## GRASSLANDS

Editor: Howard B. Sprague 1959

6" x 9", 424 pp., 37 illus., index, cloth. Price \$9.00, AAAS members' cash orders \$8.00. AAAS Symposium Volume No. 53.

This volume is intended as a review of knowledge on many aspects of grasslands resources. The 44 authors were selected by their own professional colleagues as being particularly competent to present the respective subjects. Thirty-seven papers are arranged under these chapter headings:

1. Sciences in Support of Grassland Research
2. Forage Production in Temperate Humid Regions
3. Engineering Aspects of Grassland Agriculture
4. Forage Utilization and Related Animal Nutrition Problems
5. Evaluation of the Nutritive Significance of Forages
6. Grassland Climatology
7. Ecology of Grasslands
8. Range Management

The commission claims independence for neuropathology as a proper medical discipline and emphasizes the necessity of independent positions for full-time neuropathologists. Therefore the commission will examine the situation of neuropathology and neuropathologists in various countries and consider further action for protecting the neuropathologist's basic interests. In international congresses of the various neurological disciplines, the competence of neuropathology is to be recognized in an appropriate way.

Moreover the commission will be interested in preserving and caring for the valuable neuropathological collections in various places. It will try to make it possible for all interested scientists to use these collections.

One of the main tasks of the commission will be that of effectively promoting scientific activities in the field of neuropathology. For that purpose it is proposed that information be exchanged and personal contacts be arranged within the field of neuropathology and between neuropathology and related and basic scientific disciplines to develop suitable methods of investigation.

Finally, the commission is to be a consultative instrument within the World Federation of Neurology—for example, to promote important projects of investigation.

After a thorough discussion it was decided that an international journal of neuropathology should be published, to be issued in several languages.

The secretary of the Commission of Neuropathology will endeavor to keep the various medical journals informed about the activities of the commission. He welcomes all relevant suggestions from his colleagues interested in this project.
