
SCIENCE

Index to Volume 128
July–December 1958

DAEL WOLFLE, *Executive Officer*
GRAHAM DUSHANE, *Editor*
JOSEPH TURNER, *Assistant Editor*
ROBERT V. ORMES, *Assistant Editor*

Editorial Board

DONALD J. HUGHES H. BURR STEINBACH
KONRAD B. KRAUSKOPF WILLIAM L. STRAUS, JR.
EDWIN M. LERNER EDWARD L. TATUM

Editorial Staff

SARAH S. DEES, LUCILLE GUINARD, NANCY S.
HAMILTON, WILLIAM HASKELL, OLIVER W. HEAT-
WOLE, YUKIE KOZAI, JUDITH B. LEVIN, ELLEN E.
MURPHY, BETHSABE PEDERSEN, MADELINE SCHNEI-
DER, NANCY L. TEIMOURIAN, MARIA A. WOLSAK

EARL J. SCHERAGO, *Advertising Representative*

Published by the
American Association for the Advancement of Science
1515 Massachusetts Avenue, NW, Washington 5, D.C.

Printed in Lancaster, Pa., by Business Press

No.	Date of Issue	Pages	No.	Date of Issue	Pages	No.	Date of Issue	Pages
3314	4 July	1-48	3323	5 September	493-556	3332	7 November	1101-1168
3315	11 July	49-104	3324	12 September	557-620	3333	14 November	1169-1132
3316	18 July	105-168	3325	19 September	621-684	3334	21 November	1233-1304
3317	25 July	169-220	3326	26 September	685-740	3335	28 November	1305-1360
3318	1 August	221-268	3327	3 October	741-796	3336	5 December	1361-1472
3319	8 August	269-324	3328	10 October	797-860	3337	12 December	1473-1528
3320	15 August	325-380	3329	17 October	861-924	3338	19 December	1529-1592
3321	22 August	381-436	3330	24 October	925-1052	3339	26 December	1593-1636
3322	29 August	437-492	3331	31 October	1053-1100			

Names of authors of books reviewed are printed in SMALL CAPITALS.

