18-21. Institute of Radio Engineers, natl. convention, New York, N.Y. (B. Warriner, IRE, 1 E. 79 St., New York 21.)

19-21. American Meteorological Soc., 151st national, Chicago, Ill. (K. C. Spengler, AMS, 3 Joy St., Boston 8, Mass.)

20-22. National Health Forum, Cincinnati, Ohio. (National Health Council, 1790 Broadway, New York 19.)

20-23. National Science Teachers Assoc., annual, Cleveland, Ohio. (R. H. Carleton, NSTA, 1201 16 St., NW, Washington 6.)

21-23. American Physical Soc., Philadelphia, Pa. (K. K. Darrow, APS, Columbia Univ., New York 27, N.Y.)

(See issue of 18 January for comprehensive list)

## 2 NEW LABORATORY AIDS!

### DUO-DRYER

FOR INDIVIDUAL OR  
BATCH DRYING

A dual-purpose, freeze-drying apparatus which does both regular freeze drying and tray drying in one unit. This newly-designed, all-stainless-steel apparatus can remove as much as 7 liters of water in one run. This compact unit has a 2" throat entering the trap. The trap is enclosed in its own dry-ice bath which in turn is insulated and will give unattended over-night operation. There are 10½" nipples for outside flasks. A three tier adjustable tray is furnished with the unit. The lucite top allows complete internal view of samples and can be used for infra-red heating of internal samples.

Cat. No. 55605 - DUO DRYER, Complete with Tray-Drying set-up ... **\$325.00**

### MULTI-SHAKER

A newly-designed shaker for a multiple of uses. Can be attached, as needed, to various baths or to a table top. With the addition of rods, and clamps this shaker is not limited to the number of vessels that can be shaken at one time. Both the stroke and speed of the stroke can be varied at will even while the apparatus is operating. The unit is of extremely heavy

duty construction and the motor is built for long and continuous duty. Operating characteristics are a 0-to 1½" stroke and 0 to 450 cycles per minute.

Cat. No. 55608 - MULTI-SHAKER, Complete with 1/20 HP motor, single phase, 1725 rpm continuous duty, and Zero-Max control. (Rods, clamps, test-tube racks and tank are not included) ... **\$350.00**

# THE FUTURE OF ARID LANDS

A symposium volume of the  
American Association for the  
Advancement of Science

Edited by Gilbert F. White  
Department of Geography,  
University of Chicago

6 x 9 inches, 464 pages, 49 illustrations, index, clothbound, October 1956

Price \$6.75. AAAS Members' prepaid order price \$5.75

The volume presents the efforts of scientists from 17 countries and from as many disciplines to assess the state of man's struggle to make productive and stable use of the world's arid lands.

It contains the papers and recommendations of the International Arid Lands Symposium and Conference, Albuquerque and Socorro, New Mexico, April and May 1955.

The symposium develops around a few basic questions. The representation and treatment of the subjects are highly interdisciplinary and lead to some important conclusions. The breadth and scope are indicated by the groupings of the Conference recommendations: Anthropology, Archaeology and Geography; Meteorology and Climatology; Hydrology, Geology and Soils; Biology, Ecology and Conservation; Organization, Communication, and Interdisciplinary Programs. Workers in all these fields, as well as administrators of government and private programs, will find the contents of this volume both stimulating for ideas and invaluable as a source of information.

## EQUIPMENT NEWS

*All inquiries concerning items listed here should be addressed to Science, Room 604, 11 W. 42 St., New York 36, N.Y. Include the name(s) of the manufacturer(s) and the department number(s).*

■ **STRAND BURNER** measures the burning rates of explosives and jet and rocket fuels to the closest 0.01 sec in a nitrogen atmosphere under high pressure. Tests may be run under controlled temperature conditions. Four models with pressure ratings of 2000, 4000, 7500, and 19,000 lb/in.<sup>2</sup> are available. (American Instrument Co., Dept. S128)

■ **BORESCOPE** permits examination of the insides of tubes, boilers, and other hollow bodies. Various objective heads provide forward, rear, lateral, oblique, and wide-angle views. The instrument is available in sizes ranging from ½ to 1¾ in. in diameter and from 20 in. to 72 ft in length. (Kollmorgen Optical Co., Dept. S129)

■ **REAGENTS** for use in the examination of water, sewage, and industrial wastes are described in a new catalog. (Hartman-Leddon Co., Dept. S131)

