- AAAS, appointment of E. G. Sherburne to head program for improvement of public understanding of science, 1823; financial report for 1959, 359; 1960 presidential address, 1913; nominees for office, 900; proposed constitutional amendments, 1558; report of Committee on Science in the Promotion of Human Welfare, 68; *letters*, 555, 1018, 1676, 1732; symposium on science in Communist China, 405, 1628
- AAAS (awards and prizes), competition for Theobald Smith award, 133; Westinghouse science writing award, 132, 883; 1960 winners, 1823, 1938
- AAAS (New York meeting), 228, 1627, 1843; programs: agriculture, 1560; anthropology, 1403; astronomy, 1260; biological sciences, 1319; chemistry, 1259; dentistry, 1503; education, 1645; engineering, 1559; geology and geography, 1318; history and philosophy of science, 1504; industrial science, 1560; mathematics, 1259; medical sciences, 1501; open hearing of Committee on Science in the Promotion of Human Welfare, 1475; pharmacy, 1503; physics, 1259; psychology, 1404; science in general, 1560, 1647; social and economic sciences, 1404
- AAAS (Science Library program), children's science books, 1538; paperbound science books, 609
- AAAS (Southwestern and Rocky Mountain division), 48
- Abbott, J. *See* H. Holtzer, 1494
- Abbreviations, use in journal reference citations, 110
- Abedini, M. *See* A. G. MacDiarmid, 1495
- Abelson, P. H., and T. C. Hoering: Isotope fractionation by photosynthetic organisms, 1488
- Abramson, J. H., *et al.*: Age at menopause of urban Zulu women, 356
- Absorption, of ultrasonic waves in solids, 643
- Absorption spectra, and chlorophyll *a*, 355
- Accelerators, Brookhaven synchrotron begins operation, 406; *book reviews*: Accelerators, 950; Fast neutron physics, 613
- Acculturation, *book review*: Social change, 465
- Acetohydroxyhexadecene, as sex attractant for gypsy moth, 1011
- Acetone dihydroxy-, staining of skin by, 894
- Acetylcholine, effect of hypothalamic injections on consummatory behavior of rats, 301
- Acetylcholinesterase, regeneration after inactivation, 1249
- Acheta domesticus*, nutrition of, 1891
- Aconitic acid, isolation of *trans* form from moss, 1671
- Acoustics, damping of high-frequency sound in solids, 643
- Acrididae, communicative mandible-snapping in, 152
- Acrylic acid, isolation from *Phaeocystis*, 676
- Actidione. *See* Cycloheximide
- ADAMS, A., and N. NEWHALL, This is the American earth, *book review* of, 1759
- Adrenaline, effect of hypothalamic injections on consummatory behavior of rats, 301
- Advertising, "science" in, 1457, 1749
- Aedes aegypti*, sex ratio in, 1887
- Aerodynamics, of bird flight, 191
- Africa, political problems of disease control in, 652; *book reviews*: Africa today and tomorrow, 731; Agriculture and ecology in Africa, 344; The new Nigerian elite, 1882; Oasis and casbah: Algerian culture and personality in change, 1390; The Stone age in northern Africa, 1829; Tropical Africa, vol. 1, 1542; vol. 2, 1544
- Agassiz, Louis, *book review* of biography of, 1655
- Age, effect on Sr<sup>90</sup> content in man, 449; at menopause of urban Zulu women, 356
- Aging, general theory of mortality and, 14; pygmy marmoset as subject for study of, 415; *book review*: Handbook of aging and the individual, 140
- Agriculture, government appropriations for research in, 605; history of U.N. Food and Agriculture Organization, 871; pattern of spread of hybrid corn, 275; *book reviews*: Agricultural policy, politics, and the public, 949; Agriculture and ecology in Africa, 344; Biological and chemical control of insect pests, 1831; God speed the plow, 1884; Harvest and harvesting through the ages, 1884; Power to produce, 1884; Readings in the history of American agriculture, 1884
- Agronomy, contributions of F. S. Harris to, 533
- AHARONI, J., The special theory of relativity, *book review* of, 217
- AIB. *See*  $\alpha$ -Aminoisobutyric acid
- Air pollution, contribution of Hardtack debris to air contamination during 1959, 154; protection of plants from ozone injury, 150; *book review*: Chemical analysis of air pollutants, 80
- Airplane, comparison with bird, 196; nuclear powered, 658
- AITCHISON, L., A history of metals, *book review* of, 887
- Akert, K., *et al.*: Learned behavior of rhesus monkeys following neonatal bilateral prefrontal lobotomy, 1944
- Alabama, Eocene microflora from, 808
- Alaska, *book reviews*: Birds of Anaktuvuk Pass, Kobuk, and Old Crow, 802; Ecology of the peregrine and gyrfalcon populations in Alaska, 1832
- Albite, crystal structure refinement of analog of, 1837