A

- AAAS, advertising in *Science*, 335; board members, 1617; editorial board of *Science*, 240; financial report for 1957, 539; history of Washington meetings, 664; hotel headquarters and housing for Washington meeting, 150; nominations of officers, 722; prizes and awards, 242, 462; radio broadcast series, "World of the mind," 292; relocation of 1959 and 1961 meetings, 241; science teaching improvement program, work done in first 3 years, 1262; Southwestern and Rocky Mountain Division, *meeting report*, 36; Theobald Smith award, 242; traveling high-school science library, 760; Washington 1958 meeting, 150, 1150, 1215, 1285, 1349, 1391, 1405, 1438
- ABBOTT, D. P. *See* BATES, M.
- Abe, K. *See* H. Kikkawa, 1431
- Absorption spectra, of Hill reaction oxidants, 209
- Accelerator, focusing of proton beam, 1398; magnets for, 1396; synchrotron at Brookhaven National Laboratory, 1393
- Accumulator plant, absorption of minerals from soil and formation of laterites by, 416
- Acetobacter suboxydans*, oxidation of D-mannitol-2-C¹⁴, 597
- Acetylcholine, hydrolysis in psychiatric patients, 254; lipid-soluble analogs of, in conducting membranes, 1275
- Acetylcholinesterase, in mental disorders, 254
- Acrivos, A. *See* C. R. Wilke, 1149
- Actinie à l'homme, De l', vol. 1 (H. PIERON), *book review of*, 1079
- Actions chimiques et biologiques des radiations (R. LATARJET), *book review of*, 835
- Activation energy, of ventricular contraction, effect of nitrate and chloride ions on, 1436
- Acyl adenylate, and enzymic synthesis of adenylyl-oxyluciferin, 253
- Adams, E. *See* P. Gerber, 1571
- Adams, R. M. *See* T. Jacobsen, 1251
- ADAMS, S., and F. B. ROGERS (Eds.), *Guide to Russian medical literature*, 1567
- Adamson, D., and H. Adamson: Auxin action on coleoptiles in the presence of nitrogen and at low temperature, 532
- Adamson, H. *See* D. Adamson, 532
- Adenine, effects on temperature requirements in plants, 1115
- Adenosine diphosphate, reactions in oxidative phosphorylation, 452
- Adenosine triphosphate, activation of firefly oxyluciferin by, 253; in muscle contractions, 700; in oxidative phosphorylation, 450; role of magnesium in enzymic reactions of, 310; in sulfate activation, 575
- Adenylyl-oxyluciferin, enzymic synthesis of, 253
- Adey, W. R.: *book review of* The mammalian cerebral cortex, 1201
- Adlersberg, D. *See* R. H. Osborne, 727
- Admission requirements of American medical colleges, including Canada, 1958-59 (H. H. GEE and E. S. NOURSE), *book review of*, 711
- ADP. *See* Adenosine diphosphate
- Adrenal cortex, role of vagus in control of aldosterone secretion, 1140
- 1-Adrenochrome, in vitro decomposition of, 28
- Advances in cancer research, vol. 5 (J. P. GREENSTEIN and A. HADDOW, Eds.), *book review of*, 528
- Advances in enzymology (F. F. NORD, Ed.), *book review of*, 1202
- Advances in veterinary science (C. A. BRANDLY and E. L. JUNGHERR), *book review of*, 1501
- Adventures in medical education (G. C. ROBINSON), *book review of*, 469
- Aerodynamics, effect of transverse atmospheric drag on satellite orbits, 309
- Africa, proposed institute for study of man in, 944
- Agar substrates, for cells and tissues, 658
- Age, and achievement in chemistry, 676
- Agglutination, sexual, in yeasts, 1504
- Aggression (J. P. SCOTT), *book review of*, 708
- Aging, of proteins, 140
- Agricola on metals (B. DIBNER), *book review of*, 297
