependability**

Ready whenever you need it... in the lab or in the field... because prisms *can't* jar loose despite the punishment of year-after-year practical use. Double support locks them into lifelong alignment... clamps at the top, gibs at the bottom.

## **DUSTPROOF... for bright, detailed images**

Even on field trips, you get "laboratory clean" images. Patented Neoprene ring inside prism housing fits flush on prism surface, seals out dust... one of the reasons why B&L Stereomicroscopes are *dustproof for life*.

**BAUSCH & LOMB**

**WRITE** for Catalog D-15 and demonstration. Bausch & Lomb Optical Co.,  
64256 St. Paul Street, Rochester 2, N. Y.