- Alcohol, effects of avoidance conditioning on consumption of, by rhesus monkeys, 223; ethyl, effects on avoidance behavior in rats, 42
- Alexander, R. D.: Communicative mandible-snapping in Acrididae (Orthoptera), 152
- Algae, extraction of chlorophyll from, by sonification, 351; fluoride-induced respiration in *Chlorella pyrenoidosa*, 1553; inhibition of photosynthesis in *Porphyridium cruentum* by far red light, 422; isolation of acrylic acid from *Phaeocystis*, 676; isotope fractionation by *Chlorella pyrenoidosa* (*abstr.*), 1488; light and electron microscope study of cell walls of *Dictyota flabellata* and *Helminthocladia californica*, 1663; molybdenum limitation of growth of, 1016; morphogenesis and wall structure in growing cells of *Nitella* (*abstr.*), 1492; nucleic acids in deuterated *Chlorella vulgaris* and *Scenedesmus obliquus*, 893; packaged *Pithophora oedogonia* as monitor for radionuclides, 1554; second Emerson effect in Hill reaction of *Chlorella*, 421; streptomycin as mutagen of nonchromosomal elements in, 1462; synxenic and axenic cultivation of rotifers in media containing, 416; systems of genetic determinants in *Chlamydomonas*, 1459; two forms of chlorophyll *a* in *Chlorella* and *Navicula* with distinct photochemical functions, 355; *book reviews*: Algenkunde, 1759; Marine algae of the eastern tropical and subtropical coasts of the Americas, 1245. *See also* Protista
- Algeria, *book review*: Oasis and casbah: Algerian culture and personality in change, 1390
- Alkali, effect on rate of dialysis of certain sugars through cellophane, 153
- Alkylation, mechanism of biological (*abstr.*), 1498
- Allen, E. M.: Why are research grant applications disapproved?, 1532
- Allen, W. H.: Conversions (*letter*), 848
- Allium*, use of cytoplasmic male sterility in making interspecific crosses in, 1481
- ALT, F. L. (Ed.), Advances in computers, vol. 1, *book review* of, 1143
- Alvim, P. de T.: Moisture stress as a requirement for flowering of coffee, 354
- American Institute of Biological Sciences, communications project, 1752; Russian translation program, 212
- American Medical Association, disputed survey on attitudes toward medical care for the aged, 604; and health insurance plans, 1750; and patent medicines, 944
- American Men of Science*, finances (*letter*), 1678; *book review* of, 1547
- Amino acid, antifungal activity of synthetic polylysine, 1664; origin of life and production of, 200; seleno-, in *As-tragalus bisulcatus*, 618
- $\alpha$ -Aminoisobutyric acid, influence of anabolic steroids on uptake by levator ani muscle of rats, 41
- Aminotriazole, antithyroid effects of, 296
- 3-Amino-1, 2,4-triazole, relation of phytotoxicity of, to inhibition of riboflavin, 622
- Amiot, L. W. *See* H. von Foerster, 1291
- Amoebae*, protein uptake by pinocytosis in (*abstr.*), 1496
- Amphibia, apparatus for feeding toads, 953; diffusion of choline through frog skin, 85; effect of temperature and anions on titration curves for frog muscle, 669; monolayer cell culture of, 1890; nuclear differentiation in frogs (*abstr.*), 1495; perception of apparent motion by toads, 953, 1683; pineal regulation of body pallor in larvae of *Xenopus laevis*, 1481; thiocetic acid in eye of frog, 1668
- Anaerobiosis, in sandy marine beaches, 616
- Analgesia, suppression of pain by music and noise, 32
- Anas*, control of behavior of *A. rubripes tristis* and *A. platyrhynchos* with imprinted stimulus, 1395
- Anatomy, *meeting report*: 7th international congress of anatomists, 426
- Anderle, R. J. *See* C. J. Cohen, 807
- Anderson, E.: *book review*: Metropolis and region, 802
- Anderson, M. G.: Southwestern and Rocky Mountain Division (*meeting report*), 48
- Anderson, P.: Artificial biosphere (*letter*), 250
- Anderson, T. F. *See* C. Breedis, 1489
- , and D. H. Walker, Jr.: Morphological variants of the bacteriophage  $\phi_1$  (*abstr.*), 1488
- Andrews, R. C., *obituary* of, 21
- Angello, S. J. *See* S. W. Herwald, 1127
- Animal, bill for regulating use of laboratory, 7, 851, 1858; lethal effect of visible light on cave, 226; *book review*: Infectious diseases of animals, 30
- Animal behavior, avoidance learning and relearning in rats as function of shuttle-box dimensions, 620; brightness discrimination in "split-brain" cats, 734; communicative mandible-snapping in grass-