- Agriculture, productivity of, and world population, 1562; and soil salinity in ancient Mesopotamia, 1251; tolerance of cereals to rusts, 715; uptake of strontium by alfalfa, 91; *meeting report of* Commission for Agricultural Meteorology, World Meteorological Organization, 1221; *book reviews*: American agriculture: geography, resources, and conservation, 651; The grassland and fodder resources of India, 1426; Soil-plant relationships, 138
- Air pollution, causes, control, occurrence, and lung cancer, 1513; physiological and toxic effects of, 869; photochemistry of, 873; *book review*: Particulate clouds: dusts, smokes and mists, 1271
- Ajello, L.: *book review of* An introduction to medical mycology, 1428
- Akeley, E. S.: *book review of* Handbuch der Physik, vol. 16, Electric fields and waves, 25
- Albatross, salt excretion by nasal gland, 1572
- Albers, R. W., and R. A. Salvador: Succinic semialdehyde oxidation by a soluble dehydrogenase from brain, 359
- Albumin, concentration in renal papilla, 720
- Aldehyde transaminase, semi-, in pyrrolidine metabolism, 361
- Aldolase, serum levels in delirium tremens and allied conditions, 304
- Aldosterone, role of vagus in control of secretion of, 1140
- Alfalfa, uptake of strontium by, 91
- Algae, digestion by oyster style, 837; fluorescence band at low temperatures, 838
- Algeria (G. TILLION), *book review of*, 835
- Alkyl, metal, formation by ionizing radiation, 1510
- Allaway, W. H.: *book review of* Soil-plant relationships, 138
- ALLEN, A., The story of archaeology, *book review of*, 1203
- Allfrey, V. G., and A. E. Mirsky: Some effects of substituting the deoxyribonucleic acid of isolated nuclei with other polyelectrolytes, 1142
- Allgén, L.-G., et al.: Serum diphosphopyridine nucleotide linked enzymes in delirium tremens and allied conditions, 304
- Allison, M. J., et al.: Volatile fatty acid growth factor for cellulolytic cocci of bovine rumen, 474
- Alloy, *book review*: A handbook of lattice spacings and structures of metals and alloys, 1000
- Alpher, R. A., and R. Herman: On nucleon-antinucleon symmetry in cosmology, 904
- ALTSCHUL, A. M. (Ed.), Processed plant protein foodstuffs, *book review of*, 1566
- Aluminum, absorption from soil by accumulator plants, 416; hydride, emission in spectra of variable stars, 1145
- Ambystomidae, chromosome number for, 304
- American agriculture: geography, resources, and conservation (E. HIGBEE), *book review of*, 651
- American Association of University Professors, support for Academic Freedom Fund of, 704
- American Type Culture Collection, revised catalog, 464
- Amerika (journal), comparison with journal USSR, 173
- Amino acid, and inadequacy of casein hydrolyzate for growth of *Streptococcus faecalis*, 307; polymerization to product resembling protein, 1214
- α -Amino acid isopropylhydrazide, in inhibition of monoamine oxidase, 900
- γ -Aminobutyric transaminase, in pyrrolidine metabolism, 361
- β -Aminopropionitrile, role of cyanoacetic acid in production of lathyrism by, in rat, 206
- Ammann, A. *See* D. Gottlieb, 361
- Ammonium ion, action of lipid-soluble quaternary, on conducting membrane, 1275; salt, effect of quaternary, on plasma cholinesterase, 92
- Amphibians, visual systems of, 1482; *book review*: A field guide to reptiles and amphibians of eastern North America, 1620
- Amygdala, lesions of, and emotional behavior of rat, 655
- Analgesic, effect on suprathreshold pain in man, 303; synergism of papaverine and morphine, 84
- Anaphylaxis, in guinea pig, 1090

