

# SCIENCE

19 April 1957

Volume 125, Number 3251

<b>Editorial</b>	Radiation and Health .....	719
<b>Articles</b>	Chemistry of the Brain: <i>I. H. Page</i> .....	721
	W. Kaempffert, Science Popularizer: <i>W. L. Laurence</i> .....	727
	George Gomori, Leading Histochemist: <i>R. D. Lillie</i> .....	728
<b>News of Science</b>	News Articles and Briefs; Scientists in the News .....	729
<b>Reports</b>	Carbutamide and Plasma Insulin Activity: <i>C. v. Holt et al.</i> .....	735
	Transport of Glucose by the Renal Tubule Cells of Anesthetized Dogs: <i>F. P. Chinard et al.</i> .....	736
	Protection of Sulfhydryl Groups against Ionizing Radiation: <i>F. E. Littman, E. M. Carr, J. K. Clauss</i> .....	737
	Effect of Multiple Recrystallization on Derivatives of Mixtures of D- and L-Alanine: <i>D. S. Wiggans and W. W. Burr, Jr.</i> .....	738
	Changes of Thixotropic Behavior in Actomyosin Solutions Induced by Cardiac Glycosides: <i>P. G. Waser</i> .....	739
	Withdrawal Hyperexcitability Following Chronic Administration of Meprobamate to Mice: <i>E. A. Swinyard, L. Chin, E. Fingl</i> .....	739
	Enlargement of Avian Eye by Subjecting Chicks to Continuous Incandescent Illumination: <i>L. S. Jensen and W. E. Matson</i> .....	741
	Effects of Embryonic Age on Potency in Tissue Culture of Embryonic Nucleoprotein Fractions: <i>R. Kutsky and R. Underwood</i> .....	741
	Effect of Zymosan on Bacteriophage Clearance: <i>S. E. Sulkin, R. A. Finkelstein, E. D. Rosenblum</i> .....	742
	Pyridine-2-Aldoxime Methiodide and Poisoning by Anticholinesterases: <i>J. H. Wills et al.</i> .....	743
	Echo Virus Type 9 (New Member of Coxsackie Group Type A?) as a Cause of Epidemic Meningitis: <i>L. Quersin-Thiry, E. Nihoul, F. Dekking</i> .....	744
	Induced Copulation of Aedine Mosquitoes: <i>I. N. McDaniel and W. R. Horsfall</i> .....	745
	National Academy of Sciences: Abstracts of Papers To Be Presented at the Annual Meeting .....	746
<b>Book Reviews</b>	New Books .....	752
<b>Meetings and Societies</b>	Laboratory Animals; Biophysical Conference and Society; Meeting Notes; Society Elections; Forthcoming Events .....	753
	Equipment News .....	758

"This author has, it seems, grasped the essence of sound science and sound pedagogy in the presentation of most of his subjects. Rather than attempt to deal with whole organisms, which at present is far too much for us to manage in our state of ignorance, he deals with whole concepts. And since it is concepts that create order among facts, this probably accounts for the clarity and efficiency of presentation throughout the book.

The student who masters its content and catches its spirit will be well on his way to a superior grasp of biology."

—from review of *Second Edition* in  
*The Quarterly Review of Biology*, June, 1955

# positive protection

# safety cabinet

for medical  
and micro-biological  
research

**NOW** your research technicians can work in safety never before achieved. The Blickman Micro-Biological Safety Cabinet gives positive protection from infectious micro-organisms, live virus, contaminated or infectious animals or radio-active materials used for medical or biological research. Constructed of heavy-duty stainless steel, the safety cabinet is available in 36" or 48" lengths.

Overall height of the unit is 28" and width measures 26".

A feature of the Blickman cabinet is the seamless crevice-free, round corner construction that simplifies cleaning and decontamination. Send for Technical Bulletin A-6 or describe your specific problems. Write to S. Blickman, 6904 Gregory Avenue, Weehawken, New Jersey.
