

ANNOUNCES the 1962 PRICE LIST of HIGHLY PURIFIED

**5'-RIBONUCLEOTIDES
5'-DEOXYNUCLEOTIDES
COENZYMES
DPN-ANALOGS
NUCLEIC ACID and
HYDROLYSIS PRODUCTS**

Each year we take pride in adding new products to the growing list of Pabst fine biochemicals and lowering the cost of others. This year is no exception and many of our established products are now available at greatly reduced prices. Increased demand for our products have made these savings possible.

This new price list is another example of our continuing policy to prepare research biochemicals of the highest quality and offer them at uniform moderate prices.

If you would like a copy of our 1962 price list, please circle 182 on the *Science* Readers' Service Card or write direct to:

WORLD LEADER IN COENZYME-A

- (1960); E. Bartels, W. D. Dettbarn, H. Higman, P. Rosenberg, *ibid.* 2, 361 (1960).
6. I. B. Wilson and E. Cabib, *J. Am. Chem. Soc.* 78, 202 (1956); A. M. Gold, unpublished data.
7. E. Bartels, unpublished experiments.
8. W. D. Dettbarn, *Nature* 186, 891 (1960).
9. R. R. Walsh and S. E. Deal, *Am. J. Physiol.* 197, 547 (1959).
10. P. Rosenberg and S. Ehrenpreis, *Biochem. Pharmacol.* 8, 192 (1961).
11. P. Rosenberg and T. R. Podleski, in preparation.
12. F. C. G. Hoskin and W. D. Dettbarn, *Biochim. et Biophys. Acta*, in press.
13. C. J. Armett and J. M. Ritchie, *J. Physiol. (London)* 152, 141 (1960).
14. W. D. Dettbarn and F. Davis, *Science*, in press.

A Two-Way Affair

Edmund W. Sinnott [*Science* 135, 278 (26 Jan. 1962)] assumes that such letters as he suggests [to individuals in the U.S.S.R.] would reach the person addressed. I have serious doubts about that. I know from experience that letters from the United States are not exactly welcomed behind the iron curtain. This includes letters to relatives.

The spread of good will must be a two-way effort to have any value. I wonder if Sinnott can show us a letter, similar in content to his, published in a leading journal of science of the U.S.S.R.

WILLIAM EISENMAN
160 West 77 Street, New York

As Eisenman points out, good will is a two-way affair, but this does not mean that we should wait for someone on the other side to make the first overture. There is a wide interchange of friendly correspondence between American and Soviet scientists, and my suggestion simply is that in connection with this, or as an extension of it, there be more formally expressed the desire for sincere good will between our peoples.

EDMUND W. SINNOTT

New Haven, Connecticut

Science Curriculum in Argentina

Garrett Hardin's review entitled "The 'two cultures' within biology" [*Science* 134, 548 (1961)] has somewhat belatedly come to my attention.

With reference to his query and comment, "What is to be done? Possibly planning within universities can put a brake on the speciation process by requiring physical scientists to take at least one biology course . . .," I

new automatic scanning multi-channel recording tele-thermo meter

Model 47

Price \$295

Major Features

- Temperature range: four stock ranges, fifteen semi-stock ranges, from -45°C . to 150°C . (-50°F . to 300°F .).
- Automatically scans 3, 7, or 11 channels as standard.
- Direct reading and recorder output, each channel, for 20 sec., 1 min., or 5 min. as standard.
- Recorder output for 100-120 millivolt recorders. YSI Model 80 (\$295) completes system.
- Simple identification of recorded channel provided.
- YSI interchangeable thermistor based temperature measurement.