- Anaplasmosis, etiology of, 147
- Anastasi, A.: *book review* of The testing of Negro intelligence, 297
- Anatomist at large (G. W. CORNER), *book review* of, 710
- Anatomy, *book reviews*: Cunningham's manual of practical anatomy, vol. 1, 468; The tissues of the body, 1273
- Anatomy, plant, quantitative relations between leaf length and differentiation of sieve tubes in *Coleus*, 1084
- Ancient man in North America (H. M. WORMINGTON), *book review* of, 81
- Anderson, E.: *book review* of Exotica, 296
- Anderson, E. C.: Monitoring of foods (*letter*), 316; Radioactivity of people and milk: 1957, 882
- Anderson, M. G.: AAAS Southwestern and Rocky Mountain Division (*meeting report*), 36
- Anderson, T. O. *See* G. G. Jackson, 27
- Animal, damage by smog to, 872
- Animal feeding, effect of methimazole on thyroid and live weights of cattle, 147; *book review*: The handbook of feed-stuffs, 83
- Annual review of entomology (E. A. STEINHAUS and R. F. SMITH, Eds.), *book review* of, 136
- Ant, daily rhythms in, 536; properties of fire-ant venom, 306
- Antarctica, collection of IGY data on, 242; research in, and ICSU, 1559; research plans for 1959-60, 762; U.S. IGY program for 1958-59, 992
- Anthony, A. *See* H. Frings, 1572
- Anthropology, logical status of theories of, 285; new *Oreopithecus skeleton*, 523; proposed institute for study of man in Africa, 994; *book reviews*: Ancient man in North America, 81; Coral island, portrait of an atoll, 1132; L'Enfant néanderthalien du pech de l'azé, 296; From ape to angel, 1077; Man in the primitive world, 409; Naven, 892; Obok, 352
- Anthropomorphism, in science teaching, 1402
- Antibiotic, properties of fire-ant venom, 307; protection of fungi against polyene, by sterols, 361; social significance of, 910; *book review*: Problema protivorakovih antibiotikov, 195
- Antibody, for common cold in human γ -globulin, 27; loss of precipitating activity of, without destruction of binding sites, 659
- Antibody-antigen interaction, effect of charge on, 659
- Antigen, separate sites in phage tail, 839; in tissue-culture cell lines, 198
- Antimatter, gravitational properties of, 1149
- Aposhian, H. V.: Protection by D-penicillamine against lethal effects of mercuric chloride, 93; *erratum*, 244
- Apparatus, chromatographic, for low-temperature analysis of terpene hydrocarbons, 899; controlled-climate, for biological studies, 510; counter for radio-carbon dating, 1117; for determination of O^{18} content of inorganic phosphate, 1434; intensifier orthicon (*news*), 133; microfluoroscope, 977; museum displays, in Europe, 512; olfactometer, for rat, 1007; ozonizer, use of borosilicate glass in, 1578; pH calculator, 1207; for production of stabilized pinch, 341; for quantitative analysis by x-ray, 1622; reading machine for the blind, 761; in satellites and rockets, 967; spectrograph, vacuum, for solar spectroscopy, 505; spectrophosphorimeter, 1341; for study of echolocation of objects by marine animals, 982; synchrotron, alternating gradient, at Brookhaven National Laboratory, 1393; teaching machines, 969; thermocouple for measuring vapor pressure at high humidity, 1089; for ultrahigh pressure and temperature, 445; underwater breathing, principles of, 1001; *book review*: Electronic instrumentation for the behavioral sciences, 999
- Applied differential equations (M. R. SPIEGEL), *book review* of, 297
- Applied optics and optical design (A. E. CONRADY), *book review* of, 136
