

MODERN RESEARCH-MINDED LABS are quick to recognize how Nalgene® labware meets, and often exceeds, their own critical standards. Take, for example, the new Nalgene beakers and bottles of TEFLON* FEP. Their extreme temperature range (from -270°C to $+205^{\circ}\text{C}$) lets them handle or store cryogenic materials, then shrug off the heat of any sterilizing method. They're inert to just about *all* chemicals. And unbreakable! Now, for the first time, Nalge's advanced technology makes them available at production-run prices. You'll find the same uncompromising quality, and the same economy, in each of the hundreds of items, from pipets to carboys, in the world's most complete line of plastic labware. See your lab supply dealer, or write for your copy of Catalog L-962. Dept. 2726, The Nalge Co., Inc., Rochester 2, New York.

*DuPont registered trademark

**NALGENE
LABWARE**
Leader in quality plastic labware since 1947

AN ELECTRONIC VIEWFINDER CAMERA FOR PRIVATE TV SYSTEMS—
at a price your school can afford

New Sylvania Electronic Viewfinder camera—with built-in monitor—permits perfect picture composition. Lets you control precisely the quality of the picture your students will see on remote classroom monitors.

Never before has a Viewfinder camera for private TV systems been available at a price schools can really afford. It's the newest addition to Sylvania Direct Wire TV...one of the lowest-cost, easiest-to-use private TV systems.

Sylvania Direct Wire TV helps overcome the teacher and classroom shortage. Makes it easy to teach large groups. Effective in showing lab experiments, microscope slides, and complex demonstrations.

Write for free Educational TV Manual

This manual has been carefully planned and written for school administrators and other interested personnel. It is a thorough, up-to-date study of the value of television in education today. Discusses how TV can solve vital problems of today's overcrowded

schools. Answers many common questions about TV in education. Tells what TV can bring to the classroom. Explains how schools can plan for TV. Describes equipment, and gives basic information on how TV is transmitted and received—all in nontechnical language.

This 32-page manual is the result of extensive research, and is the most complete and concise study ever offered. It should serve as a valuable guide and introduction to one of the most significant technological developments in education since the invention of printing. Write today!

Sylvania Home & Commercial Electronics Corp.
Marketing Subsidiary of
Sylvania Electric Products Inc.
730 Third Ave., Dept. S-6 New York 17, N. Y.

☐ Please send more information on Sylvania's new low-cost Electronic Viewfinder camera.

☐ Please send Sylvania's new Educational TV Manual and more information on how to arrange a free visual communication survey for my school.
