

PERSONNEL PLACEMENT

CLASSIFIED: Positions Wanted. 25¢ per word, minimum charge \$4. Use of Box Number counts as 10 additional words. Payment in advance is required.

COPY for ads must reach **SCIENCE** 2 weeks before issue date (Friday of every week).

DISPLAY: Positions Open. Rates listed below—no charge for Box Number. Rates net. No agency commission allowed for ads under 4 inches. No cash discount. Minimum ad: 1 inch. Ads over 1 inch will be billed to the nearest quarter inch. Frequency rate will apply only to repeat of same ad. No copy changes. Payment in advance is required except where satisfactory credit has been established. Send copy for display advertising to **SCIENCE**, Room 1740, 11 West 42 St., New York 36.

Single insertion \$65.00 per inch
4 times in 1 year 60.00 per inch

For **PROOFS** on display ads, copy must reach **SCIENCE** 4 weeks before date of issue (Friday of every week).

Replies to blind ads should be addressed as follows:

Box (give number)
SCIENCE
1515 Massachusetts Ave., NW
Washington 5, D.C.

POSITIONS WANTED

Anatomist, Ph.D. Embryology/histochemistry interests. Experienced teaching gross, some embryology. Current grant support. Box 114, **SCIENCE**. 4/26

Anatomy, Ph.D. Neuroanatomy and gross teaching experience. Research, publications, grant. Box 123, **SCIENCE**. X

B.S., M.A., Biological and Physiological Sciences, 27; 3 years of cancer research experience. Desires assistantship anatomy toward Ph.D. degree. Available September. Box 106, **SCIENCE**. X

Microbiologist, postdoctoral research and teaching experience. Bacteriology, protozoology, immunology. Faculty appointment in graduate school. Teaching-research position with opportunity for independent work. Box 121, **SCIENCE**. 5/3, 10, 17

Microbiologist, M.S. desires position in industry. Background and interest in microbial physiology, particularly yeasts. Patent and publications. Box 122, **SCIENCE**. X

(a) **Ph.D. Zoologist**, 12 years of teaching, research experience; histology, parasitology, physiology, cell biology interests. (b) **Ph.D. Microbiologist**, broad background teaching, research in bacteriology, immunology, immunochemistry; prefers medical school affiliated hospital. (c) **Ph.D. Genetics** (reproductive physiology), prefers teaching and research. (Please write for more information regarding these and other scientists, senior and junior, in all fields.) Science Division, The Medical Bureau, Inc., Burnice Larson, Chairman, 900 North Michigan Avenue, Chicago 11, Illinois. X

Teaching Position. Desire opportunity to teach earth science, geology, and related courses; M.S. geology. Box 120, **SCIENCE**. X

Technical Editor, Writer, M.S. Strong chemical background; 15 years' experience in analytical chemistry and pharmaceutical editing. General knowledge of languages. Box 118, **SCIENCE**. X

POSITIONS OPEN

BIOCHEMIST

Recent Ph.D. or equivalent (M.S. plus experience) in Biochemistry. Training in protein chemistry, enzymes and polysaccharides. Substantial background in chromatography and electrophoresis essential. Modern laboratories located in central New Jersey. Forward résumés including salary requirements in confidence to: **William J. Callahan, Personal Products Company, a division of Johnson & Johnson, Milltown, New Jersey.**

POSITIONS OPEN

AMERICAN COLLEGE BUREAU

and

FISS-YATES TEACHERS BUREAU

28 E. Jackson Blvd., Chicago 4, Illinois

A nationwide placement service for college and high school teachers.

WANTED:

Ph.D.

in
**ELECTRICAL
ENGINEERING**

With experience and/or thesis in one or more of the following:

- *Communications Systems*
- *Telemetry & Tracking*
- *Operations Research*
- *System Programming*
- *Information Theory*

One of many major benefits is the professional environment and status you will enjoy at **HUGHES-FULLERTON R&D**.

For complete information, please write:

DR. ARNOLD SMALL

HUGHES

HUGHES AIRCRAFT COMPANY
FULLERTON R & D
P. O. Box 3639, Fullerton, Calif.

An equal opportunity employer.

PREDOCTORAL TEACHING ASSISTANTSHIPS IN PHYSIOLOGY available in September, 1963. Stipend depends upon background and teaching experience. Research training in biophysics, environmental, respiratory, cardiovascular, neuromuscular, cellular, endocrine and metabolic physiology offered. Send inquiries to: **Chairman, Department of Physiology, Ohio State University, Columbus 10, Ohio.**

UNIVERSITY OF SASKATCHEWAN APPOINTMENTS IN BIOLOGY

Assistant Professor of Vertebrate Zoology. Ph.D. for research, teaching in embryology and comparative anatomy. Salary \$7,500 to \$9,300, depending on experience. Benefits and removal allowances. Effective July 1st; duties commence September.

Temporary Appointments. Instructors or Assistant Professors in animal ecology and animal physiology to replace two staff members who are on leave for 1963-64. Salary, \$6,000 to \$9,300 per annum, depending on qualifications and experience. Appointments for a shorter period (Sept.-May) can be arranged.

A curriculum vitae, recent photograph, and the names of three referees should be submitted to **Dr. M. Shaw, Head, Biology Dept., University of Saskatchewan, Saskatoon, Saskatchewan.**

MELPAR'S EXPANDING RESEARCH DIVISION

has immediate need for key personnel to conduct research in the following areas:

- ☐ **BIOCHEMISTRY**
- ☐ **VIROLOGY**
- ☐ **IMMUNOCHEMISTRY**
- ☐ **PHARMACOLOGY**
- ☐ **BIOPHYSICS**

Applicants with experience desired, but new graduates will be considered.