- Archeology, discovery of site of Sardis, 646; excavations in Serra Orlando, Sicily, 889; irrigation and settlement in ancient Mesopotamia, 1251; radiocarbon dates pertaining to, 1119, 1550; upper Nile region, and proposed Aswan dam in Egypt, 1288; *book reviews*: Ancient man in North America, 81; COWA survey and bibliography, 197; Land of the Tollund man, 529; The march of archaeology, 1130; The story of archaeology, 1203; Sun circles and human hands, 23
- Arid lands, heat tolerance in plants, 1115; salt and silt in ancient Mesopotamian agriculture, 1251; *book review*: Wind and solar energy, 247
- Arntson, R. H., *et al.*: Saturation curves of orthorhombic sulfur in the system $S-Na_2-H_2O$ at 25° and 50° C, 716
- Aron, W.: *book review* of Handbuch der Physik, vol. 34, Corpuscles and radiation in matter, II, 710
- Ascorbic acid oxidase, increased activity caused by victorin, 477
- Ashley, D. J. B., and E. A. Theiss: Nuclear sex of patients with testicular tumors, 1434
- Asia, *book review*: The pattern of Asia, 411
- Asian perspectives (W. SOLHEIM, II, Ed.), *book review* of, 247
- Aspergillus niger*, root curvature induced by culture filtrates of, 661
- Aspirin, effect on suprathreshold pain in man, 303
- Associated Midwest Universities, establishment of, 291
- Astronomy, aluminum hydride emission in spectra of variable stars, 1145; atmospheres of planets, 809; distances of late-type stars, determination of, 1149; ephemeral natural satellites earth, 1211; Nova Aquilae 1918, physical model of, 1149; solar eclipse of 1958 (*news*), 993; stellar population of the nuclear region of the galaxy, 1147; sun, spectrographic study of, 505; visiting professors program, 292; *book reviews*: Atlas of the sky, 834; Comparison of the large-scale structures of the galactic system with that of other stellar systems, 1500; Exploring the distant stars, 1133; Matter, earth, and sky, 587; The planet Jupiter, 410; The planet Venus, 354; Of stars and men, 295; White dwarfs, 409
- Astrophysics, formation of elements in stars, 387; nucleon-antinucleon symmetry in cosmology, 904; *book reviews*: Handbuch der Physik, vol. 50, 528; White dwarfs, 409
- Atlas of the sky (V. DE CALLATAÏ), *book review* of, 834
- Atmosphere, carbon-14 activity in, 1953-57, 250; cloud physics, 1060; density of upper, 420; energetics of, and climate, 750; and ephemeral natural satellites of earth, 1211; establishment of national institute for research on, 1073; low-frequency propagation in ionosphere, 1144; National Science Foundation program for study of, 191; of other planets, 809; photochemical reactions in, and air pollution, 873; and proposals for large-scale modification of weather, 1060; proposed balloon-borne laboratory, 1074; radioactivity in, in 1957, 1139; rotation of, effect on satellite orbits, 309; upper, density inferred from satellites, 420; *book review*: Exploring the atmosphere's first mile, vols. 1-2, 24
- Atmospheric explorations (H. G. HOUGHTON, Ed.), *book review* of, 711
- Atom, atomic beam research on radioactive, 1147
- Atomic bomb. *See* Nuclear explosion
- Atomic energy. *See* Nuclear energy
- Atomic Energy Commission. *See* U.S. Atomic Energy Commission
- Atomic scientists, *book review* of Brighter than a thousand suns, 1619
- Atomic structure, *book review*: Structure reports, 1951, vol. 15, 196
- Atoms for Peace award, 1495
- ATP. *See* Adenosine triphosphate
- Atwood, W. W.: International Council of Scientific Unions, 1558
- Aurora, summary report of IGY studies of, 1601
- Australia, establishment of National Institute for Advanced Medical Science, 76
- Automobile, and air pollution, 875
- Auxin, action on coleoptiles, 532; response of diploid and polyploid nuclei to treatment with, 1148
- Axelrod, D. I.: Early Cambrian marine fauna, 7
- Axelrod, J. *See* E. H. LaBrosse, 593

