DREAMS OF REASON

By *René Dubos*. The relationship of science to modern society, explored in original terms. Dr. Dubos shows how philosophical and social assumptions, more than physical needs, influence the beliefs and activities of scientists. He contends that science remains within general culture by its need to examine constantly the meaning and value of those assumptions. \$5.00

SOVIET MARXISM AND NATURAL SCIENCE, 1917-1932

By *David Joravsky*. Examines Soviet philosophy of natural science in its first phase, pointing up Party policies and dissensions and the changing composition of the scholarly community. \$7.50

ANNOUNCING!

UNIFORM ROCKLAND

DIETS NOW IN

NEW SIZE, NEW SHAPE

For more efficient feeding

Easier eating...Less waste

NO CHANGE IN FORMULATION

New 3/16" bite-size pellet now available in Rockland Rabbit and Guinea Pig Diets.

New flat-oval, can't-roll pellet now available in Rockland Mouse and Rat Diets.

Greater ease and convenience of feeding; improved, more uniform feed intake; less waste—these are but three reasons why investigators prefer the new pellet size and shape of Rockland Diets. These new pellets flow easily and efficiently through standard feeders, assuring an adequate feed supply for the animal at all times. And because animals find these pellets easier to eat, less fines and crumbles result. For improved productivity, efficiency and economy, investigate the many advantages of famous Rockland Standard Reference Stock Diets—available in new improved size and shape. See your Rockland Dealer for further information, or write: A. E. Staley Mfg. Co., Decatur, Illinois, manufacturers and distributors of:
