## HERE'S A QUALITY STUDENT MICROSCOPE AT A BUDGET PRICE!

Although budget priced, the UNITRON Model MUS is definitely not just another student microscope. It includes these significant features often lacking in much more costly student models:

- NOT JUST a disc diaphragm... but an iris diaphragm for perfect control of aperture and contrast.
- NOT JUST a single focusing control... but both coarse and fine.
- NOT JUST a mirror... but a 0.65NA condenser for optimum illumination and resolution.
- NOT JUST two objectives... but three: achromatic 5X, 10X, 40X.
- NOT JUST an ordinary eyepiece... but a coated 10X Wide Field for large, flat fields.
- PLUS THESE SPECIAL FEATURES... larger stage projects beyond objective preventing damage to objectives and nosepiece. Automatic stop for fast focusing and to prevent breakage of specimen slides and optics. Durable, sturdy — withstands the use and abuse of classroom and laboratory.