B

- Baart, N. *See* E. G. Erdős, 92
- BACON, E. E., Obok, *book review* of, 352
- Bacteria, acute infection of mice with *Staphylococcus aureus*, 1574; fatty acid growth factor for ruminal cellulolytic, 474; germ-free laboratory at University of Michigan, 1563; Gram reaction, semiquantitative evaluation of, 1213; growth-promoting α -hydroxy fatty acids, produced by *Lactobacillus casei*, 534; pathways of electron transport in extracts of, 896; physical aspects, 356; restoration of tryptophan synthetase activity by suppressor mutations in, 843; structure, 356
- Bacteriology of tuberculosis, The (E. DARZINS), *book review* of, 137
- Bacteriophage, immunogenetic dissection of tail of T5, 839; passage through intact mouse skin, 718. *See also* Virus

- Human being, approximation to gravity-free state for, 772; atomic radiation and sex ratio in, 343; biochemistry of phenylketonuria in, 1506; blood flow velocity in pulmonary artery of, 592; calculation of potential strontium-90 hazards to, 640; cholinesterase activity in, 1176; climatic influences on, 757; conditioning and the unconditioned stimulus, 774; dental caries in twins, 300; deoxyribonucleic acid synthesis in peripheral blood cells of, 202; drug synergism in pain relief in, 84; effect of aspirin on suprathreshold pain in, 303; effect of muscle temperature on neuromuscular blockade in, 34; effects of atomic radiation on, 402; effects of tetraethylammonium chloride on hypothalamic heart, 1434; epinephrine metabolism in, 593; estimation of total body fat from roentgenograms, 901; extracranial responses to acoustic clicks, 1210; eye irritation from smog, 872; founding of Society for the Study of Human Biology, 368; genetic control of serum β -globulins, 35; haptoglobins in, 596; hazard from tritiated thymidine, 1308; hazard of carbon-14 to, 1183, 1490; hazard of fallout to, 1532, 1534; hemagglutinins in uterine secretions, 719; immunological investigation of pituitary growth hormone, 1276; individual differences in susceptibility to hypnosis, 1145; individual rights and society, 484; infection with hemadsorption virus, 779; interpretation of properdin levels determined by phage neutralization, 778; leukemia incidence in irradiated, 693; lithocholic acid in feces of, 1433; luminosity curves of normal and color-blind observers, 775; measurement of observing responses in monitoring, 255; mucopolysaccharides in costal cartilage of, 896; neutralization of common cold agents by γ -globulin, 27; nondestructive method for quantitative analysis of certain elements in, 1346; nuclear sex of patients with testicular tumors, 1434; property of cerebrospinal fluid associated with disturbed metabolism of brain, 1208; radioactivity in, in 1957, 882; and radioactivity of luminous-dial wrist watches, 788; relationship of serotonin to schizophrenia in, 358; resistive impedance pulsations over heart, lung, and abdomen, 365; roentgenographic measurement of skeletal mineralization in malnourished Quechua Indian boys, 476; serum lipid levels in twins, 727; sibling patterns in schizophrenia, 30; strontium content of skeleton of, 256; study of the Hungarian Revolution of 1956 (*meeting report*), 846; trigemal-mide as sedative and soporific drug, 1570; tolerance of pain, 1431; unified theory of behavior, 38; variability of tooth formation in, 1510; *book reviews*: The brain and human behavior, 1427; Effect of radiation on human heredity, 999; Human infertility, 298; The limits of mankind, 834; Listening in the dark, 766; *meeting report*: Society for the Investigation of Human Ecology, 846
- Human infertility (C. L. BUXTON and A. L. SOUTHERN), *book review* of, 298
- Human rights, and society, 1476
- Humic acid, characteristic red pigment in, 782
- Humphrey, D. G.: New chromosome number for the order Caudata, 304
- Humphrey, G. F.: *book review* of The effects of atomic radiation on oceanography and fisheries, 709
- Hungary, revolution of 1956, 846
- Hunt, G. A., and A. J. Moses: Acute infection of mice with Smith strain of *Staphylococcus aureus*, 1574
- HUNTER, J. A. H., Figurets, *book review* of, 82
- Hutchinson, E.: *book review* of Proceedings of the second International Congress of Surface Activity, vols. 1-4, 588
- HUXLEY, J., New bottles for new wine, *book review* of, 295
- Hydra, cell formation in, 183
- Hydration, of proteins, 815
- Hydrocarbon, in atmospheric pollution, 869; low-temperature chromatography of terpene, 899; in cigarette smoke, 1344; radiolysis of saturated, 1510
- Hydrocortisone acetate, enzymic action of rabbit serum on, 662
- Hydrogen, conversion to helium in stars, 391
- Hydrolysis, acetylcholine in psychiatric patients, 254; thiazolidine, infrared study of, 1430
- 5-Hydroxyindoleacetic acid, urinary output of, in schizophrenia, 358
- D- α -Hydroxyisocaproic acid, growth factor produced by *Lactobacillus casei*, 534
- D- α -Hydroxyisovaleric acid, growth factor produced by *Lactobacillus casei*, 534
- 5-Hydroxytryptamine. *See* Serotonin
- Hypnosis, individual differences in susceptibility to, 1145
- Hypophyseal growth hormone. *See* Somatotropin
- Hypothermia, effects of magnesium and tetraethylammonium chlorides on, 1434; and neuromuscular blocking drugs, 34

Ice age, history of, 1290

ICSU. *See* International Council of Scientific Unions

IGY. *See* International Geophysical Year

Immunization, airborne, against tuberculosis, 1282

Immunology, and cancer, 1515; and human pituitary growth hormone, 1276; measurement of precipitin reactions,

1625; tolerance of female mouse to male isograft, 780; *book review*: Zhurnal mikrobiologii, epidemiologii i immunobiologii, 832

Indexing, *book review*: Information indexing and subject cataloging: alphabetic: classified: coordinate: mechanical, 1336

