- AAAS, budget for 1960, 505; committees, 506; Cooperative Committee on the Teaching of Science and Mathematics, report on the preparation of high-school science teachers, 1024; council resolutions, 504; Gordon Research Conferences program, 833; membership, 510; officers, committees, and representatives, 506; president elect, 502; presidential address for 1959, 9; public information service, 518; *Science*, results of reader survey, 1639; symposium volumes, 510
- AAAS (affiliates), 503; Association of Clinical Scientists, 1052; New Jersey Academy of Science, 994; Society for the History of Technology, 1246
- AAAS (awards and prizes), 89; competition for Socio-Psychological prize, 1300; competition for Theobald Smith award, 1428
- AAAS (meetings), Chicago, report of, 477, 510; New York, announcement of, 489; New York, preliminary announcement and call for papers, 1616; Pacific Division, announcement of 1960, 1745
- AAAS (Science Teaching Improvement Program), conference on use of special teachers in science and mathematics, 1659; research grants offered by, 1512; study of science teacher certification (*editorial*), 1779
- Abbot, C. G.: Forecast of United States precipitation through 1967 (*abstr.*), 1316
- Absorption, of organic compounds by plants, 1863; self-, of C^{14} radioactivity, correction technique for, 1886
- Absorption spectra, existence of thionine-iron complexes unidentifiable by, 303
- Acclimatization, behavior of rats in the cold after, 1891; effect on thermoregulatory behavior of lizards, 610
- Acetylcholine, as conditioned stimulus for avoidance behavior, 990; failure of liberation of, in tick paralysis, 418
- Acyl N \rightarrow O shift, in poly-DL-serine, 420
- Adair, J. *See* W. McDermott, 197, 280
- Adaptation, vulnerability of collared lemming to warm environment, 42
- Aerosol, collection of airborne microorganisms from, 359
- Africa, growth of scientific activity in, 287; Nubian archeological expedition, 1596; *book reviews*: Africa, 494; Beyond the mountains of the moon, 1207; From empire to nation, 1662; The Afro-Asian states and their problems, 820; The death of Africa, 1662; The lost cities of Africa, 494; Tribes of the Sahara, 1664; Zulu journal, 406
- Age, critical period in infancy for mouse, 227; relationship between perceptual constancy and increase in (*letter*), 238
- Agriculture, in prehistoric New World, 77; low income and population pressure in areas engaged in, 1500
- AHRENS, L. H., *et al.*, Physics and chemistry of the earth, vol. 3, *book review* of, 1214
- Ainsworth, S., and E. Rabinowitch: Electron transfer and absorption spectra of complexes, 303
- Air pollution, effect of synthetic smog on spontaneous activity in mice, 1733; role of sulfur dioxide in photochemical, 1523
- Aitken, T. H. G., *et al.*: Mayaro virus isolated from a Trinidadian mosquito, *Mansonia venezuelensis*, 986
- ALBRAMS, L., and R. S. FERRIS, Illustrated flora of the Pacific states, vol. 4, *book review* of, 1665
- Alexander, B. H. *See* M. Beroza, 1044
- Algae, relation of zooxanthellae to reef-building corals, 668; *book review*: I.C.A.R. monographs on algae, 1604
- Alkaloids, persistence in plant tissue, 1047
- Allan, B. J. *See* J. E. Coleman, 350
- Allen, B. R. *See* E. E. Deschner, 419

- Androgen, nonsteroidal, 1096
- Anesthesia, effect of brain lesions on sleeping time of rats under barbiturate, 662
- Anhder, L. D. *See* C. E. Peterson, 1673
- Animal, classification by enzymic properties, 392; experimental production of mongoloid, 1446; fatal disease in swine due to encephalomyocarditis virus, 498; humaneness and research (*letter*), 263; isolation of human strains of staphylococci from, 927; relationship between radiation, life span, and tumors in, 1808; *book reviews*: Diagnosis of veterinary parasitisms, 1220; The genetic basis of selection, 979; The viruses, vol. 3, Animal viruses, 919. *See also common names of mammals*
- Animal behavior, critical periods for the effects of infantile experience on adult learning in mouse, 227; daily rhythm of light sensitivity in rodents, 33; delayed effects of nicotine on timing in rats, 735; diurnal cycles and cannibalism in planaria, 1884; drinking, of rat, 1735; effect of acclimation on thermoregulatory behavior of lizards, 610; effect of artificial day-night cycles on orientation of homing pigeons, 826; effect of brain lesions on sleeping time of rats under barbiturate, 662; effects of punishment on, 605; effects of stimulation of frontal cortex on delayed alternation performance in monkey, 1443; emotionality and fear in monkeys (*letter*), 1700; exteroceptive block to pregnancy in mice by strange males, 1526; feeding patterns in goldfish, 162; function of reticular system in adaptive, 1096; genetic constitution frustrating sexual drives in *Drosophila paulistorum*, 1381; imprinting (*letter*), 6; intragastric self-injection of water in rats, 497; nomenclature (*letter*), 239; orientation of migratory restlessness in sparrows, 105; physiological effects of drugs as conditioned stimuli for avoidance behavior in dogs, 990; of rats in the cold after acclimatization, 1891; rewarding properties of intracranial stimulation in monkeys, 929; selection of food by size in chimpanzee, 1527; use of operant conditioning for measuring auditory thresholds in rats, 1046
- Annelida, mitotic arrest by deuterium oxide in egg of *Chaetopterus pergamentaceus*, 37
- Annis, B. *See* S. Ochs, 1679
- Antarctica, geologic structure of, 131; recruiting problems of research programs in, 21; research in (*letter*), 628; *book reviews*: A history of polar exploration, 1366; America in the antarctic to 1840, 1037; 90° South, 724
- Anthropology, application of paleoserology to, 701; behavior and beliefs of evacuees of 1960 Hawaiian volcanic eruption, 1095; form of pubic bone in Neanderthal man, 1437; investigation of early man site in highland Ecuador, 1805; joint medical-cultural research among Navajo,

- 197, 280; prehistoric cultural similarities between Siberia and America, 801; technology and settlement in New World, 73; *book reviews*: Adventures with the missing link, 603; Africa, 494; Beyond the mountains of the moon, 1207; Contributions to the physical anthropology of the Soviet Union, vol. 1, No. 2, 1210; Evolution and culture, 1602; From field to factory, 1307; Lewis Henry Morgan, American scholar, 1435; Lewis Henry Morgan: the Indian journals, 1859-62, 404; Man's journey through time, 220; Native peoples of South America, 94; Social change in Tikopia, 1434; Sons of the shaking earth, 602; The antecedents of man, 1208; The leopard's spots: scientific attitudes toward race in America, 1815-59, 981; Tribes of the Sahara, 1664
- Antibiotic, antibacterial activity of acyclic decapeptide analogs of gramicidin S, 669; kanamycin, development of hearing impairment in rats by use of ototoxic, 1046; mosses as possible source of, 108; selecting bacterial mutants by penicillin method, 604; techniques for detection of antibodies to penicillin (*letter*), 1402
- Antibody, detection of penicillin (*letter*), 1402; fluorescent, for detection of anaplasma-antibody complex formed in vitro, 987; iso-, in fur seals, 1310; use of anion-exchange cellulose chromatography for separation of serum activities of, 500
- Antigen, blood type variations in fur seals, 1310; immunological differentiation of epididymal and seminal spermatozoa of rabbits, 1040; induced somatic mutations affecting erythrocyte, 1887; relation to host-parasite interaction of flax and flax rusts, 229; Rh₀(D) genotype and red cell Rh₀(D) antigen content, 1442; spinal cord, induction of allergic encephalomyelitis in rats by injections of, 1448; stability of, 701
- Apparatus, activity-orientation cage, for studying physiology of the orientation of migration in birds, 105; automatic tonometer with exact theory, 1668; cardiometer, for measurement of human heart rate (*letter*), 564; for deuterium analysis, 1680; for electrostatic sampling of airborne microorganisms, 359; 4 π detector, for scanning radiochromatograms, 415; externally energized wireless capsule, for telemetering intraenteric pressure in man, 1814; fall-out collection, efficiencies of, 1791; ionization chamber, for measurement of natural environmental radiation, 903; need for improved macromolecular models, 1309; potometer, 1614; space, in Pioneer V, 815; for steady-state diffusion, 586; for studying adaptation of cardiac output to peripheral runoff in intact dogs, 828; for sun-echo tests, 329; tachistoscope, for studying negative after-image without prior positive image, 1613; for thermal study of pyrosynthesis, 661; transmitter, for signaling high rumen pressures, 611
- Archeology, blood groups of the ancient dead, 699; evidence for early man site in highland Ecuador, 1805; Indian influence on 12th century Romanesque art forms, 1176; Near Eastern prehistory (*meeting report*), 1536; Nubian expedition, 1596; pre-Columbian copper artifacts from western Mexico, 1534; prehistoric cultural similarities between Siberia and America, 801; rescue excavations in Aswan Dam region, 1034; technology and settlement in New World, 73; *book reviews*: Ancient Mexico, 917; Approach to archaeology, 1605; Maya, 97; The face of the ancient Orient, 1728; Lost cities of Africa, 494