POSITIONS OPEN

Associate Director Public Health Laboratory. Administrative Responsibility. Serology, Bacteriology, Milk, Water, Radiation. M.S. or Ph.D. Experience Required. Salary Open. Write **Cattaraugus County Health Department, Box 573, Olean, N.Y.**

BIOCHEMIST OR NUTRITIONIST

Ph.D. Fundamental work in nutritional or biochemical pathology.

Head, Pathology and Microbiology
Colorado State University
Fort Collins, Colorado

(a) **Biochemist**, Ph.D./experienced M.S.; supervise clinical laboratory; California hospital; \$10,000 up. (b) **Food Chemist**, B.S./M.S., gas chromatography, instrumentation background; smoke research; central; \$7000-\$8000. (c) **Pharmacologist**, M.S., inhalation, industrial hygiene experience; Southeast pharmaceutical house. (d) **Chemist**, anticoagulant drug research; West Coast hospital; to \$617. (e) **Experimental Physicist**, optics experience; West Coast. **Faculty Appointments:** (f) **Medical Technology**, B.S./M.S., biology courses; eastern junior college; from \$6000. (g) **Microbiology**, Ph.D. or near; biochemical/biophysical cellular background; small central college; \$7000 up. (h) **Biology**, Ph.D. and M.S.; midwestern university. (i) **Physical Science/Geology**, Ph.D./M.S., California junior college; to \$8200. (j) **Ph.D. Plant Pathologist**, extension experience; Northwest; from \$8100. Many other opportunities available for both Junior and Senior scientists. Please write to Science Division, **The Medical Bureau, Inc., Burnelle Larson, Chairman**, 900 North Michigan Avenue, Chicago 11, Illinois. X

Chemist or Biochemist, M.S. for supervisory position in Metabolic Research Laboratory supported by University grants. Ability to organize work indispensable. Salary commensurate with qualifications and experience. Write to **Dr. Herta Spencer, Metabolic Research Unit, V. A. Hospital, Hines, Illinois** (Suburban Chicago area).

EMBRYOLOGIST

for expanding Slide Department of biological supply company. Background in vertebrate embryology and experience in microscope slide preparation required. Salary commensurate with education, training, and experience. Excellent working conditions, suburban area, employee benefits, paid vacation and holidays, opportunities for advancement.

Box 105, SCIENCE

HEAD LIBRARIAN

Responsible position for administering complete operations of the library and its staff in modern, Research Information Center. Location is close to Rutgers University. Requires M.S./L.S.; life science or chemistry background. Knowledge of some foreign language desired. Experience in a technical library is helpful.

Please send résumé to:

Remember those in need across the world. Every \$1 sends one gift package thru the **CARE Food Crusade**, New York 16, N.Y.

Buchner funnels with filters of the same labeled porosity were taken from stock and tested, using identical solutions.

If you think **FRITTED WARE** is all the same . . . compare Kimax®

Compare. Filtrations indicate there is a difference. From one test to the next, other brand porosities may vary as much as 100%. Kimax does not. In manufacture, Kimble keeps pore sizes within maximum and minimum specifications. Every disc. Every piece of fritted ware. Every shipment. Every time.

Consider. Here's what Kimax fritted ware's controlled

porosities, inspected in every batch, mean to you: uniform dispersion or scrubbing of gas in liquid, exact filtration results, controlled blocking in bacteriological work—accurate analyses that can be duplicated time after time. The same accuracy is built into every piece of Kimax fritted ware and every fritted disc. Catalog supplement SC-180 contains specifications and prices.

You get more of the better things first from Kimble.

Serum, plasma or urine determinations quickly and accurately... from a single drop

THE NEW AO TS METER* requires just one drop of sample to provide immediate, accurate determinations of total solids, specific gravity, refractive index, protein concentration or water concentration in serum, plasma and urine.

MINUTE SAMPLE REQUIRED: As little as 0.02 ml . . . a single drop . . . of sample is sufficient for the most precise determinations.

TEMPERATURE COMPENSATED: Unique, hermetically-sealed liquid prism eliminates error due to temperature changes. Samples, whether at body or refrigerated temperatures, can be read immediately when the ambient temperature of the instrument is between 65-95° F.

URINE SPECIFIC GRAVITY: No more "Q.N.S." reports. Ideal for pediatrics, oliguric patients and in collections

from ureteral catheters. Readings are consistently obtained with a degree of accuracy, speed or reproducibility significantly better than those obtained with urinometers, the falling-drop method or with instruments uncompensated for temperature.

SERUM PROTEINS: Ideal for rapid screening of serum proteins. Samples as small as those obtained from a microhematocrit tube are ample.

DIRECT READINGS: You make an immediate analysis directly from the built-in scale . . . reading to 0.1 percent total solids . . . without references to graphs, tables or thermometer readings. Model 10400 provides determinations of total solids in plasma or serum and urine specific gravity; model 10401 gives readings of protein concentration and refractive index. Write for complete information!

**Total Solids Meter. This method of analysis using the Goldberg Refractometer was developed in close cooperation with Dr. A. V. Wolf, Head of the Department of Physiology, University of Illinois, College of Medicine, Chicago, Ill.*