India, *book review*: The grassland and fodder resources of India, 1426

Indian, American, *book review*: Sun circles and human hands, 23

Industrial challenge of nuclear energy, The, *book review* of, 410

Industry, economic effects of technological research by, 1539; research and development programs of, 1320; research in laboratories of, 747; *book reviews*: The chemical industry during the nineteenth century, 651; The industrial challenge of nuclear energy, 410

Inflation, and Keynes' economic model, 1258

Influenza, cell cultures in detection and titration of virus of, 591; stable variant resistant to polysaccharide, 1571

Information, storage and retrieval of scientific, 1126

Information indexing and subject cataloging: alphabetic: classified: coordinate: mechanical (J. METCALFE), *book review* of, 1336

Information processing, establishment of Research Information Center and Advisory Service on, at National Bureau of Standards, 1496

Information theory, *book review*: Mathematical foundations of information theory, 894

Ingraham, L. L., and D. E. Green: Role of magnesium in enzyme-catalyzed syntheses involving adenosine triphosphate, 310

Inheritance, of acquired characters, views of Pavlov on, 758, 1476

Inorganic syntheses, vol. 5 (T. MOELLER, Ed.), *book review* of, 895

Insect, breaking of diapause in spruce budworm by exposure to continuous light, 1205; chemical development in, 602; daily rhythms in ants, 536; effect of vertebrate hormone on growth of, 844; polyhedral diseases of, 249; preparation of cell suspensions for in vitro culture, 360; properties of fire-ant venom, 306; quinones secreted by cockroach, 149; spray mechanism of cockroach, 149; tussock moth, induction of polyhedral bodies in ovarian tissue culture of, 249; *meeting report*: 1st international conference for insect pathology and biological control, 1154

Insecticide, properties of fire-ant venom, 307

Inspection for disarmament (S. MELMAN, Ed.), *book review* of, 245

Institute for Advancement of Medical Communication, organization of, 133

Instrumentation. *See* Apparatus

Integral equations (S. G. MIKHLIN), *book review* of, 25

Intelligence, *book reviews*: The measurement and appraisal of adult intelligence, 1133; The testing of Negro intelligence, 297

Interlingua, 1388, 1459

International Atomic Energy Agency, manual for isotope users, 20

International Cancer Congress (*meeting report*), 1512

International Congress of Genetics, Soviet contributions to, 584

International Congress of Sedimentology (*meeting report*), 784

International Council of Scientific Unions, organization of, 1558; recommendations of Committee on Contamination by Extraterrestrial Exploration (CETEX),

888; *meeting report* of 8th general assembly, 1558

International Geophysical Year, collection of data on antarctic, 242; East-West data exchange, 1249; extension of, 242, 1560; news censorship during Moscow meeting of CSAGI, 1197; optical tracking of artificial satellites, 124; subsurface Pacific ocean current, 242; summary report of solar-terrestrial studies during, 1599; U.S. antarctic program for 1958-59, 992; and solar eclipse of 1958, 993

International relations, statement of Pugwash conference on, 1071

Introduction to biostatistics (H. BANCROFT), *book review* of, 835

Introduction to Fourier analysis and generalized functions (M. J. LIGHTHILL), *book review* of, 1077

Introduction to medical mycology, An (G. M. LEWIS *et al.*), *book review* of, 1428

Introduction to meteorology (S. PETERSSEN), *book review* of, 1502

Introduction to Riemann surfaces (G. SPRINGER), *book review* of, 247

Invertebrata, The (L. S. BORRADAILE and F. A. POTTS), *book review* of, 81

Invertebrates, climate and distribution of, 1143

Iodine, nondestructive method for analysis in vivo, 1346; stable distribution in normal human thyroid, 1346

