

director of clinical research at the Mayo Clinic, from the University of Miami.

MARSH W. WHITE, professor of physics at Pennsylvania State University, from Park College, Parkville, Mo.

SIGURD HANSEN, state geologist of Denmark and a specialist in Pleistocene history, and RICHARD J. LOUGEE, professor of geomorphology at Clark University, will do field work in the United States and Canada during July and August on problems of trans-Atlantic Ice Age correlation. The program is sponsored jointly by the Danish Geological Survey and Clark University.

WILLIAM A. FEDER, plant pathologist, Agricultural Research Service, U.S. Department of Agriculture, Orlando, Fla., will be on leave at the Polytechnic Institute, London, England, beginning 10 September. He has received a senior postdoctoral fellowship to conduct research with C. L. Duddington in a study of certain nematode-inhabiting fungi.

JOHN E. CHRISTIAN, professor of pharmaceutical chemistry at the School of Pharmacy of Purdue University, has received the Rho Chi Citation Award in recognition of his many contributions in the field of pharmaceutical research.

WILLIAM A. POEL, research associate and head of the experimental carcinogenesis laboratory of the department of occupational health, Graduate School of Public Health, University of Pittsburgh, has been granted a year's leave of absence for advanced studies in animal pathology at the Roscoe B. Jackson Memorial Laboratory. The study is supported by a special fellowship of the National Cancer Institute, the first such to be awarded.

MORRIS ZIFF, formerly associate professor of medicine at New York University's College of Medicine, is head of the new arthritis unit at the University of Texas Southwestern Medical School in Dallas. Ziff is well known for work on the rheumatoid factor, a substance found in the blood of people suffering from rheumatoid arthritis.

MORRIS S. VITELES, professor of psychology at the University of Pennsylvania, was elected president of the International Association of Applied Psychology at a recent meeting of the association in Rome. Viteles is the first American to be elected to this office during the approximately 40 years of the association's history.

JOSEPH V. SWINTOSKY, a group leader in the pharmaceutical research section of Smith, Kline and French

Laboratories, was awarded the Ebert Prize at the recent meeting of the American Pharmaceutical Association in Los Angeles, Calif. He was honored as author of the scientific paper that represented the best original research reported in any of the journals of the American Pharmaceutical Association during the preceding year. Swintosky's prize-winning research concerned sulfaethylthiadiazole.

WILLARD GAEDDERT, assistant professor of science at Mankato State College, Mankato, Minn., has been named professor of physics and chairman of the department at Park College, Parkville, Mo. He succeeds LAURENCE R. McANENY, who resigned to accept a position with Southern Illinois University in Alton, Ill.

DANIEL S. MARTIN, formerly with the department of surgery at the College of Physicians and Surgeons, Columbia University, has been appointed associate professor of surgery and director of the Surgical Research Laboratories at the School of Medicine, University of Miami.

W. A. PULVER has been named chief engineer of the Georgia Division of the Lockheed Aircraft Corporation. He succeeds R. W. MIDDLEWOOD, who has been named director of the newly formed Georgia Nuclear Laboratories. Pulver, who has been assistant chief engineer of the Georgia Division, joined Lockheed in 1936 at the Burbank facilities.

RICHARD S. MORSE, president of the National Research Corporation of Cambridge, Mass., is the new chairman of the Army Scientific Advisory Panel. He succeeds FREDERICK L. HOVDE, president of Purdue University. The panel is composed of 57 scientists, engineers, educators, and industrialists.

### Recent Deaths

JACOB AUSLANDER, New York, N.Y.; 61; practicing physician and chief of the arthritis clinic at Sydenham Hospital; known for his work for broad social security and medical insurance coverage.

SAMUEL G. BARTON, Philadelphia, Pa.; 76; former associate professor of astronomy at the University of Pennsylvania and retired director of its Flower Observatory; specialist in the observation of double stars; 2 June.

TOWNSEND CROMWELL, Guadalajara, Mexico; physical oceanographer and senior scientist with the Inter-American Tropical Tuna Commission, San Diego, Calif.; research as-

sociate at the University of California's Scripps Institution of Oceanography; 2 June.

LEONARD R. INGERSOLL, Madison, Wis.; 77; emeritus professor of physics at the University of Wisconsin; specialist in optics and light; inventor of a Glarimeter for measuring the gloss of paper; 25 Apr.

ARTHUR KIRSCHBAUM, Houston, Tex.; 47; chairman of the department of anatomy at the Baylor University College of Medicine and cancer researcher; formerly taught at the University of Illinois, the University of Minnesota, and Yale University; 28 May.

BENZION LIBER, New York, N. Y.; 83; psychiatrist with the New York City Department of Welfare, emeritus professor of psychiatry at New York Polyclinic Medical School, and a director of the mental Hygiene Clinic of New York Polyclinic Hospital; author of several books, including *Your Mental Health*; 6 June.

JOHN M. NICKELSEN, Monroe, Mich.; 66; emeritus professor of mechanical engineering at the University of Michigan; chief consulting engineer for the Monroe Auto Equipment Co.; 3 June.

BERNARD S. OPPENHEIMER, New York, N.Y.; 81; cardiologist and emeritus clinical professor of medicine at the College of Physicians and Surgeons of Columbia University; 10 June.

ROBERT F. POOLE, Anderson, S.C.; 64; president of Clemson College for 18 years; former professor of plant pathology at North Carolina State College; 6 June.

HENRY W. SCHLENKER, Elizabeth, N.J.; 44; head of the analytical section of Reichhold Chemical, Inc.; 5 June.

BELL M. SHIMADA, Guadalajara, Mexico; fisheries biologist and senior scientist with the Inter-American Tropical Tuna Commission, San Diego, Calif.; research associate at the University of California's Scripps Institution of Oceanography; 2 June.

DAVID A. TUCKER, Cincinnati, Ohio; 67; medical historian and assistant to the dean of the College of Medicine of the University of Cincinnati; president of the Ohio Academy of Medical History, 1954-55; president of the Cincinnati Academy of Medicine, 1945-46; chairman of the admissions committee of the Cincinnati Medical School for more than 20 years; 3 June.