- hoppers, 152; conditioning of vocal responding in chickens, 37; discrimination of tones during reinforcing brain stimulation, 297; effect of avoidance conditioning on alcohol consumption of monkeys, 223; effect of damage to interpeduncular nucleus on avoidance conditioning in rat, 1551; effect of ethyl alcohol on avoidance conditioning of rats, 42; effect of hormones on incubation in ring dove, 1667; feeding patterns of fish, 896; imprinted stimulus for control of duck, 1395; induction of eating and drinking by adrenergic and cholinergic stimulation of hypothalamus, 301; learned behavior of monkeys after neonatal prefrontal lobotomy, 1944; learning and problem solution in marmoset (*abstr.*), 1501; licking rates of albino rats, 739; migration of fish, 785; neurological basis of (*abstr.*), 1498; normal sources of pathological, 61; perception of apparent motion by toads, 953, 1683; periodic breathing responses to high levels of carbon dioxide and high and low levels of oxygen, 957; phoretic interaction of mite and fly, 738; respondent conditioning during operant conditioning in dogs, 619; retinal flicker and imprinting, 1834; role of adipia in lateral hypothalamic starvation (*abstr.*), 1491; shark, 323; simultaneous generalization gradients for appetitive and aversive, 1769; sound production by minnows, 222; surface feeding and swimming depth of porpoise, 35
- Animism, in popular science writing, 113
- Anions, effect on titration curves of frog muscle, 669
- Annealment, thermal, effects on free radicals, 1768
- Antarctica U.S. Senate ratification of treaty on, 455
- Anther, protein changes accompanying development of lily, 897
- Anthraxite, three-dimensional x-ray reflections from, 1314
- Anthropology, village solidarity of Turkish peasants undergoing urbanization, 891, 1688; *book reviews*: Anthropological papers, 888; Cochiti, 344; In the company of man, 889; Oasis and casbah: Algerian culture and personality in change, 1390; Philosophical anthropology and practical politics, 664; *Le razze e i popoli della terra*, vols. 1-4, 29; Social change, 465; *meeting report*: biochemical anthropology, 1506
- Antibiotic, isolation of algal substance that inhibits gastrointestinal microflora of penguins, 676; sexual recombination in homothallic fungus that produces, 1670; streptomycin as mutagen of non-chromosomal elements in algae, 1462; *book review*: The search for new antibiotics, 345
- Antigen and antibody, formation of antibody by transfer of lymph node cells (*abstr.*), 1493; immunological technique for protein isolation, 1252; isolation of antibodies to gelatin and tyrosylgelatin by selective proteolysis of the antigen, 86; properties of the major component of a peptic digest of rabbit, 1770; removal of antigen from complex with antibody by proteolysis, 86; role of disulfide pairing in biosynthesis of antibody (*abstr.*), 1494; specific inhibition of Rh(D), by sialic acids, 1398; three normal human  $\gamma$ -globulins revealed by monkey precipitins, 1313
- Antimatter, method for investigation of, 13; properties of antiparticles, 9, 269
- Apogon, luminescence reaction of *Cypripodina* and, 422
- Apparatus, capacity electrode for chronic stimulation of tissue, 356; for feeding toads 953; glass-insulated platinum microelectrode, 1309; for establishing high magnetic fields, 390; hydraulic holding device for recording nerve action currents, 1312; image intensifier for study of rare decay modes of elementary particles (*abstr.*), 1495; instruments as tools of science, 1913; microminiaturization of electronic, 1127; multipurpose soil percolator, 224; new, in optical astronomy, 73; nomenclature of biomimetic devices, 1248, 1910; pens for maintaining sharks, 424; for polarography, 123; shuttlebox, effect of dimensions on animal behavior, 620; for sterilization of interplanetary vehicles, 993; for studying thermal inactivation rate (*abstr.*), 1500; wind tunnel for hail research, 1095
- Appleman, D. E. *See* J. R. Clark, 1837
- Arabian peninsula, geomorphology and geology of, 1369
- Arachnida, attractant in fly pupae for hypopi of *Myiangoetus muscarum*, 738; chromatographic comparison of venoms *Hadrurus*, *Centruroides*, and *Vejovis*, 895; impairment of muscle stretch reflexes caused by *Dermacentor andersoni* paralysis, 958; isolation of ornithosis virus from feather mites, 300; *book review*: Ticks, 291
- Archeology, Egyptian antiquities and Aswan Dam, 609; excavations in Shanidar cave, Iraq (*news*), 1002; preceramic corn pollen record in Arizona, 33; prehistoric settlement in Egypt, 1617; *book reviews*: Indian life in the upper Great Lakes, 1243; An introduction to Kansas archeology, 463; The making of the broads, 1007; North Arabian Desert archaeological survey, 1925-50, 1934; Prehistoric investigations in Iraqi Kurdistan, 731