Iodine-131, fallout in bovine fetus, 597; level in milk, 763

Ion, action of lipid-soluble quaternary ammonium, on conducting membranes, 1275

Ion exchange, on single beads, 1435

Ion transport, across membranes, 144

Ionium, in deep-sea sediments, 1003; in ocean water, 204

Ionographie (P. DEMERS), *book review* of, 998

Ionosphere, low-frequency propagation in, 1144; summary report of IGY studies of, 1606. *See also* Atmosphere

Ipomoea batatas, two virus syndromes in, 203

Iraq, land reclamation in, 1251

Iron, absorption from soil by accumulator plants, 416

Irrigation, in ancient Mesopotamian agriculture, 1252

IRWIN, R., The origins of the English library, *book review* of, 1203

Isopropyl fluorophosphate, di-, effects on behavior of rats, 781

Isotope, dosimetry of internally administered radioactive, 988; hazard in fallout of cobalt, 417; nomogram for estimation of radiation dose, 989; *book reviews*: Einführung in die Messtechnik der Kernstrahlung und die Anwendung der Radioisotope, 1000; *book review*: Proceedings of the International Symposium on Isotope Separation, 769

Isotope effect, in biological oxidation, 597; and methyl radicals, 1145

Isotope enrichment, technique for radiocarbon dating, 472

Italy, support and organization of scientific research, 232

Venom, properties of fire-ant, 306

Venus, contamination hazard from space activities and nuclear explosions (*news*), 888; thermal and cloud data on atmosphere of, 809

Vertebrate, anatomical, biochemical, and ecological changes at metamorphosis, 1481; life cycle of, 1481; substances in adrenal cortex of, with activity similar to that of invertebrate juvenile hormone, 844; *book review*: Studies on fossil vertebrates, 767

Verzeano, M., *et al.*: Radio control of ventricular contraction in experimental heart block, 1003

Vest, E. D., and N. J. Marchette: Transmission of *Pasteurella tularensis* among desert rodents through infective carcasses, 363

Veterinary medicine, *book review*: Advances in veterinary science, 1501

Victorin, and increased ascorbic oxidase activity, 477

Vigilance, studies of, in human beings, 61

VILLEE, C. A., General Zoology, *book review* of, 893

Virology, skim milk as maintenance medium in assay of viruses in cell culture, 89

Virus, adaptation of rinderpest, to rabbits, 252; biological implications of abortive reproduction of animal, 1145; and cancer, 1514; cell cultures in detection and titration of influenza A, 591; Colorado tick fever, isolation from rodents, 413; complement fixation with mouse polyoma, 1339; detection of hog cholera, 366; effect of hog cholera, on Newcastle disease, in tissue culture, 366; hemadsorption, infection of human with, 779; immunogenetic dissection of T5 phage tail, 839; inhibition by protein, 1087; interpretation of properdin levels determined by phage neutralization, 778; maintenance medium for, 89; passage of particles through intact mouse skin, 718; stable influenza, resistant to polysaccharide, 1571

Virus, plant, feathery mottle and internal cork in sweet potato, 203

Visibility, of artificial satellite, gain from polyhedral specular form, 1086

Vision, changes in perceived color of bright stimuli, 898; changes in verte-

brate visual systems at metamorphosis, 1481; luminosity curves of normal and dichromatic observers, 775; and very short flash durations from polyhedral earth satellites, 1086

Vitamin, effects on temperature requirements in plants, 1115; inhibition by dichloroisobutyrate of pantothenate synthesis, 1509; methionine inadequacy of casein hydrolyzate and failure of assay for, 307

Vitamin A, in amphibians and fishes, changes at metamorphosis, 1481

Vitamin E, effect on white muscle disease, 1090

Vitamin K, effect on oxidation of reduced diphosphopyridine nucleotide, 896

Vlitos, A. J. *See* D. G. Crosby, 480

Volumetric analysis, vol. 3 (I. M. KOLTHOFF *et al.*), *book review* of, 766

VON BUDDENBROCK, W., The senses, *book review* of, 894

Vulcanization, with tetramethylthiuram disulfide, 840
