Meeting Notes

■ The 36th annual meeting of the Society of American Military Engineers will be held in Washington, D.C., 14-16 May. The Army Engineer Center, the Engineer School, and the Engineer Research and Development Laboratories at Fort Belvoir, Va., will be hosts to the society on 14 May. On the morning of 15 May, the Department of Defense will conduct an industrial mobilization symposium at the Mayflower Hotel.

■ A variety of subjects related to research and testing of engineering materials will be discussed at the 59th annual meeting of the American Society for Testing Materials to be held in Atlantic City, N.J., 17-22 June. Some 31 sessions have been scheduled. There will be eight symposia on the following subjects: specific gravity of bituminous-coated aggregates, ion exchange and chromatography in analytic chemistry, solder, pH measurement, tension testing of nonmetallic materials, steam quality, rheology, and in-place shear testing of foundation soil by the Vane method. During the technical sessions there will be papers on metals, concrete, fatigue, stainless steel, soils, and general testing.

This year the Marburg lecture will be given by Charles E. Reed of the General Electric Company, Waterford, N.Y., on the "Chemical properties, and applications of silicones." D. K. Crampton of the Chase Brass and Copper Company, Waterbury, Conn., will give the Gillette memorial lecture on the "Structural chemistry and metallurgy of copper."

The society's 12th Exhibit of Testing and Scientific Apparatus and Laboratory Supplies will be on display. This exhibit is held every other year.

■ A Symposium on Recent Developments in Research Methods and Instrumentation will be held at the National Institutes of Health, Bethesda, Md., 14-16 May. The five sessions will cover the following subjects: structure of proteins, spectrochemistry, vapor-phase chromatography, radioactive counting methods, and methods for the study of individual living cells. The symposium is being held in conjunction with the sixth annual Re-

search Equipment Exhibit. A complete listing of papers is available. For information, write to the chairman of the Symposium Committee, Roger G. Bates, at NIH.

■ A conference on Magnetism and Magnetic Materials, sponsored by the American Institute of Electrical Engineers in cooperation with the American Physical Society, the American Institute of Mining and Metallurgical Engineers, and the Institute of Radio Engineers, will be held in Boston on 16 Oct. Authors should submit titles of proposed papers by 15 June and abstracts by 1 Aug. For further details write: T. O. Paine, Measurements Laboratory, General Electric Company, West Lynn, Mass.

■ The Italian Physical Society has announced that the International School of Physics is to be held in Varenna, Lake Como, 15 July-4 Aug. This year the course will be devoted to the magnetic properties of matter. Among the lecturers scheduled are C. Kittel of the University of California, and E. M. Purcell and J. H. Van Vleck of Harvard University.
