for SCIENCE TEACHERS!

BAUSCH & LOMB *tri-simplex* MICRO-PROJECTOR

Brighter, clearer images... faster, easier operation

Here's the answer to crowded classes and limited instruction time. Projects more vivid views of microscopic specimens—easier to see and understand—than any other budget-priced micro-projector. That's because of its efficient combination of high quality objectives, double lens condensing system, pre-focused 100-w. lamp, focusable stage plate and objective holder, and vibration-free stand.

You'll appreciate its simplicity, too. In just seconds you can adapt it to projection of (1) screen images of prepared microscope slides, (2) screen images of living micro-organisms in liquid, and (3) table-top images for tracing. There are many other important advantages to help make science teaching easier—and more effective. Wouldn't you like to know more about them?
