It's So!

says it's so!

You can count on whatever a DC Microammeter records because, first and foremost, it's designed and built for RELIABILITY.

In today's space-age technology, reliability of the highest possible order is an absolute necessity. And in a recording instrument, reliability of this high order is achieved only through simplicity of design and rugged construction.

Esterline-Angus does it by building its recorders with a minimum of components, all of long-life design . . . by building recorders that require few—and simple—adjustments.

It's the outcome of more than 50 years of development and testing . . . of production experience and conscientious quality control . . . of specializing in fine recording instruments.

It's the reason why the Esterline-Angus DC Microammeter, like all E-A recording instruments, is guaranteed for two years.

Now Available The New Unique S.I.U. Disposable Mouse Cage

Developed by the Microbiology
and Design Departments of
Southern Illinois University—

S.I.U. Disposable Mouse Cage Components
(Foreign and domestic Pats. Pend.)

Convenience — no cleaning, washing, sterilizing or maintenance — because, cages are disposable.

Safety — made of a new, tough, chemically inert plastic which is non-toxic. Designed to be escape proof.

Sanitary Handling — can be autoclaved (reducing size to 1/3 original) and then incinerated—or just incinerated. Eliminates unnecessary handling which promotes spread of infections to other animals.

Economy — initial cost per cage is no more than cost of cleaning, sterilizing, maintaining and storing other permanent cage types.

Storage Minimal — measuring 10" long x 8" wide x 4 1/2" deep; bottom area approximately 48 sq. in. Tops and bottoms designed to "nest," saving valuable storage space. 100 cages require but 4 cubic feet of storage.

The S. I. U. Disposable Cages have met all requirements for a low cost, convenient, escape proof and sanitary disposable cage as proved under actual field conditions.

To demonstrate the convenience and economy of the New, S. I. U. Disposable Mouse Cage, an Introductory Sample Test Package is available:

Aloe #1982 — Introductory Sample Test Package, S. I. U. Disposable Mouse Cage, consisting of 12 Bottoms, 6 Tops, 6 Supports, 6 Food Hoppers, 6 Water Bottles with Stoppers and Stainless Steel Water Tubes.....**Only \$19.75**
