

EASIEST EVER!

BAUSCH & LOMB

SpeedMatic

MICRO-PROJECTOR

**Projects vivid true-color
screen images for a solid hour
without interruption!**

Just flick the lever for instant choice of screen magnifications from $20\times$ to $3000\times$ (at 12 feet). You get the right light . . . *automatically* . . . because when you select an objective its matched condenser moves into perfect alignment. Screen images are bright and clear, critically detailed. Automatic electronic-feed arc lamp assures uniformly intense light for 60 minutes of uninterrupted viewing—you concentrate on the screen, not on the instrument. Efficient heat-control system eliminates need for color-distorting coolants . . . assures true-color images. Complete, \$1195.

Basic Illuminating Stand can be used, as shown here, with any microscope which has a substage condenser. Complete with built-in clamping device, built-in fixed mirror, Balcoted projection eyepiece, prism and light shield, \$376.
