

## The all-new, all solid-state Philbrick P2 amplifier

**NO TUBES, NO CHOPPERS, NOTHING BUT PERFORMANCE.** An ingenious arrangement of all solid-state components endows this operational amplifier with the most remarkable and versatile characteristics. But let's let them speak for themselves. *Full differential input:* truly floating with respect to ground. *No common mode error.* *Low input current:* typically  $10^{-11}$  amps. *Low noise:* typically under 10 microvolts in the dc to 1 kc range. *Sub millivolt long term stability:* less than 100 microvolts drift per day. *Cool running:* typically 330 milliwatt dissipation. *Wide band pass:* typically 75 kc as a unity gain follower. *High open loop gain:* typically 30,000. **\$210.** *Truly low cost:*

Use the P2 for instrumentation, analog computation, and other applications requiring high reliability and accuracy. Discover its marvelous versatility and convenience. Add, integrate, scale, invert with it. Take advantage of its differential inputs to perform very high impedance voltage following (or amplification), precise current driving, and many other useful applications. The P2's output delivers 1 ma at  $\pm 10$  volts. The cast aluminum housing fits right in your hand. *Please write for further information to:*

molecular and functional evolution of neurohypophyseal principles associated with the names of W. H. Sawyer, H. Heller, and J. Maetz; on higher nervous centers as they impinge upon the hypothalamo-hypophyseal complex; and on the insect subesophageal ganglion as an endocrine structure. Crustacean neuroendocrinology, too, was only touched upon.

The 4th International Symposium will be held in Paris in 1964, under the leadership of Louis Gallien. It will face the challenge of maintaining the high quality of the first three symposia and of providing continued coverage of "frontier" areas in the growing field of comparative endocrinology.

## New Philbrick 6033 solid-state power supply

**BALANCED OUTPUTS, COMPUTING GRADE.** The 6033 is the latest addition in the distinguished line of Philbrick power supplies. It will energize at least 10 Philbrick P2 amplifiers and other transistorized electronic equipment. Like the P2, its remarkable characteristics speak for themselves. *Low internal impedance:* less than 2 milliohms. *Low noise and hum:* guaranteed less than 150 microvolts rms (0.001%). *Highly regulated outputs:* against load, less than 300 microvolts; against line, less than 200 microvolts. *Low long term drift:* typically 0.1%. *Short transient recovery time:* no load to full load, less than 1 millisecond. *Unique short circuit overload protection:* inherent in the 6033's design with no extra circuitry to deteriorate performance. *Truly low cost:* about half that of supplies with comparable performance. **\$285.**

Operates from 115 volt, 50-400 cycles, providing up to 150 ma at plus AND minus 15 volts, slaved to a common reference. Conveniently packaged, cool running, and highly reliable. Available as bench model or modular plug-in. Bench model dimensions:  $3\frac{1}{2}$ " h x  $5\frac{1}{2}$ " w x  $7\frac{1}{2}$ " d. Also available with 300 ma output.

## NOW...7 MORE VALUES FOR CONTROL OF YOUR CLINICAL CHEMISTRY DETERMINATIONS

Hyland Clinical Chemistry Control Serums are useful as CONTROLS, run in parallel with unknowns as checks on equipment, reagents and technic, or as STANDARDS to calibrate equipment and standardize reagents. Prepared from freshly drawn human blood, they have the same natural constituents as your specimens. Freeze-dried for STABILITY, they are prepared for use simply by the addition of distilled water. After reconstitution they remain stable for five days (except for glucose) when stored under refrigeration.

Supplemental Normal Clinical Chemistry Control Serum: 5 cc vials, box of 3 vials (list no. 36-935) at \$5.50. Abnormal Clinical Chemistry Control Serum: 5 cc vials, box of 3 vials (list no. 36-835) at \$5.50 or 6 vials (list no. 36-865) at \$9.00. Normal Clinical Chemistry Control Serum: 5 cc vials, box of 6 vials (list no. 36-905) at \$9.00.