■ **CHROMATOGRAPHY**, a 24-page booklet, describes equipment, supplies, and accessories for paper and column chromatography. (Research Specialties Co., Dept. S132)

■ **WALL PERISCOPE** permits remote viewing of objects in contaminated rooms through walls from 4 to 10 ft. thick. The instrument has a 180-deg scanning angle and is mechanically operated. A camera adapter is an integral part of the periscope, and an optical relay that permits remote viewing into a microscope is available as a separate unit. (Kollmorgen Optical Co., Dept. S134)

■ **ELECTROLYTIC HYGROMETER** is capable of detecting water concentrations as low as 1 ppm in gas and air streams. It can be used for either continuous or batch sampling in gaseous streams at temperatures up to 100°C. The instrument is equipped with an alarm system, and its output can be used to operate a potentiometric recorder or recorder-controller. (Beckman Instruments, Inc., Dept. S135)

■ **NUCLEAR RESEARCH REACTORS** is the title of a bulletin that describes the uses, design characteristics, safety features, and experimental facilities of three reactors that are now being offered. Swimming pool, heavy water, and nuclear test reactors are covered. (General Electric Co., Dept. S145)

mathematicians**

*How do Your  
Special Skills  
Fit Into the*

**AIRCRAFT  
NUCLEAR  
PROPULSION  
PICTURE**

**AT  
GENERAL ELECTRIC?**

Many physicists and mathematicians who recognize the exceptional promise of a career in General Electric's fast growing Aircraft Nuclear Propulsion Department have asked if their skills can be used in this significant project.

*If you are qualified to work on*

**THERMODYNAMIC AND  
AIR CYCLE ANALYSIS  
REACTOR ANALYSIS  
SHIELD PHYSICS  
NUCLEAR INSTRUMENTATION  
APPLIED MATHEMATICS  
DIGITAL AND ANALOG COMPUTER  
THEORETICAL PHYSICS**

*you can move now into major assignments  
in the development of nuclear propulsion  
systems for aircraft.*

You do not need previous nuclear experience. Through General Electric's full-tuition refund plan for advanced university courses and in-plant training conducted by experts, you'll acquire the necessary nuclear knowledge.

The field itself assures you a rewarding future, but, more than that, the physicist or mathematician who likes to work in a top-level scientific atmosphere will appreciate General Electric's encouragement of creative thinking, its recognition of accomplishment.

26 times in 1 year	20.00 per inch
52 times in 1 year	19.00 per inch

For **PROOFS** on display ads, copy must reach **SCIENCE** 4 weeks before date of issue (Friday of every week).

## POSITIONS WANTED

**Biochemist—Food Scientist**, Ph.D. Established academic and research reputation; fluent writer and speaker. Seeks challenging leadership opportunity, academic, institutional, or industrial. Box 11, **SCIENCE**. 1/18, 25

**Biochemist—Microbiologist**; Ph.D., March 1957; married; age 29; M.A. bacteriology. Experience: quantitative ion exchange chromatography of amino acids; paper chromatography; intermediary metabolism of microorganisms. Desires responsible position in industry or teaching position with an opportunity for research. Box 21, **SCIENCE**. X

**Biochemist**, M.S.; 1½ years of routine blood analysis in 600-bed hospital; B.S. in biological sciences. Seeks applied or pure research position in pharmaceutical or clinical chemistry or related fields. Animal experience. Box 22, **SCIENCE**. X

**Biologist**, emeritus professor; head, physiology, medical. Desires college teaching, biology, physiology. Box 30, **SCIENCE**. X

**Botanist**, Ph.D.; associate professor; 38; experience in teaching general botany courses and conducting research in ecology. Desires challenging position in college or university. Box 32, **SCIENCE**. X

**Certified Clinical Chemist**; Ph.D.; 8 years, chief, university chemistry department; 5 years, chief, chemistry, 600-bed hospital. Medical Bureau, Burneice Larson, Director, 900 North Michigan Avenue, Chicago. X

**Comparative Anatomy**, M.S. Will complete residence for Ph.D. in August; experimental embryology; 3 years of college teaching. Box 24, **SCIENCE**. 1/25; 2/1, 8

**Creative Physical—Organic Chemist** seeks to escape stifling industrial environment. Outstanding commercial successes, therefore "too valuable to promote." Pathetically few patents and publications. Personable, empathetic, well-paid Ph.D. polymer specialist, under 40, wants recognition as stimulating teacher or research administrator. Box 35, **SCIENCE**. X

**Former European Professor** of English, Russian, German, French seeks parttime translation work or librarianship in teaching or research institution. Box 20, **SCIENCE**. X

**Medical Director**; 5 years' experience pharmaceuticals, antibiotics at large eastern company; certified internist, knowledge of basic sciences; completing postgraduate course. Box 25, **SCIENCE**. 1/25; 2/1, 8, 15, 22

**Pharmacologist**, Ph.D. (in pharmacology), M.D.; 3 years of teaching (pharmacology) and research in a leading university, and 4 years of pharmacological research in industry. Publications; societies member. Desires teaching, industrial, or pure research position. Box 33, **SCIENCE**. 2/1

**Plant Physiologist—Biochemist**, Ph.D., 38. Presently associate professor, eastern university. Desires to relocate in July 1957, on termination of 5-year trace element research program. Experience in protein metabolism, tobacco, organic acids, nutrition. Broad agricultural experience. Box 29, **SCIENCE**. X

## POSITIONS OPEN

**Botanist**, Ph.D., for assistant professorship new college of midwestern university. Experience or training bacteriology, physiology desirable. Send vita. Box 36, **SCIENCE**. X

**Chemist**, M.A.; male with 2 to 3 years research experience in microchemistry and radiochemistry required. Join research staff in biochemistry, Pacific Northwest medical school. Excellent future. Box 37, **SCIENCE**. 2/1, 8

## COPY EDITOR

Responsible position; scientific publisher, New York City. Physics background, publishing experience.

Box 34, **SCIENCE**

**Copywriter and Literature Abstractor**. Pharmaceutical manufacturer; metropolitan area. Box 16, **SCIENCE**. 1/25

**Editors (Assistant)**. B.A. or B.S. in botany, biology, bacteriology, zoology, or other biological field required. Facility with English and foreign languages helpful; 35-hour week, 13 working days leave, sick leave, \$3600 per year with annual increases. Publishing house on University of Pennsylvania campus. Send résumé and references to Biological Abstracts, 3815 Walnut St., Philadelphia 4, Pa. 1/25; 2/1

**Histologist** to assist pathologist in histopathological studies in research department, ethical pharmaceutical manufacturer. Location Kankakee, Illinois, 55 miles south of Chicago. New laboratory facilities, modern equipment, fine working conditions, generous employee benefits. Real growth opportunities for well-qualified person. Salary from \$360, depending on individual's qualifications. Write Mr. J. C. Libby, The Armour Laboratories, P.O. Box 511, Kankakee, Illinois. X

**Microbiologist**; female; B.S. degree. Training in microbiology and chemistry required. For research position in eastern pharmaceutical house. Box 38, **SCIENCE**. 2/1

**Plant Physiologist**, Ph.D. Experience in ecology desirable. Research and college teaching at graduate and undergraduate levels. Box 7, **SCIENCE**. 1/18, 25; 2/1

**POSITIONS REQUIRING DEGREES IN MEDICINE OR SCIENCE:** (a) Associate Director of Research; young M.D. with pharmacology, physiology, or dermatology background; excellent potential to supervise several Ph.D.'s; research, new product development, outstanding cosmetic concern; to \$20,000. (b) Biochemist; M.S., recent Ph.D.; full-time research appointment, microbial metabolism and biochemical genetics; 500-bed hospital; \$6200; lovely southern city. (c) Clinical Chemist; Ph.D. for supervisory appointment, laboratory very large general hospital; to \$10,000; eastern university city. Woodward Medical Personnel Bureau, 185 North Wabash, Chicago. X

**Teaching and Research Assistantships** available, providing partial or complete support during graduate program. Gross anatomy course to be offered this summer is open to graduate students and undergraduate students past junior year, and will provide basic training for teaching to those otherwise unprepared. Inquire Dr. Paul G. Roope, Chairman, Department of Anatomy, University of Kansas, Lawrence. 1/18, 25

(a) **Well-Qualified Young Physician** to direct editorial department, pharmaceutical company; unusual opportunity; East. (b) **Biochemist**, Ph.D., experienced hospital laboratory work; voluntary general hospital, 600 beds; well-staffed, well-equipped department; \$9000–\$10,000; East. (c) **Scientist**, qualified to head groups and develop technical staffs; new research center comprised of divisions in biochemical, microbiological, organic chemistry and, also, division to handle analytical work for these divisions; large industrial company; Pacific Coast. (d) **Assistant Supervising Biochemist**, Ph.D., able administrator, capable of conducting productive investigative program; important insurance company; East, S1-4 Medical Bureau, Burneice Larson, Director, 900 North Michigan, Chicago. X

## POSITIONS OPEN

**Teaching and Research Positions**, Ph.D., at large midwestern Catholic university in vertebrate zoology, invertebrate zoology, embryology, and physiology. Academic rank and salary commensurate with qualifications. New chairman to be selected. All applications held in strict confidence. Box 6, **SCIENCE**. 1/18, 25; 2/1, 8

**Writer**, experienced researcher, medical, psychiatric, legal, general. Can rewrite, ghost. G. Marin, 402 85th St., Brooklyn, N.Y. X

## THE UNIVERSITY OF LIVERPOOL

Applications are invited for Imperial Chemical Industries Research fellowships in physics, chemistry, engineering, metallurgy, and pharmacology, or any related subject, to which some appointments may be made during the current academic year. The appointments will date from 1 October 1957. The salary will depend upon qualifications and experience, but will normally be within the range £600–£900 per annum, together with F.S.S.U. benefits and family allowances.

Applications, three copies, stating age, details of qualifications and experience, publications, research work in progress and completed and an outline of the proposed field of research, together with the names of two referees, should be received not later than 1 March 1957, by Stanley Dumbell, Registrar, from whom further particulars may be obtained. (Candidates overseas who find it more convenient to do so may send one copy only by air mail). X

## GRANTS

The Institute for the Study of Analgesic and Sedative Drugs announces the availability of grants in support of research on non-narcotic analgesic and sedative drugs. Preference will be given to projects concerned with mechanism of action and quantitation of analgesia and other pertinent activity. Application for 1957–1958 grants should be filed before 1 March 1957. Forms and further information may be obtained by writing to Dr. Raymond L. Conklin, Executive Vice-President, The Institute for the Study of Analgesic and Sedative Drugs, Myrtle and McNaughton Streets, Elkhart, Indiana. X

## RECTANGULAR JARS for CHROMATOGRAPHY

MORE TROUGHS IN LESS  
SPACE THAN IN ROUND JARS

- Size 12" by 12" by 24"
- Pyrex brand glass
- 4 Troughs 10 1/4" long
- Simplified, adjustable trough suspension
- Glass or all-stainless-steel trough assemblies
- Other sizes available

OTHER CHROMATOGRAPHY APPARATUS  
MANUFACTURED BY RSCo

- Round jar units... 10" and 12" diameter
- No-rack units... jars 6" diameter, tubes 4" diameter, etc.,
- Chromatography cabinets • Sprayer • Electrodesalter

## PHOTOVOLT Line-Operated Multiplier FLUORESCENCE METER Mod. 540

- High-sensitivity for measurement of low concentrations (full-scale setting for 0.001 microgram quinine sulphate)
- Micro-fluorimetry with liquid volumes as low as 1 ml
- Low blank readings, strict linearity of instrument response
- Universally applicable due to great variety of available filters, sample holders, adapters and other accessories
- Interference filters for high specificity of results and for determining spectral distribution of the fluorescent light
- High-sensitivity nephelometry for low degrees of turbidities
- Fluorescence evaluation of powders, pastes, slurries, and solids, also for spot-tests on filter paper without elution

WEIGHT: 2 lbs.

## Beckman POCKET pH METER

**F**or quick, accurate measurement of acidity or alkalinity, use this new *pocket-sized* pH meter. It features a single combination electrode that can be left attached to the instrument when in use. You can take a pH reading with one hand . . . record the data with the other!

Complete operating instructions are printed on the back of the meter. It's easy to use. There are no bottles or beakers to spill. The non-spill plastic tube with

sponge holds enough buffer for a day or more. Power is supplied by six easily replaced batteries of the type used in flashlights and hearing aids.

The handsome 2-tone gray case is molded of tough, acid-resistant melamine plastic. The dial face is made of scratch-resistant polystyrene. Circuit incorporates many design features found in more expensive laboratory instruments.

*For complete information, write for bulletin S-700.*

H-3600X Beckman Pocket pH Meter, Model 18000, with electrode, plastic buffer container, bottle of buffer solution, bottle of KCl crystals for refilling electrode, box of paper tissues for drying electrode.
